

GOVERNOR'S CAPITAL BUDGET

Fiscal Years ending
June 30, 2024-2025

As submitted by
Christopher T. Sununu
Governor

State of New Hampshire

February 2023

INTRODUCTION

Presented herein is the 2023 Capital Improvement Plan that makes critical investments in the State's infrastructure.

This budget represents the top priorities of 15 New Hampshire Departments for 42 projects that equate to \$247.3 million in total funds and \$130 million in general funds.

The ultimate goal for any budget is to be fiscally responsible while providing necessary services to citizens. The State should monitor rising interest rates to ensure that we are not placing an undue burden on future generations. Despite the recent and dramatic increase in interest rates, overall interest rates still remain low by historical standards. Given New Hampshire's strong credit ratings, we should remain optimistic about the near term future debt market. However, we should remain vigilant over the next few months to ensure that borrowing costs remain at taxpayer friendly levels.
