REQUESTED ACTION

Pursuant to RSA 4:40, I, authorize the Department of Resources and Economic Development to exchange a right of way over the Presidential Rail Trail in the Town of Jefferson (formerly Boston and Maine RR, Berlin Branch) to Muddy Paw Land Holding, LLC for a trail easement on Muddy Paw land between the trail and White Mountain National Forest in the Town of Jefferson. No State Funds

EXPLANATION

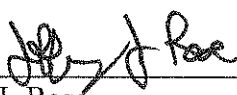

The Department of Resources and Economic Development (DRED) wishes to exchange, with Muddy Paw Land Holding, LLC (Muddy Paw), a 50 X 100 foot wide easement across a portion of the state-owned land under its management, known as "Presidential Rail Trail" (the Trail) in Jefferson, NH, for a thirty foot wide by +/- 1500 long easement on Muddy Paw property that goes from the Trail to the boundary with US Forest Service, White Mountain National Forest. Muddy Paw wishes to develop their property for a residence and a sled dog kennel but is limited to points of access by the South Branch of the Israel River.

The easement from Muddy Paw would be a clear benefit for the public as the Jefferson Notch Road is occasionally plowed in the winter for forestry purposes and limits snowmobile access. DRED does not feel the driveway crossing will negatively impact the public's use of the Trail.

The Council on Resources and Development approved the exchange by unanimous vote on May 8, 2014.

Your approval is respectfully requested. If you should have any questions, please contact Bill Carpenter at 271-2214.
