AN ACT relative to the legalization and regulation of marijuana.

FISCAL IMPACT:
The Department of Revenue Administration, New Hampshire Municipal Association, Department of Health and Human Services, Judicial Council, New Hampshire Association of Counties, and Department of Justice state this bill, as introduced, will have an indeterminable fiscal impact on state, local, and county revenue and expenditures in FY 2014 and each year thereafter.

The Office of Legislative Budget Assistant is awaiting information from the Judicial Branch relative to the potential fiscal impact of this bill. The Branch was initially contacted on 01/11/13 and most recently contacted on 08/23/13.

METHODOLOGY:
The Department of Revenue Administration states this bill legalizes the personal use of up to one ounce of marijuana by individuals 21 years of age or older, authorizes the licensing and operation of marijuana wholesale, retail, cultivation, and testing facilities, and imposes a tax on the sale of marijuana. The Department states it was unable to estimate revenue resulting from the bill given that much of the date on marijuana production and usage is outdated and would require numerous assumptions. The Department states it would incur significant costs to study, develop, and implement a licensing certification process, as well as enforcement mechanisms, a tax implementation and collections process, and auditing, appeals, and hearings procedures. In addition, the bill would require the Department to issue administrative rules relating to the licensure of marijuana establishments. For these reasons, the Department states the bill's fiscal impact is indeterminable.

The New Hampshire Municipal Association states that should the Department of Revenue Administration fail to adopt administrative rules pertaining to the licensure of marijuana establishments, municipalities are required to adopt ordinances regulating such facilities. Additionally, in the event that the Department fails to process and issue licenses, applicants for licenses may apply directly to municipalities. The bill provides that when an application is submitted to the Department, one half of the application fee will be paid to the municipality in which the facility is proposed to be located. If an application is submitted directly to a
municipality because the Department has failed to adopt rules or process and issue licenses, the entire fee would be paid to the municipality. The Association states that the adoption of ordinances and the processing of applications could presumably be accomplished without additional personnel. To the extent additional expenditures are required, they presumably would be more than offset by application and licensing fees. The Association states it appears likely that some municipalities will receive net additional revenues from application and licensing fees. The Association states, however, that it has no way to predict how many establishments would apply for licenses under the law, where they would locate, or whether circumstances would require them to apply directly to the municipality rather than the Department of Revenue Administration. The Association further states that it cannot predict the effect of marijuana legalization on law enforcement expenditures. For these reasons, the Association states the fiscal impact of the bill is indeterminable.

The Department of Health and Human Services, Bureau of Drug and Alcohol Services cites a study suggesting that marijuana legalization would lead to an increase in the number of individuals needing treatment for abuse or dependence. The Department states, however, that the bill does not appropriate additional money to the Department for the purpose of funding treatment. In addition, the Department does not expect to receive funding from any other sources. The bill would therefore have no impact on the Department’s budget.

The Judicial Council states that currently, possession of less than one ounce of marijuana is punishable as a class A misdemeanor. The sale, distribution, transportation, and dispensation of marijuana is currently an unclassified felony offense. The bill would legalize the possession of less than one ounce of marijuana, and would eliminate the felony-level penalties that currently apply to large-scale black market manufacture and distribution of marijuana. The Council states that the bill, were it to result in fewer felony-level and misdemeanor-level drug offenses, would potentially mean fewer criminal cases brought requiring the appointment of counsel at state expense. This could result in savings of the flat fee of $275 per misdemeanor and $756.25 per felony. In cases in which an assigned counsel attorney would have been used, the savings would be the $60 per hour fee (up to a total of $1,300 for a misdemeanor charge and $4,100 for a felony charge). In addition, public defender, contract attorney and assigned counsel rates for Supreme Court appeals are $2,000 per case, an expense that would no longer be incurred. The Council states that to the extent marijuana possession charges are accompanied by other, more serious class A misdemeanor charges, the indigent accused would continue to enjoy the right to assistance of counsel at state expense.

The New Hampshire Association of Counties states it is unable to determine the number of individuals the bill may impact or the reduction in the number of individuals who may come
into contact with the criminal justice system, either through the sheriffs, the county attorneys, or the county correctional facilities. The Association of Counties states to the extent fewer individuals are charged, convicted, and sentenced to incarceration in a county correctional facility, the counties may have decreased expenditures. The Association is unable to determine the number of individuals that might not be charged, convicted or incarcerated as a result of this bill to determine an exact fiscal impact. The average annual cost to incarcerate an individual in a county correctional facility is approximately $35,000. There is no impact on county revenue.

The Department of Justice states that currently, the Attorney General's Drug Task Force investigates the possession and trafficking of controlled drugs, including marijuana. If the bill were to pass, the Task Force would shift any resources currently being spent on marijuana investigations to those involving other controlled drugs. Similarly, any prosecutorial resources being used in the Criminal Justice Bureau to prosecute cases or drug forfeiture actions involving the distribution of marijuana would be shifted to cases involving other controlled drugs. For these reasons, the Department states the bill will have no fiscal impact.
