

Dear Senator:

If we ever hope to have a government that works for all the people, we must create a system where every vote makes a difference. We need to create as many competitive districts as possible so that everyone knows that their vote could make the difference.

With gerrymandered districts, it does not take long for voters to figure out that it doesn't matter whether they vote or not, the outcome is predetermined. For a democracy to work, every vote must matter. Please support those maps that include the most districts that are competitive. Our Democracy depends on it.

Mary Till
