

13835, (eff 12/28/23)

Readopt Agr 2400, effective 11-27-13 (Document #10472), to read as follows:

CHAPTER Agr 2400 EQUINE INFECTIOUS ANEMIA

PART Agr 2401 EIA REACTOR QUARANTINE

Agr 2401.01 Quarantine.

(a) An equine found to be a reactor on a second test for equine infectious anemia (EIA) shall be quarantined.

(b) A quarantined equine shall:

(1) Be kept with no other equine;

(2) Not leave the property to which quarantined; and

(3) Be kept a minimum of 1/4 mile from the nearest paddock, pasture or barn having equine species.

(c) A reactor may be kept within 1/4 mile of other equines or equine facility providing the reactor is maintained in a screened-in enclosure.

(d) Notwithstanding (b)(1) above a reactor may be quarantined with:

(1) Another reactor; or

(2) One or more EIA negative equine if the quarantine conditions are maintained for them.
