## **Addressing NH Waste**

**Concord, NH** - Following the tabling of House Bill 56, Senator Avard released the following statement:

"This approach has already been vetoed by the Governor. The Senate has crafted a much better solution in SB 61, which creates a two-year moratorium to site any new landfill to protect New Hampshire waterways. We hope the House will agree to this bipartisan consensus as the best way to protect New Hampshire's precious water quality.
