When can I get a **COVID-19 VACCINE** in NH?

Updated: 1/21/2021

PHASE **1B** NOW OPEN

To register go to www.vaccines.nh.gov

DECEMBER - MARCH*

- People 65 and older
- Medically vulnerable people under 65 who are at significantly higher risk with 2 or more conditions
- Family caregivers of medically vulnerable persons under 16 years old
- Residents and staff of residential facilities for persons with intellectual and developmental disabilities
- Corrections officers and staff working in correctional facilities
- First responders and health workers not already vaccinated

PHASE **2**

MARCH - MAY*

PHASE **2A**

- K-12 school and childcare staff

PHASE **2B**

- People 50-64 years old

PHASE **3**

MAY and BEYOND*

PHASE **3A**

- Medically vulnerable people under 50 years old at moderately higher risk with 1 or more conditions

PHASE **3B**

- Everyone else not already vaccinated

Visit vaccines.nh.gov or call 2-1-1 for more information.

*Estimated time frame depends on vaccine doses allocated to NH from the federal government and vaccine uptake.

ReadyNH.gov
TAKE ACTION. BE SAFE.

1/21/21

Vaccine Rollout as of February 18, 2021

Vaccine Doses Allocated, Distributed, and Administered by Vaccination Site Group

Vaccination Sites	Doses Available for Site to Order ¹	Doses Distributed ²	Total Doses Administered to Patients ³	First Doses	Second Doses
Hospitals	87,465	72,700	74,218	43,008	31,210
Long-term care pharmacy partnership program*	66,300	55,075	41,172	23,594	17,578
State-managed fixed sites	136,000	111,780	101,760	78,506	23,254
Regional public health network mobile sites	24,350	16,630	13,459	10,988	2,471
Other	9,960	5,400	4,334	3,919	415
Total	324,075	261,585	234,943	160,015	74,928

¹ Doses available for site to order are the number of first and second doses that have been made available to the site to order.

² Doses distributed are the number of first and second doses that the site has ordered and received at their location. Orders are based on clinic schedules and average uptake of vaccine by participants.

³ Doses administered may exceed the number of doses distributed due to the ability to get extra doses out of a vial, depending on the type of syringe used.

* The LTCF PPP is a federal program that sends pharmacies into LTCF to vaccinate residents and staff. In order for LTCF to access this program in New Hampshire, NH DHHS was required by the CDC to allocate a fixed number of doses to guarantee that pharmacies would have enough vaccine to complete vaccination administration within a four-week time frame. This program remains on schedule as originally anticipated and will be continually monitored to ensure completeness.

What's Next?

- Continuous improvement of vaccine registration process
- Planning for Phase 2
