HB 524-FN-A-LOCAL - FISCAL NOTE

AN ACT relative to the calculation of default budgets.

FISCAL IMPACT:

The New Hampshire Municipal Association states this bill, **as introduced**, will have an indeterminable fiscal impact on local expenditures in FY 2016 and each year thereafter. There will be no impact on state, county, or local revenues or state or county expenditures.

METHODOLOGY:

The New Hampshire Municipal Association states this bill changes the definition of “Default budget,” governing municipal meetings as defined in RSA 40:13, IX(b), from the prior year’s operating budget to 98 percent of the actual expenditures for the same appropriations for the previous year. The Association indicates that if a municipality fails to approve its proposed operating budget, then the default budget would be less than it would be under current law. The Association reports this would likely reduce local expenditures, but it is impossible to know how often municipalities will fail to pass their proposed operating budgets.
