conditions for the state’s participation in the Medicaid program.

37 Title. Sections 37-40 of this act may be known and cited as the “Fetal Life Protection Act.”

38 Legislative Findings and Purpose.

I. The general court finds that:
(a) The prohibition of late-term abortion is supported by history and the common law. The Hippocratic Oath as Literary Text: A Dialogue Between Law and Medicine, 2 Yale J. Health Policy L. & Ethics 299, 308 (discussing the Hippocratic Oath's prohibition on abortion); Digest of Justinian: Digest 4.48.8.8 (classifying abortion as a form of homicide); 2 Bracton on Laws and Customs of England 341 (S. Thorne trans. 1968) (classifying abortion as a form of homicide “especially if [the fetus] is quickened”); 1 W. Blackstone, Commentaries on the Law of England 125 (1773) (stating that the common law has historically prohibited abortion “as soon as an infant is able to stir in the mother's womb.”). The New Hampshire supreme court has observed that “The common law has always been most solicitous for the welfare of the fetus in connection with its inheritance rights as well as protecting it under the criminal law.” Poliquin v. Donald, 101 N.H. 104, 107 (1957).

(b) The United States Supreme Court, in holding that the United States Constitution protects abortion, also stated that “The pregnant woman cannot be isolated in her privacy. She carries an embryo and, later, a fetus... The situation therefore is inherently different from marital intimacy [etc.]... it is reasonable and appropriate for a State to decide that at some point in time another interest, that of... [fetal] life, becomes significantly involved. The woman's privacy is no longer sole and any right of privacy she possesses must be measured accordingly.” Roe v. Wade, 410 U.S. 113, 159 (1973).

(c) The Roe Court specifically rejected the view that “the woman's right is absolute and that she is entitled to terminate her pregnancy at whatever time, in whatever way, and for whatever reason she alone chooses.” Roe v. Wade, 410 U.S. 113, 153 (1973).

(d) The Roe Court affirmed that “For the stage subsequent to viability, the State in promoting its interest in the potentiality of human life may, if it chooses, regulate, and even proscribe, abortion except where it is necessary, in appropriate medical judgment, for the preservation of the life or health of the mother.” Roe v. Wade, 410 U.S. 113, 164-165 (1973).

(e) The United States Supreme Court, in rejecting the trimester framework of Roe, reaffirmed “the State's power to restrict abortions after fetal viability, if the law contains exceptions for pregnancies which endanger the woman's life or health” and stated that “the State has legitimate interests from the outset of the pregnancy in protecting... the life of the fetus that may become a child.” Planned Parenthood v. Casey, 505 U.S. 833, 846 (1992).

(g) The Supreme Court has observed that “In some broad sense it might be said that a woman who fails to act before viability has consented to the State's intervention on behalf of the developing child.” Planned Parenthood v. Casey, 505 U.S. 833, 870 (1992).

(h) New Hampshire has historically seen the fetus as a separate entity from the mother with distinct legal interests. Bennett v. Hymers, 101 N.H. 483, 485 (1958) (“We adopt the opinion that the fetus from the time of conception becomes a separate organism and remains so throughout its life.”); N.H. Rev. State. Ann § 630:1-a: IV (stating that “the meaning of ‘another’ shall include a fetus” under specified criminal laws).

(i) “[R]espect for the dignity of human life” is a legitimate state purpose. Gonzales v. Carhart, 550 U.S. 124, 157 (2007). The United States Supreme Court has said that “Respect for human life finds an ultimate expression in the bond of love the mother has for her child... While we find no reliable data to measure the phenomenon, it seems unexceptionable to conclude some women come to regret their choice to abort the infant life they once created and sustained.” Id. at 159.

(j) In addition, there is substantial medical evidence that a fetus by at least 20 weeks’ gestation has the capacity to feel pain during an abortion. K. Anand and P. R. Hickey, Pain and its effects in the human neonate and fetus, N.E.J.M., 1987, 317:1321.

II. Based on the findings in paragraph I, the general court’s purposes in promulgating this act are:

(a) Based on the state’s interest in protecting fetal life, to prohibit abortions at or after 24 weeks gestation, except in cases of a medical emergency.

(b) To define “medical emergency” to encompass “significant health risks,” namely those circumstances in which a pregnant woman’s life or a major bodily function is threatened. Gonzales v. Carhart, 550 U.S. 124, 161 (2007).

39 New Subdivision; Fetal Life Protection Act. Amend RSA 329 by inserting after section 42 the following new subdivision:

Fetal Life Protection Act

329:43 Definitions. In this subdivision:

I. “Abortion” means the act of using or prescribing any instrument, medicine, drug, or any other substance, device, or means with the intent to terminate the clinically diagnosable pregnancy of a woman with knowledge that the termination by those means will with reasonable likelihood cause the death of the fetus. Such use, prescription, or means is not an abortion if done with the intent to:

(a) Save the life or preserve the health of the fetus;

(b) Remove a dead fetus caused by spontaneous abortion; or

(c) Remove an ectopic pregnancy.
II. “Attempt to perform” means an act or omission of a statutorily required act that, under the circumstances as the actor believes them to be, constitutes a substantial step in a course of conduct planned to culminate in the performance or inducement of an abortion.

III. “Conception” means the fusion of a human spermatozoon with a human ovum.

IV. “Gestational age” means the time that has elapsed since the first day of the woman’s last menstrual period.

V. “Major bodily function” includes, but is not limited to, functions of the immune system, normal cell growth, and digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

VI. “Medical facility” means any public or private hospital, clinic, center, medical school, medical training institution, health care facility, physician’s office, infirmary, dispensary, ambulatory surgical treatment center, or other institution or location wherein medical care is provided to any person.

VII. “Health care provider” means any person who provides health care services. The term includes but is not limited to medical doctors, doctors of osteopathy, nurses, or any employee of a medical facility.

VIII. “Pregnant” or “pregnancy” means the female reproductive condition of having one or more developing embryos or fetuses implanted in the uterus or elsewhere in the female body.

IX. “Probable gestational age” means what, in reasonable medical judgment, will with reasonable probability be the gestational age of the fetus at the time the abortion is considered, performed, or attempted.

X. “Reasonable medical judgment” means that medical judgment that would be made by a reasonably prudent health care provider in the community, knowledgeable about the case and the treatment possibilities with respect to the medical conditions involved.

XI. “Fetus” means an unborn offspring, from the embryo stage which is the end of the twentieth week after conception or, in the case of in vitro fertilization, the end of the twentieth week after implantation, until birth.

329:44 Prohibition.

I. Except in the case of a medical emergency as specifically defined in paragraph III, no abortion shall be performed, induced, or attempted by any health care provider unless a health care provider has first made a determination of the probable gestational age of the fetus. In making such a determination, the health care provider shall make such inquiries of the pregnant woman and perform or cause to be performed all such medical examinations, imaging studies, and tests as a reasonably prudent health care provider in the community, knowledgeable about the medical facts and conditions of both the woman and the fetus involved, would consider necessary to perform and consider in making an accurate diagnosis with respect to gestational age, provided, however, that
the health care provider shall conduct an obstetric ultrasound examination of the patient for the purpose of making the determination.

II. Except in a medical emergency as specifically defined in paragraph III, no health care provider shall knowingly perform, induce, or attempt to perform an abortion upon a pregnant woman when the probable gestational age of her fetus has been determined to be at least 24 weeks or in the absence of a determination by a health care provider pursuant to paragraph I as to the fetus' probable gestational age.

III. For the purposes of this subdivision only, “medical emergency” means a condition in which an abortion is necessary to preserve the life of the pregnant woman whose life is endangered by a physical disorder, physical illness, or physical injury, including a life-endangering physical condition caused by or arising from the pregnancy itself, or when continuation of the pregnancy will create a serious risk of substantial and irreversible impairment of a major bodily function, as defined in RSA 329:43, V, of the pregnant woman.

329:45 Reporting.

I. Any health care provider who performs an abortion under this subdivision shall report, in writing, to the medical facility in which the abortion is performed the reason for the determination that a medical emergency existed. The health care provider's written report shall be included in a written report from the medical facility to the department of health and human services. If the abortion is not performed in a medical facility, the health care provider shall report, in writing, the reason for the determination that a medical emergency existed to the department of health and human services as part of the written report made by the health care provider to the department. The health care provider and the medical facility shall retain a copy of the written reports required under this section for not less than 5 years.

329:46 Criminal Penalties. Any health care provider who knowingly performs or induces an abortion in violation of this subdivision and knows that the fetus has a gestational age of at least 24 weeks, or consciously disregards a substantial risk that the fetus has a gestational age of at least 24 weeks, shall be guilty of a class B felony and, in addition to any other penalties the court may impose, be fined not less than $10,000 and not more than $100,000.

329:47 Civil Remedies.

I. The woman, the father of the fetus if married to the mother at the time she receives an abortion in violation of this subdivision, and/or, if the mother has not attained the age of 18 years at the time of the abortion, the maternal grandparents of the fetus may in a civil action obtain appropriate relief, unless the pregnancy resulted from the plaintiff's criminal conduct or, if brought by the maternal grandparents, the maternal grandparents consented to the abortion.

II. Such relief shall include monetary damages for all psychological and physical injuries caused by the violation of this subdivision.

329:48 Review by New Hampshire Board of Medicine.
I. A defendant health care provider accused of violating this subdivision may seek a hearing before the board of medicine as to whether the health care provider’s conduct was necessary to save the life of the mother whose life was endangered by a physical disorder, physical illness, or physical injury, including a life-endangering physical condition caused by or arising from the pregnancy itself, and/or as to whether the continuation of the pregnancy would have created a serious risk of substantial and irreversible impairment of a major bodily function, as defined in RSA 329:43, V, of the pregnant woman.

II. The findings on this issue are admissible at the criminal and civil trials of the defendant. Upon a motion of the defendant, the court shall delay the beginning of the trial for not more than 30 days to permit such a hearing to take place.

329:49 Construction. Nothing in this subdivision shall be construed as creating or recognizing a right to abortion.

329:50 Severability. the liquor commission, for purposes of supporting merchant card activity, may:

I. Implement necessary business strategies in the event of a disaster or loss of services to
insure the continuity of the commission’s business operations, including the processing of merchant
cards, which includes the ability to transfer funds from accounting unit 01-03-03-030010-7677 in
consultation with the commissioner of the department of information technology. The commissioner
shall report to the fiscal committee of the general court within 30 days any instances where it would
need to implement such business strategies, including any costs and loss of revenue associated with
the disaster or loss of services and the implementation of such business strategies.

II. Enter into contracts for technical and hosting services to support retail operations and
merchant card processing. The commission shall comply with RSA 176:18 for any contracts entered
into to support retail operations and merchant card processing.

50 Department of Education; Acceptance of Gifts. For the biennium ending June 30, 2023, the
department of education may, subject to the approval of the governor and council, accept gifts,
contributions, and bequests of unrestricted funds from individuals, foundations, corporations, and
other organizations or institutions for the purpose of funding appropriations for New Hampshire
scholars made in accounting unit 06-56-56-562010-7534.

51 Certain Differential Aid Calculations; Fiscal Year 2022.

I. Average Daily Membership in Attendance; Fiscal Year 2022. The commissioner of the
department of education shall compare the average daily membership in attendance (ADMA),
defined in RSA 198:38, for each district and town for school year 2019-2020 and school year 2020-
2021. The greater enrollment shall be used to calculate the cost of an opportunity for an adequate
education under RSA 198:40-a and relief funding under RSA 198:40-e for the fiscal year ending June
30, 2022.

II. When determining ADMA for third grade pupils scoring below proficiency on the reading
component of the state assessment as required by RSA 198:40-a, II(e) for the fiscal year ending June
30, 2022, the commissioner of the department of education shall compare the ADMA for this
category of differentiated aid in school year 2018-2019 and school year 2020-2021. The greater
ADMA shall be used to calculate the cost of an opportunity for an adequate education under RSA
198:40-a, II(e) for the fiscal year ending June 30, 2022.
52 Conditional Differential Aid Calculation For Pupils Eligible for a Free or Reduced Price Meal;
Fiscal Year 2023.

I. If, as of any of the dates set forth in RSA 198:41, V, VI, or VII, either (a) the state of New
Hampshire is in a declared state of emergency pursuant to RSA 4:45 as it relates to the COVID-19
pandemic or (b) the U.S. Department of Agriculture has not rescinded the Child Nutrition Covid-19
Waivers enacted in response to the pandemic, or both, then the department of education shall, in
consultation with the governor, determine whether the alternative differential aid calculation set
forth in paragraph II is required for fiscal year 2023 when making the required estimate or final
determination described in RSA 198:41, V, VI, or VII as applicable.

II. Upon making a determination that the alternative differential aid calculation applies
pursuant to paragraph I, the department of education shall divide each pupil in the ADMA who is
eligible for a free or reduced price meal by the average daily member in attendance (ADMA), defined
in RSA 198:38, for each district and town for school year 2019-2020. The percentage shall be applied
to the ADMA for school year 2021-2022 to establish a new calculation of ADMA for who is eligible for
a free or reduced price meal. The greater of the ADMA of pupils who are eligible for a free or
reduced price meal for school year 2021-2022 and the new calculation based on the 2019-2020 school
year percentage shall be used to calculate the differential aid under RSA 198:40-a, II(b) and relief
aid under RSA 198:40-e.

53 New Section; Relief Funding. Amend RSA 198 by inserting after section 40-d the following
new section:
198:40-e Relief Funding.

I. In a school district in which 48 percent or more of the ADMA is eligible to receive a free or
reduced-priced meal, an additional $600 for each pupil in the ADMA who is eligible for a free or
reduced-priced meal.

II. In a school district in which at least 12 percent but less than 48 percent of the ADMA is
eligible to receive a free or reduced-priced meal, an amount equal to $150 plus $0.1250 for each 0.01
percent that its free or reduced-priced meal eligibility rate exceeds 12 percent, for each pupil in the
ADMA who is eligible for a free or reduced-priced meal.

III. A school district in which less than 12 percent of the ADMA is eligible to receive a free or
reduced-priced meal shall receive no additional aid under this section.

IV. The department of education shall adjust aid to each district calculated under this
section to the statewide total of $17,500,000. Adjustments under this paragraph shall be made on a
pro-rata basis.

54 Additional Aid to Education. The governing body of a school district may call a special
meeting pursuant to RSA 197:3-a to determine how any adjustment in education aid shall be
budgeted.
55 Transfer; Education Trust Fund. At the close of the fiscal year ending June 30, 2021, the
state treasurer shall transfer the sum of $35,000,000 from the education trust fund surplus to a
restricted account under the department of education for purposes of providing relief funding
pursuant to RSA 198:40-e for fiscal years 2022 and 2023.

56 Effective Date. Section 55 of this act shall take effect June 30, 2021.

57 New Subparagraph. Amend RSA 198:41, I by inserting after subparagraph (c) the following
new subparagraph:

(d) Add the municipality’s additional aid for relief funding pursuant to RSA 198:40-e.

58 Department of Education; State Maintenance of Equity; Biennium Ending June 30, 2023.

I. For the biennium ending June, 30, 2023, the department of education shall determine, in
consultation with the governor, whether the state of New Hampshire is compliant with the state
maintenance of equity requirements of Section 2004(b) of the American Rescue Plan Act of 2021. If
it is determined that the high-need and highest poverty local educational agencies as referenced in
Section 2004(b) and defined in Section 2004(d) of the American Rescue Plan Act of 2021 have
experienced a greater reduction in state aid per pupil than the state maintenance of equity
requirements permit under the American Rescue Plan Act for either fiscal year 2022 or 2023, the
department of education, with the approval of the fiscal committee of the general court, shall
increase state aid to such agencies to bring the state into compliance.

II. If state aid is increased pursuant to paragraph I to achieve compliance with Section
2004(b) of the American Rescue Plan Act of 2021, the department of education shall determine if the
increase brings the state into compliance by eliminating an overall per-pupil reduction in state
funds, in which case the department shall issue the state aid on a prorated basis to the local
educational agency or agencies needing an increase in state aid in order to achieve compliance.

III. Any state aid distributed under this section shall be an education grant in addition to
the state grant calculated under RSA 198:41 and shall be distributed to school districts accordingly.
Depending on how the United States Department of Education allows states to define "pupil" as it
relates to determining state aid per pupil under Section 2004(b) of the American Rescue Plan Act of
2021, the department of education may experience delays in accurately collecting pupil data to meet
the definition as defined by the United States Department of Education, thereby delaying the
calculation of the grant award. If such delay occurs, the department of education may issue the
grants described in this section up to 120 days after the end of the applicable fiscal year being
assessed for compliance with federal law.

IV. In seeking fiscal committee approval and establishing grants under this section, the
department of education may calculate the grants in manner that increases the likelihood of
compliance with Section 2004(b) of the American Rescue Plan Act of 2021 while utilizing the
minimum amount of state resources. The department of education may also make minor rounding
adjustments to the grant awards under the condition all rounding adjustments are applied in a
consistent and uniform manner.

V. In the event grants are required to be disbursed to districts, the commissioner of
education may request the fiscal committee of the general court to authorize additional funding.
Funds requested and approved shall be a charge to the education trust fund. Such warrants for
payment shall be issued regardless of the balance of funds available in the education trust fund. If
the balance in the education trust fund, after the issuance of any such warrant, is less than zero, the
comptroller shall transfer sufficient funds from the general fund to eliminate such deficit. The
commissioner of the department of administrative services shall inform the fiscal committee and the
governor and council of such balance. This reporting shall not in any way prohibit or delay the
distribution of any grant or transfer of funds authorized under this chapter.

59 Appropriation; Department of Education. For the biennium ending June 30, 2023, the sum of
$3,000,000 is hereby appropriated to the department of education for the purpose of funding
operating costs for a state student data collection and reporting system. Said appropriation shall be
a charge against the education trust fund.

60 Education Trust Fund Created and Invested. Amend RSA 198:39, I to read as follows:

I. The state treasurer shall establish an education trust fund in the treasury. Moneys in
such fund shall not be used for any purpose other than to distribute adequate education grants to
municipalities’ school districts and to approved charter schools pursuant to RSA 198:42, to provide
low and moderate income homeowners property tax relief under RSA 198:56-198:61, to distribute
school building aid to school districts and approved chartered public schools pursuant to
RSA 198:15-b, to distribute tuition and transportation funds to school districts for students
attending career and technical education programs pursuant to RSA 186-E:9, to distribute
special education aid to school districts pursuant to RSA 186-C:18, to fund department of
education operating costs for a state student data collection and reporting system, and to
fund kindergarten programs as may be determined by the general court. The state treasurer shall

The commissioner or the commissioner's authorized representative shall schedule a hearing, either in Concord or at a location nearest the employee as determined by the commissioner, by fixing its time and place and giving notice at least 14 days prior to the date for which it is scheduled. When appropriate, the commissioner, or his or her authorized representative, may render a decision at the hearing. Unless excused for good cause shown, or a party has not received notice, failure of any or all parties at interest to appear at a duly scheduled hearing or to petition for a continuance shall bar such parties from any further action concerning an adverse decision, a decision by default, or a dismissal of a petition for hearing and award. The commissioner, or his or her authorized representative, shall serve notice of a pending default, default decision, or dismissal of a petition for hearing and award on the defaulting party via certified mail, return receipt requested. A:1-a by inserting after paragraph II-d the following new paragraph:
II-e. "Department" means the New Hampshire department of energy.

233 Reference Change; Net Energy Metering; Department of Energy. Amend the following RSA provisions by replacing the term "commission" with "department": 362-A:9, X-XII.

234 Net Energy Metering. Amend RSA 362-A:9, XIV to read as follows:

XIV.(a) A customer-generator may elect to become a group host for the purpose of reducing or otherwise controlling the energy costs of a group of customers who are not customer-generators. The group of customers shall be located within the service territory of the same electric distribution utility as the host. The host shall provide a list of the group members to the commission and the electric distribution utility and shall certify that all members of the group have executed an agreement with the host regarding the utilization of kilowatt hours produced by the eligible facility and that the total historic annual load of the group members together with the host exceeds the projected annual output of the host’s facility. The [commission] department shall verify that these group requirements have been met and shall register the group host. The [commission] department shall establish the process for registering hosts, including periodic re-registration, and the process by which changes in membership are allowed and administered. Net metering tariffs under this section shall not be made available to a customer-generator group host until such host is registered by the [commission] department.

(b) Except as provided in subparagraph (c), the provisions of this section shall apply to a group host as a customer-generator.

(c) Notwithstanding paragraph V, a group host shall be paid for its surplus generation at the end of each billing cycle at rates consistent with the credit the group host receives relative to its own net metering under either subparagraph IV(a) or (b) or alternative tariffs that may be applicable pursuant to paragraph XVI. Alternatively, a group host may elect to receive credits on the customer electric bill for each member and the host, with the utility being allowed the most cost-effective method of doing so according to an amount or percentage specified for each member on PUC form 909.09 (Application to Register or Re-register as a Host), along with a 3 cent per kwh addition from July 1, 2019 through July 1, 2021 and a 2.5 cent per kwh addition thereafter for low-moderate income community solar projects, as defined in RSA 362-F:2, X-a. On or before July 1, 2022, the [commission] department shall report on the costs and benefits of such an addition and the development of the market for low-moderate income community solar projects, and provide a recommendation on whether the addition shall be increased or decreased. The [commission] department shall report on the costs and benefits of low-moderate income community solar projects, as defined in RSA 362-F:2, X-a on or before June 1, 2020. The [commission] department shall authorize at least 2 new low-moderate income community solar projects, as defined in RSA 362-F:2, X-a, each year in each utility's service territory beginning January 1, 2020. On an annual basis, for all group host systems except for residential systems with an interconnected capacity under 15 kilowatts, the electric distribution utility shall calculate a payment adjustment if the host’s surplus
generation for which it was paid is greater than the group's total electricity usage during the same time period. The adjustment shall be such that the resulting compensation to the host for the amount that exceeded the group's total usage shall be at the utility's avoided cost or its default service rate in accordance with subparagraph V(b) or paragraph VI or alternative tariffs that may be applicable pursuant to paragraph XVI. The utility shall pay or bill the host accordingly.

(d) [Repealed.]

(e) The department is authorized to petition the commission to assess fines against, revoke the registration of, and prohibit from doing business in the state, any group host which violates the requirements of this paragraph and rules adopted pursuant to this paragraph. The commission is authorized to grant or deny such petitions.

235 Repeal. RSA 362-F:2, IV, relative to the definition of "commission" as it pertains to electric renewable portfolio standards, is repealed.

236 Electric Renewable Energy Classes; Reference Changed. Amend RSA 362-F:4, I(i)-(k) to read as follows:

(i) The incremental new production of electricity in any year from an eligible biomass or methane source or any hydroelectric generating facility licensed or exempted by Federal Energy Regulatory Commission (FERC), regardless of gross nameplate capacity, over its historical generation baseline, provided the [commission] department of energy certifies demonstrable completion of capital investments attributable to the efficiency improvements, additions of capacity, or increased renewable energy output that are sufficient to, were intended to, and can be demonstrated to increase annual renewable electricity output. The determination of incremental production shall not be based on any operational changes at such facility but rather on capital investments in efficiency improvements or additions of capacity.

(j) The production of electricity from a class III or IV source that has begun operation as a new facility by demonstrating that 80 percent of its resulting tax basis of the source's plant and equipment, but not its property and intangible assets, is derived from capital investment directly related to restoring generation or increasing capacity including department permitting requirements for new plants. Such production shall not qualify for class III or IV certificates. Commencing July 1, 2013, a class III source eligible as a class I source under this subparagraph or subparagraph (i) may submit a notice to the [commission] department of energy electing to be a class III source instead of a class I source. Once such notice is given, the production from such a source shall qualify for class III certificates, provided the source meets the other requirements of a class III eligible biomass technology.

(k) The production of electricity from any fossil-fueled generating facility that originally commenced operation prior to January 1, 2006, if after January 1, 2012 such facility co-fires with class I eligible biomass fuels to displace the combustion of an amount of fossil fuels. The portion of the total electrical energy output that qualifies as class I from a facility in a given time period shall
be the fraction of electrical production derived from the combustion of biomass fuels based on the heat input at the facility in that time period as determined by the [commission] department of energy in consultation with the department. To qualify under this paragraph, the electricity generation facility that co-fires with biomass fuels shall:

(1) Either have a quarterly average nitrogen oxide (NOx) emission rate, as measured and verified under RSA 362-F:12, of less than or equal to 0.075 pounds/million British thermal units (lbs/Mmbtu) or be a participant in a plan approved by the department for reductions in NOx from other emission sources. The quantity of reductions required shall be the fraction of electrical production derived from the combustion of biomass fuels, as determined under this paragraph, multiplied by the difference between the generation unit's NOx emissions rate and the 0.075 lbs/Mmbtu rate. The plan shall contain reductions, in the aggregate or individually, in NOx emissions from other emission sources under the jurisdiction of the department and demonstrate that the reductions will be quantifiable. The department shall expeditiously review the plan and, if approved, provide such information as it deems relevant to the [commission] department of energy.

The application submitted to the [commission] department of energy under RSA 362-F:11 shall inform the [commission] department of energy of the plan and the [commission] department of energy shall certify the source in accordance with the plan approved by the department; and

(2) Either have an average particulate emission rate, as measured and verified under RSA 362-F:12, of less than or equal to 0.02 lbs/Mmbtu or be a participant in a plan approved by the department for reductions in particulate matter emissions from emission sources owned by or affiliated with the co-firing entity. The quantity of reductions required shall be the fraction of electrical production derived from the combustion of biomass fuels, as determined under this paragraph, multiplied by the difference between the generation unit's particulate matter emissions rate and the 0.02 lbs/Mmbtu rate. The plan shall contain reductions, in the aggregate or individually, in particulate matter emissions from other emission sources under the jurisdiction of the department and demonstrate that the reductions will be quantifiable. The department shall expeditiously review the plan and, if approved, provide such information as it deems relevant to the [commission] department of energy. The application submitted to the [commission] department of energy under RSA 362-F:11 shall inform the [commission] department of energy of the plan and the [commission] department of energy shall certify the source in accordance with the plan approved by the department.

237 Electric Renewable Energy Classes; Reference Change. Amend RSA 362-F:4, IV-VI to read as follows:

IV.(a) Class IV (Existing Small Hydroelectric) shall include the production of electricity from hydroelectric energy, provided the facility:

(1) Began operation prior to January 1, 2006;
(2) When required, has documented applicable state water quality certification pursuant to section 401 of the Clean Water Act for hydroelectric projects; and

(3) Either:

(A) Has a total nameplate capacity of 5 MWs or less as measured by the sum of the nameplate capacities of all the generators at the facility and has actually installed both upstream and downstream diadromous fish passages and such installations have been approved by the Federal Energy Regulatory Commission, or;

(B) Has a total nameplate capacity of one MW or less as measured by the sum of the nameplate capacities of all generators at the facility, is in compliance with applicable Federal Energy Regulatory Commission fish passage restoration requirements, and is interconnected with an electric distribution system located in New Hampshire.

(b)(1) Notwithstanding subparagraph (a), the [commission] department of energy shall re-certify as class IV renewable energy sources the facilities named in public utilities commission order numbers 24,940 and 24,952. These facilities are:

(A) The Canaan, Gorham, Hooksett, and Jackman hydroelectric facilities [owned by Public Service Company of New Hampshire], which had been previously certified by the public utilities commission on September 23, 2008; and

(B) The North Gorham and Bar Mills projects owned by PPL Energy Maine Hydro, LLC which had been previously certified by the public utilities commission on October 30, 2008.

(2) These facilities shall not qualify or be certified as class IV renewable energy sources after March 23, 2009, unless they meet the requirements of subparagraph (a). Such facilities shall be eligible for class IV renewable energy certificates for all electricity generated between the effective date of each facility's original certification by the public utilities commission through March 23, 2009. Such certificates shall have the same validity as any other class IV certificate issued under RSA 362-F, and may be sold, exchanged, banked, and utilized accordingly.

V. For good cause, and after notice and hearing, the commission may accelerate or delay by up to one year, any given year's incremental increase in class I or II renewable portfolio standards requirement under RSA 362-F:3.

VI. After notice and hearing, the [commission] department of energy may modify the class III and IV renewable portfolio standards requirements under RSA 362-F:3 for calendar years beginning January 1, 2012 such that the requirements are equal to an amount between 85 percent and 95 percent of the reasonably expected potential annual output of available eligible sources after taking into account demand from similar programs in other states.

238 Renewable Energy Certificates. Amend RSA 362-F:6, V to read as follows:

V. A qualified producer of useful thermal energy shall provide for the metering of useful thermal energy produced in order to calculate the quantity of megawatt-hours for which renewable
energy certificates are qualified, and to report to the [public utilities commission] department of energy under rules adopted pursuant to RSA 362-F:13. Monitoring, reporting, and calculating the useful thermal energy produced in each quarter shall be expressed in megawatt-hours, where each 3,412,000 BTUs of useful thermal energy is equivalent to one megawatt-hour. 

239 Electric Renewable Portfolio Standard; Information Collection; Reference Change. Amend RSA 362-F:8 to read as follows:

362-F:8 Information Collection.

I. By July 1 of each year, each provider of electricity shall submit a report to the [commission] department of energy, in a form approved by the [commission] department of energy, documenting its compliance with the requirements of this chapter for the prior year. The [commission] department of energy may investigate compliance and collect any information necessary to verify and audit the information provided to the [commission] department of energy by providers of electricity.

II. The [commission] department of energy shall adopt rules governing the reporting requirements under paragraph I that are designed to minimize the administrative costs and burden on electricity providers.

III. Beginning October 1, 2019 and by October 1 of each subsequent year, the [commission] department of energy shall disclose the information collected under paragraph I as public information in the [commission's] department of energy annual report pursuant to RSA 362-F:10, IV. No information shall be disclosed to the public that is confidential as defined by [public utilities commission] department of energy or NEPOOL Generation Information System rules.

IV. The [commission] department of energy shall provide as part of the annual renewable energy fund report, pursuant to RSA 362-F:10, IV, renewable portfolio standard compliance costs and average electric rate impact; renewable energy certificate versus alternative compliance payments comparison; and alternative compliance payments by class and provider of electricity. The report shall also include the number of renewable energy certificates that were purchased during the prior compliance year by class.

V. The [commission] department of energy shall complete the rulemaking process and submit requests to the administrator of the NEPOOL Generation Information System that are necessary to implement this section no later than April 1, 2019.

240 Electric Renewable Portfolio Standard; Renewable Energy Fund. Amend RSA 362-F:10 to read as follows:

I. There is hereby established a renewable energy fund. This nonlapsing special fund shall be [nonlapsing] continually appropriated to the commission to be expended in accordance with this section. The state treasurer shall invest the moneys deposited therein as provided by law. Income received on investments made by the state treasurer shall also be credited to the fund.
All payments to be made under this section shall be deposited in the fund. Any remaining monies paid into the fund under paragraph II of this section, excluding class II monies, shall be used by the [commission] department of energy to support thermal and electrical renewable energy initiatives. Class II monies shall primarily be used to support solar energy technologies in New Hampshire. All initiatives supported out of these funds shall be subject to audit by the [commission] department of energy as deemed necessary. All fund monies including those from class II may be used to administer this chapter, but all new employee positions shall be approved by the fiscal committee of the general court. No new employees shall be hired by the [commission] department of energy due to the inclusion of useful thermal energy in class I production.

II. In lieu of meeting the portfolio requirements of RSA 362-F:3 for a given year if, and to the extent sufficient certificates are not otherwise available at a price below the amounts specified in this paragraph, an electricity provider may, at the time of report submission for that year under RSA 362-F:8, make payment to the [commission] department of energy at the following rates for each megawatt-hour not met for a given class obligation through the acquisition of certificates:

(a) Class I-$55, except for that portion of the class electric renewable portfolio standards to be met by qualifying renewable energy technologies producing useful thermal energy under RSA 362-F:3 which shall be $25 beginning January 1, 2013.

(b) Class II-$55.

(c) Class III-$31.50.

(d) Class IV-$26.50.

III.(a) Beginning in 2013, the [commission] department of energy shall adjust these rates by January 31 of each year using the Consumer Price Index as published by the Bureau of Labor Statistics of the United States Department of Labor for classes III and IV and 1/2 of such Index for classes I and II.

(b) In lieu of the adjustments under subparagraph (a) for class III in 2015 and 2016, the class rate in each of those years shall be $45. In lieu of the adjustments under subparagraph (a) for class III in 2017, 2018, and 2019, the class rate in each of those years shall be $55.

(c) By January 31, 2020 the [commission] department of energy shall compute the 2020 class III rate to equal the rate that would have resulted in 2020 by the application of subparagraph (a) to the 2013 rate and each subsequent year's rate to 2020.

(d) In 2021 and thereafter, the class III rate shall be determined by application of subparagraph (a) to the prior year's rate.

IV. The [commission] department of energy shall make an annual report by October 1 of each year, beginning in 2009, to the legislative oversight committee to monitor the transformation of delivery of electric services established under RSA 374-F:5, the house science, technology and energy committee, and the senate energy and natural resources committee detailing how the renewable energy fund is being used and any recommended changes to such use. The report shall also include
information on the total peak generating capacity that is net energy metered under RSA 362-A:9 within the franchise area of each electric distribution utility, and the percentage this represents of the amount that is allowed to be net metered within each franchise area. Information shall be provided on net metered group host registrations and the associated customer groups, including number and location of group host facilities, generation by renewable source and size of facility, and group load served by such facilities.

V. The [public utilities commission] department of energy shall make and administer a one-time incentive payment of $3 per watt of nominal generation capacity up to a maximum payment of $6,000, or 50 percent of system costs, whichever is less, per facility to any residential owner of a small renewable generation facility, that would qualify as a Class I or Class II source of electricity, begins operation on or after July 1, 2008, and is located on or at the owner's residence.

VI. Such payments shall be allocated from the renewable energy fund established in paragraph I, as determined by the [commission] department of energy to the extent funding is available up to a maximum aggregate payment of 40 percent of the fund over each 2-year period commencing July 1, 2010.

VII. The [commission] department of energy shall, after notice and hearing, by order or rule establish an application process for the incentive payment program established under paragraph V. The application process shall include verification of costs for parts and labor, certification that the equipment used meets the applicable safety standards of the American National Standards Institute (ANSI) or Underwriters Laboratory (UL) or similar safety rating agency, and that the facility meets local zoning regulations, and receives any required inspections.

VIII. The [commission] department of energy may, after notice and hearing, by order or rule, establish additional incentive or rebate programs and competitive grant opportunities for renewable thermal and electric energy projects sited in New Hampshire.

IX. For good cause the [commission] department of energy may, after notice and hearing, by order or rule, modify the program, including reducing the incentive level, created under RSA 362-F:10, V.

X. Consistent with RSA 362-F:10, VI, the [commission] department of energy shall, over each 2-year period commencing July 1, 2010, reasonably balance overall amounts expended, allocated, or obligated from the fund, net of administrative expenditures, between residential and nonresidential sectors. Funds from the renewable energy fund awarded to renewable projects in the residential sector shall be in approximate proportion to the amount of electricity sold at retail to that sector in New Hampshire, and the remaining funds from the renewable energy fund shall be awarded to projects in the nonresidential sector which include commercial and industrial sited renewable energy projects, existing generators, and developers of new commercial-scale renewable generation in New Hampshire, provided no less than 15 percent of the funds shall annually benefit low-moderate income residential customers, including, but not limited to, the financing or leveraging
of financing for low-moderate income community solar projects in manufactured housing
communities or in multi-family rental housing.

XI. The [commission] department of energy shall issue requests for proposals that provide
renewable projects in the nonresidential sector, which include commercial and industrial sited
renewable energy projects, existing generators, and developers of new commercial-scale renewable
generation in New Hampshire, with opportunities to receive funds from the renewable energy fund
established under RSA 362-F:10. The requests for proposals shall provide such opportunities to
those renewable energy projects that are not eligible to participate in incentive and rebate programs
developed by the [commission] department of energy under RSA 362-F:10, V and RSA 362-F:10,

VIII. The [commission] department of energy shall issue a request for proposals no later than
March 1, 2011 and annually thereafter, and select winning projects in a timely manner.

the following RSA provisions by replacing "commission" with "department of energy": 362-F:5, 362-

242 Expenses of the Public Utilities Commission Against Certain Utilities. Amend RSA 363-A:1
to read as follows:

363-A:1 Ascertainment of Expenses. The [public utilities commission] department of energy
shall annually, after the close of the fiscal year, ascertain the total of its expenses attributable to
support of the public utilities commission and to performance of all duties and
responsibilities transferred to the department from the public utilities commission, in
addition to the total of the public utilities commission's expenses during such year incurred in
the performance of its duties relating to public utilities as defined in RSA 362 and other entities
subject to its regulatory and enforcement authority and relating to the office of the consumer
advocate. In the determination of such expenses there shall be excluded the expenses which have
been or may be charged and recovered under the provisions of RSA 365:37, RSA 365:38, and RSA
374-F:7, I.

243 Expenses of Public Utilities Commission Against Certain Utilities; Assessment. Amend
RSA 363-A:2, III-IV to read as follows:

III. Each entity described in subparagraph I(e) shall be assessed the sum of $10,000 on an
annual basis and shall pay such assessed sum to the [commission] department of energy. Each
electric load aggregator, and each aggregator of natural gas customers shall be assessed the sum of
$2,000 on an annual basis and shall pay such assessed sum to the [commission] department of
energy. Each telecommunications carrier voluntarily registered with the commission shall be
assessed the sum of $1,000 on an annual basis and shall pay such sum to the [commission] department of energy.

IV. The expenses of the [commission] department of energy and the public utilities
commission, and the office of the consumer advocate, less the total of the assessed sums paid
[to the commission] pursuant to paragraph III, shall be allocated to each utility and other assessed entity in direct proportion as the revenue calculation for such utility or other assessed entity relates to the total of all such revenue calculations as a whole, except as otherwise provided in paragraph V. Each such expense allocation shall be assessed against each public utility and other assessed entity in an amount equal to its proportionate share as determined under this section, except that the expense allocation attributed to each entity described in subparagraph I(e) shall be imputed to and included in the expense allocation to each electric or natural gas distribution utility or rural electric cooperative for which a certificate of deregulation is on file with the commission, in correspondence to the revenue portion reported pursuant to paragraph II as having been received from the distribution customers of such distribution utility or the members of such rural electric cooperative for which a certificate of deregulation is on file with the commission.

244 Expenses of Public Utilities Commission Against Certain Utilities; Certification of Assessment; Collection. Amend RSA 363-A:3 and RSA 363-A:4 to read as follows:

363-A:3 Certification of Assessment. It shall be the duty of the [public utilities commission] department of energy to calculate the amount to be assessed against each such public utility and each other entity subject to assessment in accordance with RSA 363-A:1 and RSA 363-A:2. At the beginning of each fiscal year, the [public utilities commission] department of energy shall estimate [its] the total expenses for the fiscal year, and then, based on such estimate, shall calculate the amount to be assessed quarterly on August 10, October 15, January 15, and April 15 of that fiscal year, against each such public utility and other assessed entity in accordance with RSA 363-A:1 and RSA 363-A:2. The [public utilities commission] department of energy shall then make a list showing the amount due on August 10, October 15, January 15, and April 15 of that fiscal year from each of the several public utilities and other entities assessed under the provisions hereof, and, together with a statement of the full name and mailing address of each such public utility and other assessed entity, shall certify the same. After the close of each fiscal year, the [public utilities commission] department of energy shall ascertain [its] the actual total expenses in accordance with RSA 363-A:1 and RSA 363-A:2, and then shall adjust the assessment for the first quarterly payment of the new fiscal year for each such public utility or other assessed entity for any underpayment or overpayment by each such public utility or other assessed entity for the prior fiscal year.

363-A:4 Collection. Upon the completion of each such list, on or before August 10, October 10, January 10, and April 10 of each fiscal year, the [public utilities commission] department of energy shall bill each public utility and each other entity subject to assessment for the quarterly amount assessed against it within 10 working days. Such bill shall be sent registered mail, and shall constitute notice of assessment and demand for payment. Payment shall be made to the [public utilities commission] department of energy within 30 days after the receipt of the bill. After the expiration of 30 days from the receipt of an original bill, the [public utilities commission]
department of energy may add to the assessment a late penalty fee and may commence an action
at law for the recovery of the assessment. Within 30 days of the assessment for the first quarterly
payment, each public utility or other assessed entity which has any objection to the amount assessed
against it for the prior fiscal year shall file with the [commission] department its objection in
writing, setting out in detail the grounds upon which it is claimed that said assessment is excessive,
erroneous, unlawful, or invalid. If such objections are filed, the [commission] department, after
reasonable notice to the objecting public utility or other assessed entity, shall hold a hearing on such
objections, and if the [commission] department finds that said assessment or any part thereof is
excessive, erroneous, unlawful, or invalid, the [commission] department shall reassess the amount
to be paid by such public utility or other assessed entity, and shall order that an amended bill be
sent to such public utility or other assessed entity in accordance with such reassessment. The
[public utilities commission] department of energy shall not commence an action at law for
recovery of any assessment for the first quarterly payment until any such objection has been
resolved.

245 Public Utility Recovery of Assessment Costs. Amend RSA 363-A:6, I to read as follows:

I. Assessment amounts determined with reference to the revenues of competitive electric
power suppliers and all assessments against regulated electric distribution utilities and electric
cooperatives for which a certificate of deregulation is on file with the [commission] department
shall be collected from electric customers through the distribution rates of the respective electric
distribution utility or rural electric cooperative for which a certificate of deregulation is on file with the
[commission] department; provided that an amount equal to the amount assessed directly to a
competitive electric power supplier under RSA 363-A:2, III shall be collected from the energy service
or default service customers of each electric distribution utility or rural electric cooperative for which
a certificate of deregulation is on file with the [commission] department.

246 Complaints to and Proceedings Before the Department of Energy and the Commission.
Amend the chapter title of RSA 365 to read as follows: Amend the chapter title of RSA 365 to read as
follows:

COMPLAINTS TO[;] THE DEPARTMENT OF ENERGY
AND PROCEEDINGS BEFORE[;] THE COMMISSION

247 Complaint Against Public Utilities. Amend RSA 365:1 to read as follows:

365:1 Complaint Against Public Utilities. Any person may make complaint to the [commission]
department of energy by petition setting forth in writing any thing or act claimed to have been
done or to have been omitted by any public utility in violation of any provision of law, or of the terms
and conditions of its franchises or charter, or of any order of the commission.

248 Complaints to the Department of Energy and Proceedings Before the Commission. Amend
RSA 365:2 through RSA 365:7 to read as follows:
365:2 Order. Thereupon the [commission] department of energy shall cause a copy of said complaint to be forwarded to the public utility complained of, which may be accompanied by an order, requiring that the matters complained of be satisfied, or that the charges be answered in writing within a time to be specified by the [commission] department.

365:3 Reparation. If the public utility complained of shall make reparation for any injury alleged and shall cease to commit or to permit the violation of law, franchise, or order charged in the complaint, and shall notify the [commission] department of energy of that fact before the time allowed for answer, the [commission] department shall not be required to take any further action upon the charges.

365:4 Investigation. If the charges are not satisfied as provided in RSA 365:3, and it shall appear to the [commission] department of energy that there are reasonable grounds therefor, it shall investigate the same in such manner and by such means as it shall deem proper[, and, after notice and hearing, take such action within its powers as the facts justify]. After investigation, the department of energy may bring proceedings on its own motion before the public utilities commission, with respect to any complaint or violation of any provision of law, rule, terms and conditions of its franchises or charter, or any order of the commission.

365:5 Independent Inquiry. The commission, on its own motion or upon petition of a public utility, and the department of energy may investigate or make inquiry in a manner to be determined by it as to any rate charged or proposed or as to any act or thing having been done, or having been omitted or proposed by any public utility; and [the commission or] shall make such inquiry in regard to any rate charged or proposed or to any act or thing having been done or having been omitted or proposed by any such utility in violation of any provision of law or order of the commission or the department.

365:6 Inspection. The Both the commission and the department of energy may at any time personally, or by its experts or agents, inspect the property, works, system, plant, devices, appliances and methods used by any public utility, or its books, papers and records.

365:7 Authority to Inspect. Any expert or agent of the department of energy or the commission, who shall make a demand on behalf of the commission or the department to be allowed to inspect as provided in RSA 365:6, shall produce written authority to make such inspection signed by the [secretary or assistant secretary or some member] chairperson of the commission or the commissioner of the department of energy.

249 Proceedings Before the Public Utilities Commission. Amend RSA 365:8, I(j) to read as follows:

(j) Standards and procedures for determination and recovery of rate [case] proceedings expenses.

250 Proceedings Before the Public Utilities Commission. Amend RSA 365:8, II to read as follows:
II. Where the commission has adopted rules in conformity with this section, proceedings before the commission shall not be subject to RSA 541-A:29 or RSA 541-A:29-a.

251 Repeal. The following are repealed:
I. RSA 365:8-a, relative to suppliers of natural gas an aggregators of natural gas customers.
II. RSA 374-F:4, III, relative to certain compliance filings filed with the public utilities commission.

252 Complaints to Department of Energy and Public Utilities Commission; Expense of Investigations; Rate Proceeding. Amend RSA 365:37 and 365:38 to read as follows:

365:37 Expense of Investigations.

I. Whenever any investigation by the commission or the department of energy shall be necessary to enable the commission to pass upon any petition for authority to issue stocks, bonds, notes, or other evidence of indebtedness, for authority to operate as a public utility or to expand operations as a public utility, to make extensions into new territory, to discontinue service, to condemn property for flowage rights and dam construction, or for authority to sell, consolidate, merge, transfer, or lease the plant, works, or system of any public utility, or any part of the same, or for any other matter which requires the commission's approval of the commission or the department of energy, the petitioner shall pay to the commission department of energy the expense involved in the investigation of the matters covered by said petition, including the amounts expended for experts, accountants, or other assistants. Such expense shall not include any part of the salaries or expenses of the commissioners or of employees of the commission or department of energy or, unless the proceeding is being conducted pursuant to RSA 38, the fees of experts testifying as to values in condemnation proceedings.

II. Whenever the commission institutes a proceeding, or when more than one utility subject to the jurisdiction of the commission shall be involved in a proceeding in which the commission or the department of energy requires the assistance of experts, accountants or other assistants, regardless of whether they petitioned the commission in the first instance, the commission and the department of energy may assess the costs of experts, accountants or other assistants hired by the commission or the department of energy against the utilities and any other parties to the proceeding. The commission and the department of energy shall not, however, assess any such costs against the office of the consumer advocate or against any voluntary corporation, not-for-profit organization, or any municipality unless the municipality is involved in a proceeding before the commission pursuant to RSA 38. In the case of a utility, the assessment of those costs shall be based on the annual revenues of the participating utilities in the same manner as issued in assessing the annual operating expenses of the commission and the department of energy, or as appropriate and equitable on a case by case basis. In the case of a party who is not a utility, the assessment of those costs shall be as appropriate and equitable on a case by case basis. Such expenses shall not include any part of the salaries or expenses of the commissioners or of employees of the commission
or of employees of the department of energy or, unless the proceeding is being conducted pursuant to RSA 38, the fees of experts testifying as to values in condemnation proceedings.

III. For investigations or proceedings involving the acquisition, merger, transfer, sale, or lease of the works or system of a public utility, the commission and the department of energy shall not enter into a contract with experts, accountants, or other assistants in an amount greater than $250,000 $10,000, including any contract extension, without the approval of the governor and council. For all other investigations or proceedings, the commission and the department of energy shall not enter into a contract with experts, accountants, or other assistants in an amount greater than $100,000 $10,000, including any contract extension, without the approval of governor and council.

365:38 Rate Proceeding. Whenever any investigation or proceeding shall be necessary to enable the commission to pass upon the reasonableness of the rates or charges by a public utility, the utility, upon order of the commission, shall pay to the commission its department of energy the expenses involved in the investigation, including the amounts expended by the commission and the department of energy for attorneys, experts, accountants, or other assistants, but not including any part of the salaries or expenses of the commissioners or of employees of the commission or department of energy; provided, that the amount charged to the utility by the commission in any such case shall not exceed 3/4 of one percent of the existing valuation of the utility investigated, such expenses with 6 percent interest to be charged by the utility to operating expenses and amortized over such period as the commission shall deem proper and allowed for in the rates to be charged by the utility.

253 Complaints to Department of Energy and Public Utilities Commission; Penalty Against Utility. Amend RSA 365:41 to read as follows:

365:41 Penalty Against Utility. Any public utility which shall violate any provisions of this title, or fails, omits or neglects to obey, observe or comply with any order, direction or requirement of the commission or the department of energy, shall be subject to a civil penalty, as determined by the commission, not to exceed $250,000 or 2.5 percent of the annual gross revenue that the utility received from sales in the state, whichever is lower. Such penalties shall be applied to the benefit of the utility's ratepayers through a credit to bills, or, if the credit is of an amount determined by the commission to be insignificant on a per customer basis, to programs that benefit low income ratepayers. No portion of any fine, nor any costs associated with an administrative or court proceeding which results in a fine pursuant to this section, shall be considered by the commission in fixing any temporary, permanent, or emergency rates or charges of such utility.

254 Affiliates of Public Utilities; Department of Energy. Amend RSA 366:2 through 366:9 to read as follows:

366:2 Sale of Securities to or by Employees. No public utility shall, without the approval of the commission department of energy, permit any employee to sell, offer for sale, or solicit the
purchase of any security issued by an affiliate during such hours as such employee is engaged to
perform any duty of such public utility; nor shall any public utility by any means or device
whatsoever require any employee to purchase or contract to purchase any of its securities or those of
any other person or corporation; nor shall any public utility require any employee to permit the
deduction from his wages or salary of any sum as a payment or to be applied as a payment on any
purchase or contract to purchase any security of such public utility or of any other person.

366:3 Filing of Contracts. The original or a verified copy of any contract or arrangement and of
any modification thereof or a verified summary of any unwritten contract or arrangement, the
consideration of which exceeds $500, hereafter entered into between a public utility and an affiliate
providing for the furnishing of managerial, supervisory, construction, engineering, accounting,
purchasing, financial, or any other services either to or by a public utility or an affiliate shall be filed
by the public utility with the [commission] department of energy within 10 days after the date on
which the contract is executed or the arrangement entered into. The [commission] department may
also require a public utility to file in such form as the [commission] department may require full
information with respect to any purchase from or sale to an affiliate, whether or not made in
pursuance of a continuing contract or arrangement.

366:4 Failure to File. Any contract or arrangement not filed with the [commission] department
of energy pursuant to RSA 366:3 shall be unenforceable in any court in this state and payments
thereunder may be disallowed by the [commission] department unless the later filing thereof is
approved in writing by the [commission] department. The commission shall disallow payment
if recommended by the department.

366:5 Investigation and Proof. The [commission] department of energy shall have full power
and authority to investigate any such contract, arrangement, purchase, or sale and initiate a
proceeding related thereto before the commission. If the commission after notice and hearing
shall find any such contract, arrangement, purchase, or sale to be unjust or unreasonable, the
commission may make such reasonable order relating thereto as the public good requires. In any
such investigation, the burden shall be on the public utility and affiliate to prove the reasonableness
of any such contract, arrangement, purchase, or sale with, from, or to an affiliate. If the public
utility shall fail to satisfy the commission of the reasonableness of any such contract, arrangement,
purchase, or sale, the commission may disapprove the same and disallow payments thereunder or
such part of any such payment as the commission shall find to be unjust or unreasonable. No
payment disallowed by the commission shall be capitalized or included as an operating cost of the
public utility in the fixing of rates or as an asset in fixing a rate base. If in any such investigation
the public utility or affiliate shall unreasonably refuse to comply with any request of the commission
or the department for information with respect to relevant accounts and records, whether of such
public utility or any affiliate, any portion of which may be applicable to any transaction under
investigation, so that such parts thereof as the commission or the department may deem material
may be made part of the record, such refusal shall justify the commission in disapproving the
transaction under investigation and disallowing payments in pursuance thereof.

366:6 Summary Order in Certain Cases. If as a result of an investigation or proceeding in
accordance with RSA 366:5 the commission shall find that any public utility is making any payment
or about to make any payment or doing or about to do any other thing which substantially threatens
or impairs the ability of the public utility to render adequate service at reasonable rates or otherwise
to discharge its duty to the public, the commission may apply to the superior court for an order
directing the public utility to cease making any such payment or doing such other thing; and,
thereupon, the court shall make such order as the public good may require.

366:7 Disallowance of Charges Under Existing Contracts. In any proceeding whether upon the
department's initiation or commission's own motion or upon complaint involving the rates or
practices of any public utility, the commission may disallow the inclusion in the accounts of a public
utility of any payments or compensation to an affiliate for any services rendered, or property
furnished, under existing contracts or arrangements with an affiliate unless such public utility shall
establish the reasonableness of such payment or compensation.

366:8 Annual Reports. Every public utility annually reporting to the commission or
department of energy under RSA 374 shall also annually report the name and address of, and the
number of shares held by, its officers and directors and each holder of one percent or more of the
voting capital stock of the reporting public utility according to its records.

366:9 Information Concerning Control. The commission or department of energy may also
require such other information as to the direct or indirect control of a public utility or affiliate from a
public utility, affiliate, or other person as may be reasonably required for the effective enforcement of
this chapter.

255 References Change; Service Equipment of Public Utilities; Department of Energy. Amend
the following RSA provisions by replacing "commission" with "department of energy": 370:2, 370:8, 370:9.

256 Service Equipment of Public Utilities; Units of Service. Amend RSA 370:1 to read as
follows:

determine and fix, for each kind of public utility, suitable and convenient standard commercial units
of service, product or commodity, which units shall be lawful units for the purposes of this chapter.

257 Service Equipment of Public Utilities; Department of Energy. Amend RSA 370:3 through
370:7 to read as follows:

370:3 Meters. The [commission] department of energy may ascertain, determine and fix
reasonable rules, regulations, specifications and standards to secure the accuracy of all meters and
appliances for measurement, and every public utility is required to carry into effect all orders issued
by the [commission] department relative thereto.
370:4 Service Inspections. The [commission] department of energy may provide for the
inspection of the manner in which every public utility conforms to the reasonable regulations
prescribed by the [commission] department for examination and testing of its service, product or
commodity, and for the measurement thereof, and may supplement such inspections by
examinations and testing.

370:5 Inspection of Meters. The [commission] department of energy may provide for the
inspection of the manner in which every public utility has carried into effect the reasonable rules,
regulations, specifications and standards fixed by [orders of the commission] rules adopted by the
department relative thereto, and may examine and test any meters and appliances for
measurements under such reasonable rules and regulations as it may prescribe.

370:6 Testing Appliances. The [commission] department may provide for the examination and
testing of any appliances used for the measuring of any service, product or commodity of a public
utility.

370:7 At Consumer's Request. Any consumer or user may have any such appliance tested by the
[commission] department of energy. The [commission] department may declare and establish
reasonable fees to be paid for examining and testing such appliances on the request of consumers or
users, the fee to be paid by the consumer or user at the time of his request; but, if the measuring
 appliance be found unreasonably defective or incorrect to the disadvantage of the consumer or user,
the [commission] department shall repay such fee to the consumer or user and collect the same
from the public utility.

258 Rights in Public Waters and Lands; License by Notification of New Attachments on Existing
Utility Poles. Amend RSA 371:17-a to read as follows:

371:17-a License by Notification of New Attachments on Existing Utility Poles. Whenever it is
necessary, in order to meet the reasonable requirements of service to the public, that any public
utility other than electric or gas should construct a cable, conduit, or wires and fixtures upon an
existing line of poles or towers over, under, or across any of the public waters of this state, or over,
under, or across any of the land owned by this state, the public utility shall file written notification
with the [commission] department of energy for a license to construct and maintain such cable,
conduit, or wires and fixtures. In this section, "public waters" means all ponds of more than 10
acres, tidewater bodies, and such streams or portions thereof as the commission may prescribe.
Every corporation and individual desiring to cross any public waters or land for the purposes of this
section shall file written notification in the same manner prescribed for a public utility. The
notification shall include a description of the specific geographic and pole locations of the crossing
and verification that there is a valid pole attachment license or that an application for a pole
attachment license has been submitted to the utility or utilities that own such poles or towers. The
notification shall include an affidavit signed by the responsible officer confirming that the crossing
shall be completed in compliance with such pole attachment license and the National Electrical
Safety Code. Upon receipt of such notification, no further inquiries or investigations by the
commission shall be required in granting the requested license.

Rights in Public Waters and Lands; Hearing; Order. Amend RSA 371:20 to read as follows:

Whenever a hearing shall be necessary, the commission shall hear all parties interested; and, in case it shall find that the license petitioned for, subject to such modifications and conditions, if any, and for such period as the commission may determine, may be exercised without substantially affecting the public rights in said waters or lands, it shall render judgment granting such license. Provided, however, that such license may be granted by the department of energy without hearing when all interested parties are in agreement and in cases involving filings made under RSA 371:17-a and RSA 371:17-b. [The executive director of the commission may issue licenses under RSA 371:17-a and RSA 371:17-b.]

References Changed; Proceedings to Acquire Property or Rights; Rights in Public Waters and Lands; Department of Energy. Amend the following RSA provisions by replacing "commission" with "department of energy": 371:17, 371:18, 371:19.

The public utilities commission and department of energy shall have the general supervision of all public utilities and the plants owned, operated or controlled by the same so far as necessary to carry into effect the provisions of this title.

Supervisory Power of Department of Transportation

Energy and Public Utilities Commission

Duties. Amend RSA 374:4-374:5-a to read as follows:

The commission and the department of energy shall have power, and it shall be [its] their duty, to keep informed as to all public utilities in the state, their capitalization, franchises and the manner in which the lines and property controlled or operated by them are managed and operated, not only with respect to the safety, adequacy and accommodation offered by their service, but also with respect to their compliance with all provisions of law, orders of the commission and charter requirements.

Additions and Improvements. For the purpose of enabling the commission and the department of energy to perform [its] their duty to keep informed as provided in RSA 374:4, every public utility, before making any addition, extension, or capital improvement to its fixed property in this state, except under emergency conditions, shall report to the commission and the department of energy the probable cost of such addition, extension, or capital improvement whenever the probable cost thereof exceeds a reasonable amount to be prescribed by general or special order of the commission. For this purpose, the commission may classify public utilities according to the amount of their respective fixed capital accounts, and prescribe a reasonable limitation for each such
classification. In no case shall the minimum amount prescribed be less than 1/4 of one percent of such fixed capital account as of December 31 of the preceding year, or $10,000, whichever is the smaller amount. Reports shall be filed in writing [with the commission] within such reasonable time as may be prescribed by the commission before starting actual construction on any addition, extension, or improvement. The commission shall have discretion to exclude the cost of any such addition, extension, or capital improvement from the rate base of said utility where such written report thereof shall not have been filed in advance as herein provided.

374:7-a Violation.

I. Any person who knowingly or willfully violates any provision of RSA 370:2 or any standards or rules adopted under it by the public utilities commission or the department of energy, relative to gas pipelines and liquefied petroleum gas systems pursuant to the Natural Gas Pipeline Safety Act, shall be subject to a civil penalty not to exceed the maximum civil penalty under 49 U.S.C. section 60122(a), as amended.

II. Any person who otherwise violates any provision of RSA 370:2 or any standards or rules adopted under it by the public utilities commission or the department of energy, relative to gas pipelines and liquefied petroleum gas systems pursuant to the Natural Gas Pipeline Safety Act, shall be subject to a civil penalty not to exceed the maximum civil penalty under 49 U.S.C. section 60122(a), as amended.

III. The department of energy shall assess and enforce civil penalties related to this section. Any civil penalty assessed under this section may be [compromised] appealed to the public utilities commission, and the commission may uphold, reverse, or compromise such civil penalty [by the public utilities commission]. In determining the amount of the penalty, the outcome of an appeal, or the amount agreed upon in compromise, the appropriateness of the penalty to the size of the business of the person charged, the gravity of the violation, the good faith of the person charged in attempting to achieve compliance, after notification of a violation, the degree of culpability of the person, the history of prior violations, the effect of the penalty on the person, and
any other identifiable factor related to the circumstances of the person and the nature and
circumstances of the violation, shall be considered. The amount of the penalty, when finally
determined, or the amount agreed upon in compromise, may be deducted from any sums owing by
the state to the person charged or may be recovered in a civil action in the state courts.

265 Public Utilities; Reports; Filing. Amend RSA 374:15 to read as follows:

374:15 Filing. Every public utility shall file with the commission and the department of
energy reports at such times, verified by oath in such manner, and setting forth such statistics and
facts, as may be required by the commission or the department of energy.

266 Public Utilities; Reports. Amend RSA 374:17-374:19 to read as follows:

374:17 Neglect to Report. If any public utility shall neglect or refuse to make and file any report
within a time specified by the commission or the department of energy, or shall neglect or refuse
to make specific answer to any question lawfully asked by the commission or the department of
energy, it shall forfeit to the state the sum of $100 for each day it shall continue to be in default with
respect to such report or answer, unless it shall be excused [by the commission] from making such
report or answer, or unless the time for making the same shall be extended [by the commission].

374:18 Production of Books, Etc. The commission, by order, or the department of energy, may
require any public utility to produce within the state, at such time and place as it may designate,
any accounts, records, memoranda, books, or papers kept in any office or place without the state, or
verified copies thereof, in order that an examination thereof may be made by or under the
direction of the commission or [under its direction] the department of energy.

374:19 False Statements, Etc. No public utility shall willfully make any false statement or false
entry in any report to the commission or the department of energy, or in any answer to any
question lawfully asked by the commission or the department of energy.

267 Service Territories; Department of Energy Jurisdiction. Amend RSA 374:22-e to read as
follows:

374:22-e Service Territories; [Commission] Department of Energy Jurisdiction.

I. If 2 or more telephone utilities find that they provide the same service in the same area or
that existing maps create overlapping service territories, the [commission] department of energy,
upon application by one or both of the affected utilities, shall define, alter, or establish service
territories. In establishing or altering service territories, the [commission] department of energy
shall consider the following:

(a) Existing service areas;

(b) Any voluntary agreements between or among 2 or more such telephone utilities
which define the service territories of those utilities;

(c) Consistency with the orderly development of the region;

(d) Natural geographical boundaries;

(e) Compatibility with the interests of all consumers; and
(f) All other relevant factors.

II. The department of energy shall have power to exercise the jurisdiction conferred in this section only after due notice to all interested parties and hearing. After consideration of the factors established by paragraph I of this section, and after making findings that the service territories established or altered are consistent with the public good, the department of energy shall establish the service territory of each telephone utility. The service territory thus established shall be sufficiently definite and precise so that its boundaries may be accurately determined.

268 Service Territories Served by Certain Telephone Utilities. Amend RSA 374:22-g to read as follows:

374:22-g Service Territories Served by Certain Telephone Utilities.

I. To the extent consistent with federal law and notwithstanding any other provision of law to the contrary, all telephone franchise areas served by a telephone utility that provides local exchange service, subject to the jurisdiction of the department of energy, shall be nonexclusive. The department of energy, upon petition or on its own motion, shall have the authority to authorize the providing of telecommunications services, including local exchange services, and any other telecommunications services, by more than one provider, in any service territory, when the department of energy finds and determines that it is consistent with the public good unless prohibited by federal law.

II. In determining the public good, the commission shall consider the interests of competition with other factors including, but not limited to, fairness; economic efficiency; universal service; carrier of last resort obligations; the incumbent utility's opportunity to realize a reasonable return on its investment; and the recovery from competitive providers of expenses incurred by the incumbent utility to benefit competitive providers, taking into account the proportionate benefit or savings, if any, derived by the incumbent as a result of incurring such expenses.

III. The department of energy shall adopt rules, pursuant to RSA 541-A, relative to the enforcement of this section.

269 Shared Tenant Services Authorized; Limited Regulation; Rulemaking. Amend RSA 374:22-l and m to read as follows:

374:22-l Shared Tenant Services Authorized; Limited Regulation.

I. The department of energy shall authorize the provision of shared tenant services by providers meeting the minimum requirements established by the department of energy to operate shared tenant services networks.

II. Providers of shared tenant services shall be subject to the following limited regulation by the department of energy:
(a) Providers of shared tenant services shall disclose to tenants and prospective tenants all pricing information relative to their services in the manner prescribed by the department of energy.

(b) Providers of shared tenant services shall disclose to tenants and prospective tenants that they can at their option obtain basic exchange and other service from an authorized local telephone utility rather than from the shared tenant services provider.

(c) Without penalty and in accordance with the rules of the department of energy, telephone number retention and access to telecommunications services shall be permitted by providers of shared tenant services and authorized local telephone utilities into and out of shared tenant services properties.

(d) The department of energy shall have jurisdiction to hear matters pertaining to the unauthorized provision of shared tenant services, violations of department rules relating to shared tenant services, and customer complaints against shared tenant services providers.

374:22-m Rulemaking. The department of energy shall adopt rules, pursuant to RSA 541-A, relative to:

I. Minimum requirements for shared tenant services, including disclosure of available options and terms and prices of shared tenant services.

II. Customer access to services of authorized local telephone utilities.

III. Telephone number retention and recovery of costs, if any, associated with number retention.

IV. The charges a local telephone utility establishes for a shared tenant services provider to purchase services for use by the provider's tenants.

V. Procedures for complaints to the department regarding shared tenant services.

270 Regulation of Competitive Telecommunications Providers Limited; Affordable Telephone Service; Public Interest Payphones. Amend RSA 374:22-o-374:22-p to read as follows:

374:22-o Regulation of Competitive Telecommunications Providers Limited. Any person or business entity authorized by the department of energy to engage in business as a competitive local exchange carrier and any competitive toll provider having less than a 10 percent share of toll revenue in New Hampshire shall not be required to seek prior department approval of financings or corporate organizational changes, including, without limitation, mergers, acquisitions, corporate restructurings, issuance or transfer of securities, or the sale, lease, or other transfer of assets or control. Nothing in this section shall exempt any such competitive telecommunications service provider from such advance notice as the department may prescribe or from the requirements of RSA 374:28-a or RSA 378:46.

374:22-p Affordable Telephone Service; Rulemaking; Standards.

(b) For purposes of this section "basic service" means:

(1) Safe and reliable single-party, single line voice service;

(2) The ability to receive all noncollect calls, at telephone lines capable of receiving calls, without additional charge;

(3) The ability to complete calls to any other telephone line, which is capable of receiving calls, in the state;

(4) The opportunity to presubscribe to interLATA toll carriers;

(5) The opportunity to presubscribe to intraLATA toll carriers;

(6) Dialing parity;

(7) Number portability;

(8) Enhanced 911, pursuant to the requirements of the department of safety, bureau of emergency communications, or its successor agency;

(9) Access to statewide directory assistance;

(10) Telecommunications relay service (TRS);

(11) A published directory listing, at the customer's election;

(12) A caller identification blocking option, on a per-call basis;

(13) A caller identification line blocking option that is available to all customers without a recurring charge and is provided upon customer request without charge to customers who have elected nonpublished telephone numbers and is available without a nonrecurring charge to customers who certify that caller identification threatens their health or safety and is available without a nonrecurring charge when requested with installation of basic service;

(14) A blocking option for pay-per-call calls, such as blocking all 900 or all 976 area code calls;

(15) The ability to report service problems to the customer's basic service provider on a 24-hour basis, 7 days a week; and

(16) Automatic Number Identification (ANI) to other carriers which accurately identifies the telephone number of the calling party.

(c) Any combination of basic service along with any other service or feature offered by the telecommunications service provider is nonbasic service and shall not be regulated by the commission.

(d) Any telecommunications service provider which is not an incumbent local exchange carrier shall not be required to provide basic service.

II. Subject to RSA 362:6, the [commission] department of energy shall require every provider of intrastate telephone service to participate in outreach programs designed to increase the number of low-income telephone customers on the network through increased participation in any
universal service program approved by the department and statutorily established by the legislature. Statewide outreach programs shall continue until further order of the department.

III. The department of energy shall seek to ensure that affordable basic telephone services are available to consumers throughout all areas of the state at reasonably comparable rates.

IV.(a) The department of energy shall maintain and update rules to implement this section and shall, after the statutory establishment of a universal service fund, require every provider of intrastate telephone services to contribute to a state universal service fund to support programs consistent with the goals of applicable provisions of this title and the Federal Telecommunications Act.

(b) If the department of energy, upon statutory establishment of a universal service program, establishes a state universal service fund pursuant to this section, the department shall contract with an appropriate independent fiscal agent that is not a state entity to serve as administrator of the state universal service fund. Program administration shall be designed in the most cost-effective manner possible. Funds contributed to a state universal service fund are not state funds and therefore are not subject to provisions of law relating to the general fund. Rules and any state universal service fund requirements established by legislative enactment and by the department pursuant to this section shall:

(1) Be reasonably designed to maximize federal assistance available to the state for universal service purposes.

(2) Meet the state's obligations under the Federal Telecommunications Act.

(3) Be consistent with the goals of the Federal Telecommunications Act.

(4) Ensure that any requirements regarding contributions to a state universal service fund be nondiscriminatory and competitively neutral.

(5) Require explicit identification on customer's bills of contributions to and in the event of fund termination, refunds from, any state universal service fund established pursuant to the section.

(6) Allow consideration in appropriate rulemaking proceedings of contributions to and in the event of fund termination, refunds from, any state universal service fund established pursuant to this section.

(c) For purposes of this section, "providers of intrastate telephone services" includes providers of radio paging service and, subject to the provisions of the Federal Communications Act as amended and codified at 47 U.S.C. sec. 332(c)(3)(A), mobile telecommunications services.

(d) Prior to requiring that providers of intrastate telephone service contribute to a state universal service fund and prior to statutory establishment of a universal service fund, the department of energy shall report to the general court its determination of the
expected program costs, the amount and type of the funding mechanism, the number of people
proposed to be served, the level of proposed service, and the administrative design of the proposed
fund.

V. The [commission] department of energy, annually, shall assess the penetration rate of
basic telephone services. If this penetration rate ever falls below the national average penetration
rate, the [commission] department shall commence an investigation and take steps to enhance
telephone market penetration. The [commission] department, annually, shall assess the success of
any action taken by the [commission] department to achieve the purpose of this section. The public
policy goal should be to raise the low income penetration level as close as reasonably possible to the
statewide average.

VI, VII. [Repealed.]

VIII. Notwithstanding the provisions of RSA 374:1-a:

(a) Incumbent local exchange carriers, whether qualified as an excepted local exchange
carrier or otherwise, may not discontinue residential basic service, regardless of technology used, in
any portion of their franchise area unless the [commission] department of energy determines that
the public good will not be adversely affected by such withdrawal of service;

(b) Rates for basic service of incumbent local exchange carriers which qualify as
excepted local exchange carriers may not increase by more than 5 percent for Lifeline Telephone
Assistance customers and by more than 10 percent for all other basic service customers in each of
the 8 years after the effective date of this paragraph or the effective date of an existing alternative
plan of regulation, except for additional rate adjustments, with [public utilities commission]
department of energy review and approval, to reflect changes in federal, state, or local government
taxes, mandates, rules, regulations, or statutes; and

(c) Incumbent local exchange carriers which qualify as excepted local exchange carriers
shall report the rates for basic service to the [commission] department of energy within 60 days of
the effective date of this paragraph and upon any changes to the rates.

271 Pole Attachments. Amend RSA 374:34-a to read as follows:

374:34-a Pole Attachments.

I. In this subdivision, a "pole" means any pole, duct, conduit, or right-of-way that is used for
wire communications or electricity distribution and is owned in whole or in part by a public utility,
including a rural electric cooperative for which a certificate of deregulation is on file with the
commission pursuant to RSA 301:57.

II. Whenever a pole owner is unable to reach agreement with a party seeking pole
attachments, the commission shall regulate and enforce rates, charges, terms, and conditions for
such pole attachments, with regard to the types of attachments regulated under 47 U.S.C. section
224, to provide that such rates, charges, terms, and conditions are just and reasonable. This
III. The [commission] department of energy shall adopt rules under RSA 541-A to carry out the provisions of this section, including appropriate formula or formulae for apportioning costs.

IV. In exercising its authority under this subdivision, the [commission] department of energy shall consider the interests of the subscribers and users of the services offered via such attachments, as well as the interests of the consumers of any pole owner providing such attachments.

V. Nothing in this subdivision shall prevent parties from entering into pole attachment agreements voluntarily, without commission approval.

VI. Any pole owner shall provide nondiscriminatory access to its poles for the types of attachments regulated under this subdivision. A pole owner may deny access to its poles on a nondiscriminatory basis where there is insufficient capacity and for reasons of safety, reliability, and generally applicable engineering purposes.

VII. The commission shall have the authority to hear and resolve complaints concerning rates, charges, terms, conditions, voluntary agreements, or any denial of access relative to pole attachments.

VIII. The [commission] department of energy shall retain its authority to regulate the safety, vegetation management, emergency response, and storm restoration requirements for poles, conduits, ducts, pipes, pole attachments, wires, cables, and related plant and equipment of public utilities and other private entities located within public rights-of-way and on, over, or under state lands and water bodies.

272 Repeals. The following are repealed:

I. RSA 374:35, relative to transmitting electricity out of the state.

II. RSA 374:36, relative to investigations and orders.

273 Investigation of Accidents. Amend RSA 374:37-374:40 to read as follows:

374:37 By [Commission] Department. The [commission] department of energy shall investigate the causes of all accidents in connection with the operation of public utilities in the state, which, in the opinion of the commission or the department of energy, ought to be investigated.

374:38 Manner. Any such investigation may be made by the [full commission] department of energy [or by a single commissioner, or by an agent of the commission,] in such manner as the [commission] department of energy may determine.

374:39 Reports. Every public utility shall report to the department of energy and the commission accidents occurring in connection with the operation of its business wherein loss of life occurs or any person is injured, or of such a nature as to endanger the safety, health or property of its consumers or the public, as and whenever directed by such rules and regulations as the department of energy and the commission may prescribe.
374:40 Publicity. Reports of accidents filed under RSA 374:39 shall not be made public otherwise than in the published reports of the commission or the department of energy.

274 New Paragraph; Definitions. Amend RSA 374:48 by inserting after paragraph II the following new paragraph:

II-a. “Department” means the department of energy.

275 Rulemaking. Amend the introductory paragraph of RSA 374:50 to read as follows:

The [commission] department shall adopt rules, pursuant to RSA 541-A, relative to:

276 Civil Penalty. Amend RSA 374:55 to read as follows

374:55 Civil Penalty.

I. Proof that an excavation has been made without compliance with the notice requirement of RSA 374:51 and that damage to an underground facility has occurred shall be prima facie evidence in any court or administrative proceeding that the damage was caused by the negligence of the excavator.

II. Any excavator who does not give notice of or identify the proposed excavation area as required by RSA 374:51 or rules of the [commission] department regarding tolerance zones and marking procedures shall be subject to the penalties in paragraph VIII, in addition to any liability for the actual damages.

III. Any operator which does not mark the location of its underground facilities as required by RSA 374:53 or rules of the [commission] department regarding tolerance zones and marking procedures shall be subject to the penalties in paragraph VIII.

IV. If underground facilities are damaged because an operator does not mark its underground facilities as required by RSA 374:53, the operator shall be subject to the penalties in paragraph VIII, liable for damages sustained to its facilities and, in addition, shall be liable for any damages incurred by the excavator as a result of the operator's failure to mark such facilities.

V. If marked underground facilities are damaged, the excavator shall be subject to the penalties in paragraph VIII and liable for the cost of repairs for the damage.

VI. Any excavator who damages an underground facility and fails to notify the operator, or backfills the excavation without receiving permission, as required by RSA 374:54, shall be subject to the penalties in paragraph VIII.

VII. The [commission] department or any [commission] department employee, involved in an underground facility damage prevention program approved by the [commission] department and designated by the [commission] department, may enforce violations of this subdivision. Any excavator or operator that violates this subdivision shall be subject to the penalties in paragraph VIII. In addition, the [commission] department may assess the excavator for expenditures made to collect the civil penalty. Any excavator or operator which suffers damage resulting from violation of this subdivision may petition the [commission] department to initiate an enforcement action.
VIII. Any excavator or operator that does not comply with RSA 374:51 through 374:54 shall be required either to complete an underground facility damage prevention program approved by the [commission] department, or to pay a civil penalty of up to $500. The civil penalty may be up to $5,000 if the excavator or operator previously violated RSA 374:51 through 374:54 within the prior 12 months or if the violation results in bodily injury or property damages exceeding $50,000, excluding utility costs. This paragraph shall not apply to a homeowner excavating on his or her own property or to a legal occupant of residential property excavating on the property of his or her primary residence with the permission of the owner.

277 Telephone Number Conservation and Area Code Implementation Policy Principles. Amend RSA 374:59 to read as follows:

I. In this section:
(a) ["Commission"] "Department" means the [public utilities commission] department of energy.
(b) "Geographic split" means the division of an area code into typically 2 areas each served by its own area code.
(c) "Overlay" means the addition of a new area code serving the same geographic area as the existing area code.

II. The [commission] department should promote and adopt telephone number conservation measures to the maximum extent allowed by federal law for area code 603 and any subsequently assigned New Hampshire area codes.

III. The [commission] department should adopt measures, to the maximum extent allowable by federal law and availability of technology, to provide that all customers of all suppliers have equitable access to all currently available unassigned telephone numbers and equitable access to numbers that have not been assigned to a customer which are available for porting to a second supplier. Blocks of telephone numbers that are currently assigned but may be retrievable if thousands number block pooling becomes available should be assigned on an equitable basis to all suppliers.

IV. The [commission] department should adopt measures, to the maximum extent allowable by federal law and availability of technology, to provide for local number portability by all suppliers of local exchange service.

V. To the extent that any one competitor is responsible for managing a pool of numbers which is to be assigned to customers of that competitor and other competitors, the [commission] department should adopt policies to require that the assignment and management of the numbers be kept segregated from the marketing portion of that competitor.
VI. When determining whether to implement a new area code via geographic split or overlay the [commission] department should consider, but not be limited to, the following criteria when determining the public interest:

(a) Which method best minimizes customer disruption from having to change numbers;
(b) Which method is the least costly for business and residents;
(c) Which method best minimizes customer confusion;
(d) Which method is the least costly for providers to implement;
(e) Which method most effectively conserves the total pool of telephone numbers once a new area code is created;
(f) Which method minimizes geographic controversy;
(g) Which method is most equitable to every resident and business in New Hampshire;
(h) Which method minimizes repeating the disruption of area code changes in the future;
(i) Which method best ensures public safety;
(j) Which method is more competitively neutral; and
(k) Which method utilizes best available technology and comprehensive telecommunications planning.

278 Renewable Energy and Energy Efficiency Project Loan Programs. Amend RSA 374:61 to read as follows:

374:61 Renewable Energy and Energy Efficiency Project Loan Programs. A public utility may seek [commission] authorization from the department of energy, either individually or in combination with other public utilities, to establish loan, financing, or cost amortization programs for owners and tenants of residential, public, nonprofit, and business property to finance or otherwise amortize cost effective fuel neutral renewable energy and energy efficiency investments and improvements to the owner's or tenant's premises. The total amount loaned in such programs shall not exceed $5,000,000. The [commission] department shall authorize terms, conditions, and tariffs for the repayment of such loans and financed or underwritten investments and improvements through charges billed through and that run with the meter or meters assigned to the location where the investments are located, provided that such investments or improvements to a tenant's premises are only made with the written consent of the owner or the owner's authorized management representative. Pursuant to RSA 477:4-h, the owner, seller, lessor, or transferor of any real property subject to unamortized or ongoing charges under such a tariff shall disclose such fact to a prospective buyer, lessee, or occupant who might be responsible for paying such charges as a condition of utility service. A public utility may not finance these loan, financing, or cost amortization programs through its rate base, nor earn its regulated rate of return on such program investments and improvements to the owner's or tenant's premises, unless such investment is approved as part of a strategy for minimizing transmission and distributions costs pursuant to RSA 374-G.

279 Electric Utility Restructuring; Purpose. Amend RSA 374-F:1, III to read as follows:
III. The following interdependent policy principles are intended to guide the New Hampshire public utilities commission and the department of energy in implementing a statewide electric utility industry restructuring plan, in establishing interim stranded cost recovery charges, in approving each utility's compliance filing, in streamlining administrative processes to make regulation more efficient, and in regulating a restructured electric utility industry. In addition, these interdependent principles are intended to guide the New Hampshire general court and the department of environmental services and other state agencies in promoting and regulating a restructured electric utility industry.

280 New Paragraph; Definitions. Amend RSA 374-F:2 by inserting after paragraph I-a the following new paragraph:

I-b. “Department” means the department of energy.

281 Restructuring Policy Principles; Implementation. Amend RSA 374-F:3 and 374-F:4 to read as follows:

374-F:3 Restructuring Policy Principles.

I. System Reliability. Reliable electricity service must be maintained while ensuring public health, safety, and quality of life.

II. Customer Choice. Allowing customers to choose among electricity suppliers will help ensure fully competitive and innovative markets. Customers should be able to choose among options such as levels of service reliability, real time pricing, and generation sources, including interconnected self generation. Customers should expect to be responsible for the consequences of their choices. The [commission] department should ensure that customer confusion will be minimized and customers will be well informed about changes resulting from restructuring and increased customer choice.

III. Regulation and Unbundling of Services and Rates. When customer choice is introduced, services and rates should be unbundled to provide customers clear price information on the cost components of generation, transmission, distribution, and any other ancillary charges. Generation services should be subject to market competition and minimal economic regulation and at least functionally separated from transmission and distribution services which should remain regulated for the foreseeable future. However, distribution service companies should not be absolutely precluded from owning small scale distributed generation resources as part of a strategy for minimizing transmission and distribution costs. Performance based or incentive regulation should be considered for transmission and distribution services. Upward revaluation of transmission and distribution assets is not a preferred mechanism as part of restructuring. Retail electricity suppliers who do not own transmission and distribution facilities, should, at a minimum, be registered with the [commission] department.

IV. Open Access to Transmission and Distribution Facilities. Non-discriminatory open access to the electric system for wholesale and retail transactions should be promoted.
Comparability should be assured for generators competing with affiliates of groups supplying transmission and distribution services. Companies providing transmission services should file at the FERC or with the commission, or with the department of energy, as appropriate, comparable service tariffs that provide open access for all competitors. The commission and the department should monitor companies providing transmission or distribution services and take necessary measures to ensure that no supplier has an unfair advantage in offering and pricing such services.

V. Universal Service.

(a) Electric service is essential and should be available to all customers. A utility providing distribution services must have an obligation to connect all customers in its service territory to the distribution system. A restructured electric utility industry should provide adequate safeguards to assure universal service. Minimum residential customer service safeguards and protections should be maintained. Programs and mechanisms that enable residential customers with low incomes to manage and afford essential electricity requirements should be included as a part of industry restructuring.

(b) As competitive markets emerge, customers should have the option of stable and predictable ceiling electricity prices through a reasonable transition period, consistent with the near term rate relief principle of RSA 374-F:3, XI. Upon the implementation of retail choice, transition service should be available for at least one but not more than 5 years after competition has been certified to exist in at least 70 percent of the state pursuant to RSA 38:36, for customers who have not yet chosen a competitive electricity supplier. Transition service should be procured through competitive means and may be administered by independent third parties. The price of transition service should increase over time to encourage customers to choose a competitive electricity supplier during the transition period. Such transition service should be separate and distinct from default service.

(c) Default service should be designed to provide a safety net and to assure universal access and system integrity. Default service should be procured through the competitive market and may be administered by independent third parties. Any prudently incurred costs arising from compliance with the renewable portfolio standards of RSA 362-F for default service or purchased power agreements shall be recovered through the default service charge. The allocation of the costs of administering default service should be borne by the customers of default service in a manner approved by the commission. If the commission determines it to be in the public interest, the commission may implement measures to discourage misuse, or long-term use, of default service. Revenues, if any, generated from such measures should be used to defray stranded costs.

(d) The commission should establish transition and default service appropriate to the particular circumstances of each jurisdictional utility.

(e) Notwithstanding any provision of subparagraphs (b) and (c), as competitive markets develop, the commission may approve alternative means of providing transition or default services.
which are designed to minimize customer risk, not unduly harm the development of competitive markets, and mitigate against price volatility without creating new deferred costs, if the commission determines such means to be in the public interest.

(f)(1) For purposes of subparagraph (f), "renewable energy source" (RES) means a source of electricity, as defined in RSA 362-F:2, XV, that would qualify to receive renewable energy certificates under RSA 362-F, whether or not it has been designated as eligible under RSA 362-F:6, III.

(2) A utility shall provide to its customers one or more RES options, as approved by the commission, which may include RES default service provided by the utility or the provision of retail access to competitive sellers of RES attributes. Costs associated with selecting an RES option should be paid for by those customers choosing to take such option. A utility may recover all prudently incurred administrative costs of RES options from all customers, as approved by the commission.

(3) RES default service should have either all or a portion of its service attributable to a renewable energy source component procured by the utility, with any remainder filled by standard default service. The price of any RES default service shall be approved by the commission.

(4) Under any option offered, the customer shall be purchasing electricity generated by renewable energy sources or the attributes of such generation, either in connection with or separately from the electricity produced. The regional generation information system of energy certificates administered by the ISO-New England and the New England Power Pool (NEPOOL) should be considered at least one form of certification that is acceptable under this program.

(5) A utility that is required by statute to provide default service from its generation assets should use any of its owned generation assets that are powered by renewable energy for the provision of standard default service, rather than for the provision of a renewable energy source component.

(6) Utilities should include educational materials in their normal communications to their customers that explain the RES options being offered and the health and environmental benefits associated with them. Such educational materials should be compatible with any environmental disclosure requirements established by the [commission] department.

(7) For purposes of consumer protection and the maintenance of program integrity, reasonable efforts should be made to assure that the renewable energy source component of an RES option is not separately advertised, claimed, or sold as part of any other electricity service or transaction, including compliance with the renewable portfolio standards under RSA 362-F.

(8) If RES default service is not available for purchase at a reasonable cost on behalf of consumers choosing an RES default service option, a utility may, as approved by the commission, make payments to the renewable energy fund created pursuant to RSA 362-F:10 on behalf of customers to comply with subparagraph (f).
(9) The commission shall implement subparagraph (f) through utility-specific filings. Approved RES options shall be included in individual tariff filings by utilities.

(10) A utility, with commission approval, may require that a minimum number of customers, or a minimum amount of load, choose to participate in the program in order to offer an RES option.

VI. Benefits for All Consumers. Restructuring of the electric utility industry should be implemented in a manner that benefits all consumers equitably and does not benefit one customer class to the detriment of another. Costs should not be shifted unfairly among customers. A nonbypassable and competitively neutral system benefits charge applied to the use of the distribution system may be used to fund public benefits related to the provision of electricity. Such benefits, as approved by regulators, may include, but not necessarily be limited to, programs for low-income customers, energy efficiency programs, funding for the electric utility industry's share of commission and department expenses pursuant to RSA 363-A, support for research and development, and investments in commercialization strategies for new and beneficial technologies. Legislative approval of the New Hampshire general court shall be required to increase the system benefits charge. This requirement of prior approval of the New Hampshire general court shall not apply to the energy efficiency portion of the system benefits charge if the increase is authorized by an order of the commission to implement the 3-year planning periods of the Energy Efficiency Resource Standard framework established by commission Order No. 25,932 dated August 2, 2016, ending in 2020 and 2023, or, if for purposes other than implementing the Energy Efficiency Resource Standard, is authorized by the fiscal committee of the general court; provided, however, that no less than 20 percent of the portion of the funds collected for energy efficiency shall be expended on low-income energy efficiency programs. Energy efficiency programs should include the development of relationships with third-party lending institutions to provide opportunities for low-cost financing of energy efficiency measures to leverage available funds to the maximum extent, and shall also include funding for workforce development to minimize waiting periods for low-income energy audits and weatherization.

VII. Full and Fair Competition. Choice for retail customers cannot exist without a range of viable suppliers. The rules that govern market activity should apply to all buyers and sellers in a fair and consistent manner in order to ensure a fully competitive market.

VIII. Environmental Improvement. Continued environmental protection and long term environmental sustainability should be encouraged. Increased competition in the electric industry should be implemented in a manner that supports and furthers the goals of environmental improvement. Over time, there should be more equitable treatment of old and new generation sources with regard to air pollution controls and costs. New Hampshire should encourage equitable and appropriate environmental regulation, based on comparable criteria, for all electricity generators, in and out of state, to reduce air pollution transported across state lines and to promote
full, free, and fair competition. As generation becomes deregulated, innovative market-driven approaches are preferred to regulatory controls to reduce adverse environmental impacts. Such market approaches may include valuing the costs of pollution and using pollution offset credits.

IX. Renewable Energy Resources. Increased future commitments to renewable energy resources should be consistent with the New Hampshire energy policy as set forth in RSA 378:37 and should be balanced against the impact on generation prices. Over the long term, increased use of cost-effective renewable energy technologies can have significant environmental, economic, and security benefits. To encourage emerging technologies, restructuring should allow customers the possibility of choosing to pay a premium for electricity from renewable resources and reasonable opportunities to directly invest in and interconnect decentralized renewable electricity generating resources.

X. Energy Efficiency. Restructuring should be designed to reduce market barriers to investments in energy efficiency and provide incentives for appropriate demand-side management and not reduce cost-effective customer conservation. Utility sponsored energy efficiency programs should target cost-effective opportunities that may otherwise be lost due to market barriers.

XI. Near Term Rate Relief. The goal of restructuring is to create competitive markets that are expected to produce lower prices for all customers than would have been paid under the current regulatory system. Given New Hampshire’s higher than average regional prices for electricity, utilities, in the near term, should work to reduce rates for all customers. To the greatest extent practicable, rates should approach competitive regional electric rates. The state should recognize when state policies impose costs that conflict with this principle and should take efforts to mitigate those costs. The unique New Hampshire issues contributing to the highest prices in New England should be addressed during the transition, wherever possible.

XII. Recovery of Stranded Costs.

(a) It is the intent of the legislature to provide appropriate tools and reasonable guidance to the commission in order to assist it in addressing claims for stranded cost recovery and fulfilling its responsibility to determine rates which are equitable, appropriate, and balanced and in the public interest. In making its determinations, the commission shall balance the interests of ratepayers and utilities during and after the restructuring process. Nothing in this section is intended to provide any greater opportunity for stranded cost recovery than is available under applicable regulation or law on the effective date of this chapter.

(b) Utilities should be allowed to recover the net nonmitigatable stranded costs associated with required environmental mandates currently approved for cost recovery, and power acquisitions mandated by federal statutes or RSA 362-A.

(c) Utilities have had and continue to have an obligation to take all reasonable measures to mitigate stranded costs. Mitigation measures may include, but shall not be limited to:

(1) Reduction of expenses.
(2) Renegotiation of existing contracts.

(3) Refinancing of existing debt.

(4) A reasonable amount of retirement, sale, or write-off of uneconomic or surplus assets, including regulatory assets not directly related to the provision of electricity service.

(d) Stranded costs should be determined on a net basis, should be verifiable, should not include transmission and distribution assets, and should be reconciled to actual electricity market conditions from time to time. Any recovery of stranded costs should be through a nonbypassable, nondiscriminatory, appropriately structured charge that is fair to all customer classes, lawful, constitutional, limited in duration, consistent with the promotion of fully competitive markets and consistent with these principles. Entry and exit fees are not preferred recovery mechanisms. Charges to recover stranded costs should only apply to customers within a utility's retail service territory, except for such costs that have resulted from the provision of wholesale power to another utility. The charges should not apply to wheeling-through transactions.

XIII. Regionalism. New England Power Pool (NEPOOL) should be reformed and efforts to enhance competition and to complement industry restructuring on a regional basis should be encouraged. New Hampshire should work with other New England and northeastern states to accomplish the goals of restructuring. Working with other regional states, New Hampshire should assert maximum state authority over the entire electric industry restructuring process. While it is desirable to design and implement a restructured industry in concert with the other New England and northeastern states, New Hampshire should not unnecessarily delay its timetable. Any pool structure adopted for the restructured industry should not preclude bilateral contracts with pool and non-pool services and should not preclude ancillary pool services from being obtained from non-pool sources.

XIV. Administrative Processes. The commission and the department should adapt their administrative processes to make regulation more efficient and to enable competitors to adapt to changes in the market in a timely manner. The market framework for competitive electric service should, to the extent possible, reduce reliance on administrative process. New Hampshire should move deliberately to replace traditional planning mechanisms with market driven choice as the means of supplying resource needs.

XV. Timetable. The commission should seek to implement full customer choice among electricity suppliers in the most expeditious manner possible, but may delay such implementation in the service territory of any electric utility when implementation would be inconsistent with the goal of near-term rate relief, or would otherwise not be in the public interest.

I. The commission is authorized to require the implementation of retail choice of electric suppliers for all customer classes of utilities providing retail electric service under its jurisdiction. The commission shall require such implementation at the earliest date determined to be in the
public interest by the commission. However, in no event may the implementation be delayed beyond
July 1, 1998 without legislative approval or a finding of public interest by the commission that delay
is required due to events beyond the control of the commission or that implementation of retail
choice within the service territory of any electric utility would be inconsistent with the goal of near-
term rate relief or would otherwise not be in the public interest. In the event that implementation of
retail choice is delayed in the service territory of an electric utility, the electric utility shall continue
to provide reliable retail service at the lowest reasonable cost in accordance with state law. In
addition, at the earliest practical date, the commission should make effective the unbundling of
components of rates into at least distribution, transmission, and generation for each jurisdictional
utility.

II. Upon the effective date of this chapter, the commission shall undertake a generic
proceeding to develop a statewide industry restructuring plan in accordance with the above
principles, and shall, after public hearings, issue a final order no later than February 28, 1997. In
its order, the commission shall establish the interim stranded cost recovery charge for each electric
utility as provided in paragraph VI.

III. The commission shall require all electric utilities subject to its jurisdiction to submit
compliance filings to the department of energy, which shall include open access tariffs and such
other information as the commission may require, no later than June 30, 1997. The [commission]
department shall investigate and the commission shall approve utility compliance filings, subject
to modification by the commission if necessary, after public hearing and subject to a finding that the
filings are in the public interest and substantially consistent with the principles established in this
chapter.

IV. A utility having less than a 50 percent share of statewide retail electric distribution
sales (measured in kilowatt hours per year) may seek a ruling by the commission that it is in the
public interest that implementation of such utility's compliance filing be deferred until compliance
filings representing 70 percent of retail electric sales have been or are being implemented.

V. The commission is authorized to allow utilities to collect a stranded cost recovery charge,
subject to its determination in the context of a rate case or adjudicated settlement proceeding that
such charge is equitable, appropriate, and balanced, is in the public interest, and is substantially
consistent with these interdependent principles. The burden of proof for any stranded cost recovery
claim shall be borne by the utility making such claim.

VI.(a) In order to facilitate the rapid transition to full competition, the commission is
authorized, in its generic restructuring order as provided in paragraph II, to set, without a formal
rate case proceeding, an interim stranded cost recovery charge for each electric utility. Such interim
stranded cost recovery charges shall be effective for not more than 2 years from the implementation
of utility compliance filings and shall be based on the commission's preliminary determination of an
equitable, appropriate, and balanced measure of stranded cost recovery that takes into account the
near term rate relief principle, is in the public interest, and is substantially consistent with these interdependent principles. The commission shall also consider the potential for future rate impacts due to possible differences between interim stranded cost recovery charges and charges that may finally be approved for stranded cost recovery.

(b) Any utility may seek adjustment of the interim stranded cost recovery charge at any time based on severe financial hardship, as determined by the commission. The setting of an interim stranded cost recovery charge shall establish no legal, factual, or policy precedent with respect to the final determination of stranded cost recovery by the commission in any subsequent administrative or judicial proceeding.

VII. The interim stranded cost recovery charge established for a utility as provided in paragraph VI may also be adjusted based upon the outcome of rate case proceedings to adjudicate claims for stranded cost recovery pursuant to paragraph V of this section. Any amounts approved by the commission for stranded cost recovery shall be net of amounts previously collected through interim stranded cost recovery charges.

VIII.(a) The commission is authorized to order such charges and other service provisions and to take such other actions that are necessary to implement restructuring and that are substantially consistent with the principles established in this chapter. The commission is authorized to require that distribution and electricity supply services be provided by separate affiliates.

(b) [Repealed.]

(c) The portion of the system benefits charge due to programs for low-income customers shall not exceed 1.5 mills per kilowatt hour. If the commission determines that the low-income program fund has accumulated an excess of $1,000,000 and that the excess is not likely to be substantially reduced over the next 12 months, it shall suspend collection of some or all of this portion of the system benefits charge for a period of time it deems reasonable.

(d) [Repealed.]

(e) Targeted conservation, energy efficiency, and load management programs and incentives that are part of a strategy to minimize distribution costs may be included in the distribution charge or the system benefits charge, provided that system benefits charge funds are only used for customer-based energy efficiency measures, and such funding shall not exceed 10 percent of the energy efficiency portion of a utility's annual system benefits charge funds. A proposal for such use of system benefits charge funds shall be presented to the commission for approval. Any such approval shall initially be on a pilot program basis and the results of each pilot program proposal shall be subject to evaluation by the commission.

(f) Beginning in 2000, the commission and the department shall submit a report to the legislative oversight committee to monitor the transformation of delivery of electric services by October 1 of each year. The report shall concern the results and effectiveness of the system benefits charge.
(g) [Repealed.]

VIII-a. Any electric utility that collects funds for energy efficiency programs that are subject to the commission's approval, shall include in its plans to be submitted to the commission program design, and/or enhancements, and estimated participation that maximize energy efficiency benefits to public schools, including measures that help enhance the energy efficiency of public school construction or renovation projects that are designed to improve indoor air quality. The report required under RSA 374-F:4, VIII(f) shall include the results and effectiveness of the energy efficiency programs for schools and, in addition to other requirements, be submitted to the commissioner of the department of education.

IX. An electricity supplier shall be eligible to compete, subject to necessary limitations established by the commission, for open access customers only if affiliated utilities file comparable open access transmission and distribution rates with the FERC or the commission, or both as appropriate, for all of their transmission facilities in New Hampshire and to the extent practicable, all of their distribution facilities in New Hampshire.

X. Nothing in this chapter shall be construed to prohibit the commission from otherwise exercising its lawful authority under title 34, in proceedings which relate to the introduction of competition in the retail electric utility industry including the retention of experts and consultants to assist the commission in its investigations and the assessment of such costs against utilities and any other parties to the proceedings, consistent with RSA 365:37 and RSA 365:38.

XI. Any administrative or adjudicative proceeding or public hearing relating to this chapter shall be subject to the provisions of RSA 541-A.

XII. To the extent that the provisions of this chapter are applicable to rural electric cooperatives for which a certificate of deregulation is on file with the commission, the commission shall exercise its authority with regard to such deregulated rural electric cooperatives only when and to the extent that the commission finds, after notice and hearing, that such action is required to ensure that such deregulated rural electric cooperatives do not act in a manner which is inconsistent with the restructuring policy principles of RSA 374-F:3. The commission shall have the authority to require that such deregulated rural electric cooperatives participate in proceedings, answer commission and department for information and file such reports as may be reasonably necessary to permit the commission to make an informed finding concerning the relevant restructuring policy principle actions of such deregulated rural electric cooperatives. Absent such a finding by the commission, the active role of assuring that the restructuring policy principles are appropriately addressed within their service territories shall be reserved to the deregulated rural electric cooperatives. Notwithstanding the foregoing, deregulated rural electric cooperatives shall be subject to the commission's jurisdiction with regard to those provisions of RSA 374-F pertaining to stranded cost recovery, customer choice, open access tariffs, default service, energy efficiency, and low income programs to the same extent as other public utilities.
282 Electric Utility Restructuring; Ratepayer Protection. Amend RSA 374-F:4-b to read as
follows:

374-F:4-b Ratepayer Protection.

I. Within 60 days of the effective date of this section, the commission shall initiate a
proceeding to develop rules to allow residential and small commercial customers to choose how they
receive communication from competitive electric suppliers and to implement the provisions of this
section. Where the commission has adopted rules in conformity with this section, complaints to and
proceedings before the commission shall not be subject to RSA 541-A:29 or RSA 541-A:29-a.

II. Within 120 days of the effective date of this section, the commission shall redesign its
website to The department of energy shall enable residential and small commercial customers to
compare standard pricing policies and charges and to require competitive electric suppliers to input
such information on the department's website. Such information shall be input no less frequently
than once per month, unless there is no change in such information. Such redesign shall:

(a) Reflect the best practices of similar commission websites in other states and develop
a process for removal of a competitive electric supplier's listings from such Internet website based on
protocols established by the commission to ensure compliance with this section and to address
customer complaints.

(b) Emphasize:

(1) Uniformity in the way competitive electric suppliers provide information for each
category on the commission's website.

(2) Ease of use by customers.

(3) Ease of selecting and purchasing a specific contract from a competitive electric
supplier shown on the commission's website.

(c) Include separate input boxes for the following information:

(1) A link to the provider's web page.

(2) Contract durations.

(3) Whether the contract has variable or fixed rates, or both, and when such rates
apply.

(4) Cancellation charges.

(5) Rates.

(6) Other relevant information.

III. On or before July 1, 2017, and every 2 years thereafter, the commission The
department of energy shall review its website every 2 years and ensure that the site remains an
efficient tool for the comparison of pricing policies and charges among competitive electric suppliers.

IV. Unless the contract specifies a month-to-month variable rate, no competitive electric
supplier shall charge a residential customer a variable rate, including during a contract term or
following the expiration of a contract, without first providing written notification in a form approved
by the commission of the nature of such variable rate 45 days prior to the commencement of the
variable rate. The residential customer shall select the method of written notification at the time
the contract is signed. Such customer shall have the option to change the method of notification at
any time during the contract.

V. Competitive electric suppliers shall retain records of any of the notices required in this
section for a period of not less than 2 years and shall make such records available to the commission
upon its request.

283 Oversight Committee; Report. Amend RSA 374-F:5, III to read as follows:

III. The committee shall provide an interim report on or before April 1, and an annual report
on or before November 1 to the governor, the speaker of the house, the senate president, the state
library, [and] the public utilities commission, and the department of energy on activities before
the public utilities commission and other cognizant state agencies in regard to evolving changes in
the provision of electric services to New Hampshire customers, including modernization of the
electric grid, development of technologies for electric storage, electrification of transportation, the
growth of distributed generation, the commission’s role in a deregulated market, and such matters
as may arise that may present opportunities to improve the delivery of electric services or to reduce
cost.

284 Competitive Electricity Supplier Requirements; Participation in Regional Activities. Amend
RSA 374-F:7 and 374-F:8 to read as follows:

374-F:7 Competitive Electricity Supplier Requirements.

I. Competitive energy suppliers are not public utilities pursuant to RSA 362:2, though a
competitive energy supplier may seek public utility status from the [commission] department if it
so chooses. Notwithstanding a competitive energy supplier's non-utility status, the [commission]
department is authorized to establish requirements, excluding price regulation, for competitive
electricity suppliers, including registration, registration fees, customer information, disclosure,
standards of conduct, and consumer protection and assistance requirements. Unless electing to do
so, an electricity supplier that offers or sells at retail to consumers within this state products and
services that can lawfully be made available to such consumers by more than one supplier shall not,
because of such offers or sales, be deemed to be a public utility as defined by RSA 362:2. These
requirements shall be applied in a manner consistent with the restructuring principles of this
chapter to promote competition among electricity suppliers.

II. Aggregators of electricity load that do not take ownership of power or other services and
do not represent any supplier interest are not public utilities pursuant to RSA 362:2, but shall notify
the [commission] department of their intent to do business. Municipalities that aggregate electric
power or energy services for their citizens pursuant to RSA 53-E are not public utilities pursuant to
RSA 362:2 and are not subject to the provisions of paragraph III and RSA 374-F:4-b.
III. The department may investigate and petition the commission to assess fines against, revoke the registration of, order the rescission of contracts with residential customers of, order restitution to the residential customers of, and prohibit from doing business in the state any competitive electricity supplier, including any aggregator or broker, which is found to have:

(a) Engaged in any unfair or deceptive acts or practices in the marketing, sale, or solicitation of electricity supply or related services;

(b) Violated the requirements of this section or any other provision of this title applicable to competitive electricity suppliers; or

(c) Violated any rule adopted by the department pursuant to paragraph V and RSA 374-F:4-b.

IV. As a condition of operation, for a 2-year interim period from the date that competition is implemented in one or more areas of the state, competitive energy suppliers and load aggregators shall submit to the jurisdiction of the commission for mediation and resolution of disputes between customers and competitive energy suppliers or aggregators. Municipalities that aggregate electric power or energy service for their citizens pursuant to RSA 53-E are not subject to this paragraph.

V. The department shall adopt rules, under RSA 541-A, to implement this section. Where the department has adopted rules in conformity with this section, complaints to and proceedings before the commission shall not be subject to RSA 541-A:29 or RSA 541-A:29-a.

374-F:8 Participation in Regional Activities. The department shall advocate for New Hampshire interests before the Federal Energy Regulatory Commission and other regional and federal bodies. The commission shall participate in the activities of the New England Conference of Public Utility Commissioners, and the National Association of Regulatory Utility Commissioners, and the department shall participate in the activities of the New England States Committee on Electricity, or other similar organizations, and work with the New England Independent System Operator and NEPOOL to advance the interests of New Hampshire with respect to wholesale electric issues, including policy goals relating to fuel diversity, renewable energy, and energy efficiency, and to assure nondiscriminatory open access to a safe, adequate, and reliable transmission system at just and reasonable prices. The department shall advocate against proposed regional or federal rules or policies that are inconsistent with the policies, rules, or laws of New Hampshire. In its participation in regional activities, the commission and the department shall consider how other states' policies will impact New Hampshire rates and work to prevent or minimize any rate impact the commission or department determines to be unjust or unreasonable.

285 Offshore Wind and Port Development; Commission Established; Membership. Amend RSA 374-F:10, II(c) to read as follows:
(c) The [director of the office of strategic initiatives] commissioner of the department of energy, or designee.

286 Reference Changed; Office of Offshore Wind Industry Development. Amend RSA 374-F:10, VI to read as follows:

VI. The commission shall receive staff support and other services, including research and facilities assessments, from the department of [business and economic affairs] energy, office of offshore wind industry development established in RSA [12-O:51 ] 12-P:7-b.

287 Definitions Amend RSA 374-H:1, I to read as follows:

I. ["Commission"] "Department" means the [public utilities commission] department of energy.

288 Investigation of Energy Storage. Amend RSA 374-H:2 to read as follows:

I. Within 30 days of the effective date of this chapter, the [commission] department shall initiate a proceeding to investigate conduct an investigation into ways to enable energy storage projects to receive compensation for avoided transmission and distribution costs, including but not limited to avoided regional and local network service charges, while also participating in wholesale energy markets. The [commission] department shall investigate how this might be done for both utility-owned and non-utility-owned energy storage projects, as well as for both behind-the-meter storage and front-of-the-meter storage.

II. The [commission's investigative proceeding] department's investigation shall specifically consider the following:

(a) How public policy can best help establish accurate and efficient price signals for energy storage projects that value their ability to avoid transmission and distribution costs while simultaneously reducing wholesale electricity market prices.

(b) How to compensate energy storage projects that participate in wholesale electricity markets for avoided transmission and distribution costs in a manner that provides net savings to consumers.

(c) How best to encourage both utility and non-utility investments in energy storage projects.

(d) The costs and benefits of a potential bring your own device program; how such a program might be implemented; any statutory or regulatory changes that might be needed to create, facilitate, and implement such a program; and whether such a program should include all distributed energy resources or be limited to distributed energy storage projects.

(e) Any statutory changes the general court should implement, including but not limited to changes to or exceptions from RSA 374-F or RSA 374-G, to enable energy storage projects to receive appropriate compensation for avoided transmission and distribution costs while also participating in wholesale energy markets.
(f) Any other topic the [commission] department reasonably believes it should conduct the proceeding.

III. The [commission] department shall report its findings and recommendations to the standing committees of the house of representatives and senate with jurisdiction over energy and utility matters no later than 2 years after initiating the proceeding. The report shall identify ways any recommended statutory changes can minimize any potential conflict with the restructuring policy principles of RSA 374-F.

289 Fixing of Rates by Commission; Energy Policy Act Standards. Amend RSA 378:7 and 378:7-a to read as follows:

378:7 Fixing of Rates by Commission. Whenever the commission shall be of opinion, after a hearing had upon its own motion or on motion of the department of energy or upon complaint, that the rates, fares or charges demanded or collected, or proposed to be demanded or collected, by any public utility for service rendered or to be rendered are unjust or unreasonable, or that the regulations or practices of such public utility affecting such rates are unjust or unreasonable, or in any wise in violation of any provision of law, or that the maximum rates, fares or charges chargeable by any such public utility are insufficient, the commission shall determine the just and reasonable or lawful rates, fares and charges to be thereafter observed and in force as the maximum to be charged for the service to be performed, and shall fix the same by order to be served upon all public utilities by which such rates, fares and charges are thereafter to be observed. The commission shall be under no obligation to investigate or hear any rate matter which it has investigated within a period of 2 years, but may do so within said period at its discretion.

290 Contracts for Advertising. Amend RSA 378:24 to read as follows:

378:24 Contracts for Advertising. All advertising contracts of public utilities shall be made at regular, established, commercial advertising rates; and such contracts shall be open to inspection by the commission and the department of energy at all times.

291 Filing; Inspection; Temporary Rates. Amend RSA 378:26 and 378:27 to read as follows:

378:26 Filing; Inspection. A copy of such list for the preceding year shall be filed with the commission and the department of energy, in such form and under such regulations as the commission they may prescribe. Such list, together with the books, records and papers of the carrier so far as relevant, shall be open at all times to the inspection of the commission, who shall examine the same whenever they deem it necessary to the due enforcement of this title.
378:27 Temporary Rates. In any proceeding involving the rates of a public utility brought either upon motion of the commission or the department of energy or upon complaint, the commission may, after reasonable notice and hearing, if it be of the opinion that the public interest so requires, immediately fix, determine, and prescribe for the duration of said proceeding reasonable temporary rates; provided, however, that such temporary rates shall be sufficient to yield not less than a reasonable return on the cost of the property of the utility used and useful in the public service less accrued depreciation, as shown by the reports of the utility filed with the commission and the department of energy, unless there appears to be reasonable ground for questioning the figures in such reports.

292 Multi-use Data Energy Platform. Amend RSA 378:50-378:52 to read as follows:

378:50 Definitions. In this subdivision:

I. "Data sharing" means providing data and accessing data provided by others.

II. "Individual customer data" means the customer's name, address, opt-in status pursuant to RSA 374:62, energy usage as recorded by meters supplied by electric and natural gas utilities, and other data segments established and authorized by the department of energy.

III. "Third party" means:

(a) Any service provider within the meaning of RSA 363:37, II other than a utility; and

(b) The office of the consumer advocate established pursuant to RSA 363:28.

378:51 Online Energy Data Platform Established.

I. The department of energy shall require electric and natural gas utilities to establish and jointly operate a statewide, multi-use, online energy data platform. The data platform shall:

(a) Consist of a common base of energy data for use in wide range of applications and business uses.

(b) Adhere to specific and well-documented standards.

(c) Provide a user-friendly interface.

(d) Adhere to a common statewide logical data model that defines the relationships among the various categories of data included in the platform.

(e) Allow for sharing of individual customer data consistent with the opt-in requirements for third-party access specified in RSA 363:38.

(f) Protect from unauthorized disclosure the personally identifying information of utility customers in a manner that advances applicable constitutional and statutory privacy rights, including the protections of RSA 363:38.

(g) Provide for the voluntary participation of municipal utilities and deregulated rural electric cooperatives in data sharing and the operation of the online energy data platform, subject to terms, conditions, and cost sharing which are reasonable and in the public interest.
II. The commission shall open an adjudicative proceeding within 90 days of the effective
date of this subdivision, to which all electric and natural gas utilities shall be mandatory parties, to
determine:

(a) Governance, development, implementation, change management, and versioning of
the statewide, multi-use, online energy data platform.

(b) Standards for data accuracy, retention, availability, privacy, and security, including
the integrity and uniformity of the logical data model.

(c) Financial security standards or other mechanisms to assure compliance with privacy
standards by third parties.

III. The [commission] department of energy shall defer the implementation of the
statewide, multi-use, online energy data platform pursuant to paragraph I if [it] the commission
determines that the cost of such platform to be recovered from customers is unreasonable and not in
the public interest.

IV. The [commission] department of energy may adopt additional rules pursuant to RSA
541-A as necessary to implement this section.

378:52 Platform Requirements. The utilities shall:

I. Design and operate the energy data platform to provide opportunities for utilities, their
customers, and third parties to access the online energy data platform and to participate in data
sharing.

II. Require, as a condition of accessing the online energy data platform, that a third party
complete a qualification and registration process to ensure that any customer data downloaded from
the platform remains in a safe, secure environment according to data privacy standards established
by the [commission] department of energy.

III. Administer the online energy data platform in a manner consistent with RSA 363:38.

293 Regional Greenhouse Gas Initiative; Energy Efficiency Fund and Use of Auction Proceeds.
Amend RSA 125-O:23 to read as follows:

I. There is hereby established an energy efficiency fund. This nonlapsing, special fund shall
be continually appropriated to the [commission] department of energy to be expended in
accordance with this section. The state treasurer shall invest the moneys deposited therein, as
provided by law. Income received on investments made by the state treasurer shall also be credited
to the fund. All programs supported by these funds shall be subject to audit by the [commission] department of energy as deemed necessary. A portion of the fund moneys shall be used to pay for
[commission] department of energy and department of environmental services costs to
administer this subdivision, including contributions for the state's share of the costs of the RGGI
regional organization. No fund moneys shall be used by the [commission] department of energy or
the department of environmental services to contract with outside consultants. The department
of energy [commission] shall transfer from the fund to the department of environmental services such costs as may be budgeted and expended, or otherwise approved by the fiscal committee of the general court and the governor and council, for the department's cost of administering this subdivision.

II. All amounts in excess of the threshold price of $1 for any allowance sale shall be rebated to all retail electric ratepayers in the state on a per-kilowatt-hour basis, in a timely manner to be determined by the commission.

III. All remaining proceeds received by the state from the sale of allowances, excluding the amount used for [commission] department of energy and department of environmental services administration under paragraph I, shall be allocated by the commission as follows:

(a) At least 15 percent to the low-income core energy efficiency program.

(b) Beginning January 1, 2014, up to $2,000,000 annually to utility core programs for municipal and local government energy efficiency projects, including projects by local governments that have their own municipal utilities. Funding elements shall include, but not be limited to, funding for direct technical and project management assistance to identify and encourage comprehensive projects and incentives structured to assist municipal and local governments funding energy efficiency projects. In calendar years 2014, 2015, and 2016, any unused funds allocated to municipal and local government projects under this paragraph remaining at the end of the year shall roll over and be added to the new calendar year program funds and continue to be made available exclusively for municipal and local government projects. Beginning in calendar year 2017, and all subsequent years, funds allocated to municipal and local government projects under this paragraph shall be offered first to municipal and local governments as described in this paragraph for no less than 4 full calendar months. If, at the end of this time, municipal and local governments have not submitted requests for eligible projects that will expend the funds allocated to municipal and local government projects under this paragraph within that program year, the funds shall be offered on a first-come, first-serve basis to business and municipal customers who fund the system benefits charge.

(c) The remainder to all-fuels, comprehensive energy efficiency programs administered by qualified parties which may include electric distribution companies as selected through a competitive bid process. The funding shall be distributed among residential, commercial, and industrial customers based upon each customer class's electricity usage to the greatest extent practicable as determined by the commission. Bids shall be evaluated based on, but not limited to, the following criteria:

(1) A benefit/cost ratio analysis including all fuels.

(2) Demonstrated ability to provide a comprehensive, fuel neutral program.

(3) Demonstrated infrastructure to effectively deliver such program.

(4) Experience of the bidder in administering energy efficiency programs.
(5) Ability to reach out to customers.

(6) The validity of the energy saving assumptions described in the bid.

IV. The electric division of policy and programs of the department of energy shall conduct a competitive bid process for the selection of programs to be funded under subparagraph III(c), with such funding to begin January 1, 2015. The department of energy may petition the governor and council to extend existing contracts until such time as the competitive bids are approved by the governor and council, but in no event later than July 1, 2015. The competitive bid process shall be repeated every 3 years thereafter. Before extending any existing program, public comment on the proposed extension shall be accepted.

V. Each entity receiving funding under subparagraph III(c) shall file an annual report on the performance of the entity’s program. The department of energy shall establish the format, content, and the methodologies used to provide the content of the reports. The department of energy shall make use of, as applicable and appropriate, the monitoring and verification requirements used in the natural gas and electric utility core programs. The annual reports shall be delivered to the governor, the president of the senate, the speaker of the house of representatives, the chairmen of the senate and house standing committees with jurisdiction over energy matters, the commissioner of the department of energy and the chairperson of the public utilities commission. The reports shall include, but not be limited to, the following:

(a) Program expenditures, including direct customer installation costs.

(b) Resulting actual and projected energy savings by fuel type and associated CO2 emissions reductions.

(c) Any measurement and verification data that corroborate projected savings.

(d) The number of customers served by the programs.

(e) Other data as required by the commission in order to determine program effectiveness.

II. The $50,000,000 cap on school building aid grants for construction or renovation projects

322 Education Tax Revenue; Fiscal Year 2023. For the fiscal year ending June 30, 2023, and
notwithstanding RSA 76:3, the commissioner of the department of revenue administration shall set
the education tax rate at a level sufficient to generate revenue of $263,000,000 when imposed on all
persons and property taxable pursuant to RSA 76:8, except property subject to tax under RSA 82 and
RSA 83-F. The education property tax rate shall be effective for tax periods beginning on or after

commissioner determines that funding is insufficient, he or she shall, to the extent allowed by
applicable federal regulations, utilize available federal Temporary Assistance to Needy Families
reserve funds to cover the amount of the shortfall. The department shall report quarterly to the
fiscal committee of the general court on any funds expended on employment-related child care
services, including funds budgeted in account 05-95-42-421110-2977 as well as federal Temporary
Assistance to Needy Families funds authorized by this section. The department shall provide
enrollment-based reimbursement, rather than attendance-based payment, to child care providers
who accept child care scholarships through the Child Care and Development Fund (CCDF) for the
fiscal year ending June 30, 2022 using, to the extent allowable by applicable federal regulations,
federal recovery funds. No state general funds shall be used to make enrollment-based
reimbursement payments to providers.

326  Statement of Findings. The general court finds that:

I.  Placement in corrections settings can be harmful to children and lead to increased
delinquency and adult criminal behavior. It should therefore be reserved for those circumstances in
which the safety of a child or of the community requires such confinement.

II.  Placement of children who are not serious violent offenders in settings other than the
Sununu Youth Services Center (SYSC) complies with The Families First Act, PL 115-123, and the
New Hampshire system of care established pursuant to 2019; 44 (SB 14), which prioritize
community-based treatment of children.

III.  This act is in furtherance of these goals.

appropriated in the fiscal year ending June 30, 2023, $9,000,000 shall be state general funds and

authorized to draw a warrant for the sums out of any money in the treasury not otherwise
appropriated.

356 New Subdivision; Granite State Paid Family Leave Plan. Amend RSA 21-I by inserting
after section 95 the following new subdivision:

Granite State Paid Family Leave Plan

21-I:96 Granite State Paid Family Leave Plan. There is hereby established the granite state
paid family leave plan, which shall be implemented under this subdivision and as provided in RSA
282-B and RSA 77-E.

21-I:97 Purpose and Policy. The purpose of this subdivision is to leverage the purchasing power
and economies of scale available to the state when it is acting as purchaser on behalf of state
employees and to align this purchasing initiative with a business tax incentive in order to make
available to all other public and private employers in the state, on a voluntary basis, advantageously
priced family and medical leave insurance (FMLI) wage replacement benefits. By purchasing FMLI
coverage for state employees through the medium of commercial insurance, by linking that contract
with a contract to make the same coverage available statewide, by acting as premium aggregator for
individuals whose employers do not sponsor such coverage, and by introducing a new business tax
incentive, the state will position itself to create a market for advantageously priced FMLI benefits.
It is the intent of this subdivision to significantly increase the number of employees in the state who
receive FMLI wage replacement benefits. The social benefits of increasing the rate of FMLI coverage include attracting and retaining workers, including younger workers, to the state, enabling parents to bond with biological, adopted, or foster children, helping to meet the needs of an aging population, promoting workplace stability, and enhancing worker retention and productivity. While many larger employers provide paid FMLI benefits through self-insurance, this is not feasible for most mid-sized and smaller businesses. The general court therefore finds that it is in the public interest for the state to strategically use its purchasing power and tax expenditure authority to establish a marketplace in the state for advantageously priced FMLI wage replacement benefits.

21-I:98 Definitions. In this subdivision:

I. "Child" has the same meaning as "son or daughter" in 29 U.S.C. section 2611(12).

II. "Commissioner" means the commissioner of the department of administrative services.

III. "Department" means the department of administrative services.

IV. "Family and medical leave" means leave from work:

(a) Because of the birth of a child of the employee, within the past 12 months;

(b) Because of the placement of a child with the employee for adoption or fostering within the past 12 months;

(c) Because of a serious health condition of a family member; or

(d) Because of any qualifying exigency arising from foreign deployment with the armed forces, or to care for a service member with a serious injury or illness as permitted under the federal Family and Medical Leave Act, 29 U.S.C. section 2612(a)(1)(E) and 29 C.F.R. section 825.126(a)(1)-(8), as they existed on October 19, 2017, for family members as defined in paragraph VI.

VI. "Family member" means a "child" as defined in paragraph I, a biological, adoptive, or foster parent, stepparent, or legal guardian of the child or the child's spouse or domestic partner, a biological, adoptive, or foster grandparent or step grandparent, or a spouse or domestic partner.

VII. "FMLI" means family and medical leave insurance providing wage replacement benefits under specified conditions.

VIII. "Serious health condition" means any illness of a family member covered by the Family and Medical Leave Act including treatment for addiction as prescribed by a treating clinician, consistent with American Society of Addiction Medicine criteria, as well as treatment for a mental health condition, consistent with American Psychiatric Association criteria.

IX. "State rate" means the per employee premium amount that is charged by the successful bidder for the state contract for FMLI coverage for state government employees as provided in this subdivision. The state rate shall be expressed as a percentage of wages.

21-I:99 Contracting and Administrative Authority.
I. The commissioner may solicit information about, seek proposals for, negotiate, enter into, and administer group insurance contracts with duly authorized accident and life insurance carriers as necessary and appropriate to provide to qualifying state employees, at state expense and at no cost to such employees, an FMLI plan of wage replacement as described in this subdivision. The provision of this coverage shall be considered a matter of legislatively established public policy that is designed to benefit all employers and employees in the state and that is "confined exclusively to the public employer by statute" as provided in RSA 273-A:1, XI and shall not be subject to collective bargaining. Nothing in this subdivision shall be construed to invalidate any portion of a collective bargaining agreement entered into by the state.

II. The state shall provide to all permanent state employees wage replacement coverage for qualified leave, which shall be available for the same types of leave as protected under the Family and Medical Leave Act except leave for a health condition of the employee. This shall include leave for:

(a) The birth of a child and the care of the newborn child within one year of birth;
(b) The placement with the employee of a child for adoption or foster care and the care of the newly placed child within one year of placement;
(c) Caring for the employee's spouse, child, or parent who has a serious health condition;

or

d) Any qualifying exigency arising out of the fact that the employee's spouse, child, or parent is a covered military member on covered active duty, or caring for a covered service-member with a serious injury or illness if the eligible employee is the service-member's spouse, child, parent, or next of kin.

III. Subject to any changes authorized under RSA 21-I:103, the wage replacement benefits under this FMLI plan shall be structured as follows:

(a) Eligible employees shall receive 60 percent of their average weekly wage.

(b) The maximum duration of wage replacement shall be 6 weeks per year, with no minimum duration required.

(c) Wages used to determine the 60 percent FMLI coverage shall be capped at the amount of the Social Security taxable wage maximum as amended from time to time.

IV. Except as provided in RSA 21-I:100, III regarding individual pool coverage, the commissioner shall establish, through his or her discretionary authority in administering the request for information and the request for proposals process, the following additional elements of the benefit structure consistent with the purposes and policy of this subdivision:

(a) The base period by which the average weekly wage shall be determined.

(b) The tenure requirement, expressed in terms of months of work, before an employee is eligible to be covered provided, however, that no tenure requirement shall apply to an employee who has already met the requirement and then changes jobs.
(c) A waiting period or elimination period provided, however, that a waiting or elimination period shall not be a required element of the benefit structure, and the commissioner shall have authority to implement a plan with no such requirement.

21-I:100 State Employee Coverage Linked to Coverage Offerings for Other Employers and for Individual Employees. The commissioner shall include in the request for proposals for FMLI benefits for state employees a requirement that the winning bidder shall, as a condition of the state contract, also offer the same FMLI coverage to other public employers, private employers with more than 50 employees, and individual employees on the following terms:

I. Private and public non-state employers shall receive a rate that is derived from the state rate through the application of rating factors that are actuarially justified and specified in the bid response.

II. Employers with more than 50 employees who choose to sponsor coverage for their employees shall contract directly with the winning bidder.

III. Individuals who work for employers who choose not to offer FMLI coverage under this subdivision or who fail to meet minimum participation requirements and who do not offer an FMLI benefit that is at least equivalent to the granite state paid family leave plan shall have the opportunity to contract indirectly with the winning bidder through the purchasing pool for family and medical leave insurance authorized under RSA 282-B and administered by the department of employment security. The pool may be experience rated. Coverage through the pool shall include a 7-month waiting period, a one-week elimination period, and a 60-day annual open enrollment period as established by the commissioner in the procurement process. Premiums for individual pool coverage shall not exceed $5 per subscriber per week.

IV. The commissioner shall establish, through his or her discretionary authority in administering the request for information and the request for proposals process, the following additional elements of the benefit structure and plan administration specifically for employees of sponsoring non-state employers consistent with the purposes and policy of this subdivision:

(a) The minimum participation requirement.

(b) The parameters for open enrollment periods.

(c) Procedures for contributory plans, partially contributory plans, and non-contributory plans.

(d) Procedures for payroll deduction and premium remittance for employers with more than 50 employees.

21-I:101 Conditions of Non-State Employer Participation. Participation in the plan by non-state employers shall be voluntary. In addition, non-state employers may choose to provide FMLI at no cost to their employees or on a contributory or partially contributory basis.

21-I:102 Procurement Process. The commissioner may issue a request for information or a request for proposals to secure FMLI coverage for all eligible employees of the state of New...

Hampshire and to make advantageously priced coverage available to all other private employers
with more than 50 employees and public employers in the state as provided in this subdivision. The
department, the department of employment security, and the department of insurance shall jointly
evaluate the proposals received in response to the request for proposals. The department shall
contract with an insurance carrier or carriers to provide FMLI coverage. The contract with the
winning bidder shall be subject to governor and council approval. The selected insurance carrier
shall be licensed by the state of New Hampshire and in good standing. The selected insurance
carrier shall be subject to all applicable insurance laws and regulations of the state of New
Hampshire, and the rates and forms for the FMLI contracts shall be filed for approval with the
insurance commissioner.

21-I:103 Commissioner Discretion to Adjust Initial FMLI Benefit Structure. In exercising
authority under this subdivision to contract for FMLI coverage for state employees and also for the
availability of advantageously priced FMLI coverage for employees of all non-state employers, the
commissioner shall have discretionary authority in initiating this program to make changes to the
benefit structure of the FMLI plan under RSA 21-I:99, III and may retain a consulting actuary or
other benefit advisors in support of this discretionary determination. This discretionary authority
shall be exercised in consideration of the stated purposes and policy goals of this subdivision and of
the counsels of the FMLI advisory board established in RSA 21-I:104. Any such changes made under
this paragraph shall be subject to approval by the governor and council and the legislative fiscal
committee prior to implementation and shall be offered by the legislative fiscal committee as an
amendment to this subdivision in the next regular session of the general court.

21-I:104 Family and Medical Leave Insurance Advisory Board. There is hereby established the
family and medical leave insurance advisory board, which shall be administratively attached to the
department, and which shall hereinafter be called the FMLI advisory board. The FMLI advisory
board shall consist of 9 members to be appointed, with the exception of the legislative members, by
the governor. Three of the appointees shall be persons who, because of their vocations, employment,
or affiliations, shall represent employers; 3 shall be persons who, because of the vocations,
employment, or affiliations, shall represent employees; one shall be a senator appointed by the
senate president; one shall be a representative appointed by the speaker of the house of
representatives; the remaining appointee, who shall be appointed as chairman, shall be a person
whose training and experience qualify her or him to successfully resolve the problems of FMLI
procurement, eligibility, benefit design, and program administration. The advisory board shall meet
no later than 45 days after each calendar quarter and aid the commissioner in formulating policies
and discussing problems related to the implementation and administration of this subdivision and
RSA 282-B and in assuring impartiality and freedom from political influence in the solution of such
problems. Advisory board meetings shall provide opportunity for public comment.

21-I:105 Report and Outreach.
I. Working in coordination with the commissioner of administrative services as provided in RSA 282-B:6, I, the department shall produce, on an annual basis, a summary report on the granite state paid family leave plan. This report shall be made public and delivered to the governor, the senate president, and the speaker of the house of representatives. It shall include, but not be limited to, a description of progress in carrying out the processes contemplated under this subdivision, progress in improving the rate of FMLI coverage of employees in the state, and recommendations for more fully achieving the purposes and policy goals of this subdivision.

Working in coordination with the department of employment security as provided in RSA 282-B:6, II, the department shall develop and implement an outreach program to ensure that employers who might benefit from sponsoring FMLI coverage for their employees and individuals who may be eligible to receive FMLI coverage under this subdivision are made aware of this program. Medicaid dental program with the goals of improving access to dental care for Medicaid populations,
improving health outcomes for Medicaid enrollees, expanding the provider network, increasing
provider capacity, and retaining innovative programs that improve access and care through a value-

(2) The commissioner shall issue a request for information to assist in selecting the
administrative model for the state's Medicaid dental program. Such model shall be either a model

in the managed care model and shall exercise all due diligence to maintain or increase the quality of
care provided. The department shall seek, with the review of the fiscal committee of the general

that has been open for at least one full school year shall remain open and active for the parent to
make qualifying expenditures to educate the student from funds remaining in the EFA. When no

VI. The scholarship organization shall implement a commercially viable system for payment of services from EFAs to education service providers by electronic or online funds transfer.

(a) The scholarship organization shall not adopt a system that relies exclusively on requiring parents to be reimbursed for out-of-pocket expenses, but rather shall provide maximum flexibility to parents by facilitating direct payments to education service providers. Scholarship organizations may pre-approve requests for reimbursements for qualifying expenses, including expenses pursuant to RSA 194-E:2, II, but shall not disperse funds to parents without receipt that such pre-approved purchase has been made.

(b) A scholarship organization may contract with a private institution or organization to develop the payment system.

VII. The scholarship organization may also seek to implement a commercially viable system for parents to publicly rate, review, and share information about education service providers, ideally as part of the same system that facilitates the electronic or online funds transfers.

If an education service provider requires partial payment of tuition or fees prior to the start of the academic year to reserve space for an EFA student admitted to the education service provider, such partial payment may be paid by the scholarship organization, if funds are available, prior to the start of the school year in which the EFA is awarded and deducted in an equitable manner from subsequent quarterly EFA deposits to ensure adequate funds remain available throughout the school year; but if an EFA student decides not to use the education service provider, the partial reservation payment shall be returned to the scholarship organization by such education service provider and credited to the student’s EFA.

IX. The scholarship organization shall continue making deposits into a student’s EFA until:

EFA program in the event of intentional and substantial misuse of EFA funds.

(a) The scholarship organization shall create procedures to ensure that a fair process
exists to determine whether an intentional and substantial misuse of EFA funds has occurred.
(b) If an EFA student is free from personal misconduct, that student shall be eligible for
an EFA in the future if placed with a new guardian or other person with the legal authority to act on
behalf of the student.

(c) The scholarship organization may refer suspected cases of intentional and
substantial misuse of EFA funds to the attorney general for investigation if evidence of fraudulent
use of EFA funds is obtained.
(d) A parent or EFA student may appeal the scholarship organization’s decision to deny
eligibility for the EFA program to the department.

XII. The scholarship organization may bar an education service provider from accepting
payments from EFAs if the scholarship organization determines that the education service provider
has:

(a) Intentionally and substantially misrepresented information or failed to refund any
overpayments in a timely manner.
(b) Routinely failed to provide students with promised educational goods or services.

XIII. The scholarship organization shall create procedures to ensure that a fair process
exists to determine whether an education service provider may be barred from receiving payments
from EFAs.

(a) If the scholarship organization bars an education service provider from receiving
payments from EFAs, it shall notify parents and EFA students of its decision as quickly as possible.
(b) Education service providers may appeal the scholarship organization’s decision to bar
them from receiving payments from the EFA to the department.

XIV. The scholarship organization may accept gifts and grants from any source to cover
administrative costs, to inform the public about the EFA program, or to fund additional EFAs.

XV. The department shall adopt rules that are necessary for the administration of this
chapter.
XVI. The scholarship organization shall adopt policies or procedures that are necessary for
the administration of this chapter. This may include policies or procedures:
(a) Establishing or contracting for the establishment of an online anonymous fraud
reporting service.
(b) Establishing an anonymous telephone number for fraud reporting.
(c) Requiring a surety bond for education service providers receiving more than $100,000
in EFA funds.
(d) Refunding payments from education service providers to EFAs.
(e) Ensuring appropriate use and rigorous oversight of all funds expended under this
program.

XVII. The scholarship organization shall not exclude, discriminate against, or otherwise
disadvantage any education provider with respect to programs or services under this section based
in whole or in part on the provider’s religious character or affiliation, including religiously based or
mission-based policies or practices.

provider should be allowed to receive, or continue receiving, payments from EFAs.

I. The scholarship organization may approve education service providers on its own
initiative, at the request of parents, or by notice to the scholarship organization provided by

(c) Comply with all state and federal anti-discrimination laws.

194-E:7 Independence of Education Service Providers.

education service provider or to make the actions of an education service provider the actions of the
state government.

II. Education service providers shall be given maximum freedom to provide for the
educational needs of EFA students without governmental control.

III. Nothing in this chapter shall be construed to expand the regulatory authority of the
state, its officers, or any school district to impose any additional regulation of education service

IV. Any education service provider that accepts payment from an EFA under this chapter is
not an agent of the state or federal government.

IV. If any provision of this chapter, or the application thereof to any person or

194-E:10 Phase-Out Grants.

I. For each school district, the commissioner shall calculate the amount of the reduction in adequate education grants pursuant to RSA 194-E:2, I for each student receiving an EFA under this chapter. In the first year of the grant reduction, the commissioner shall calculate 50 percent of the reduction for each student and shall disburse that amount to the district as a district funding phaseout grant. In the second year of the grant reduction, the commissioner shall calculate 25 percent of the reduction for each student and shall disburse that amount to the district as a district funding phase-out grant. 194-E:11 Appropriation From Education Trust Fund. The amount necessary to fund any grants or transfers of funds authorized under this chapter is hereby appropriated to the department from the education trust fund created under RSA 198:39. The governor is authorized to draw a warrant from the education trust fund to satisfy the state's obligation under this section. Such warrant for payment shall be issued regardless of the balance of funds available in the education trust fund. If the balance in the education trust fund, after the issuance of any such warrant, is less than zero, the comptroller shall transfer sufficient funds from the general fund to eliminate such deficit. The commissioner of the department of administrative services shall inform the fiscal committee and the governor and council of such balance. This reporting shall not in any way prohibit or delay the distribution of any grant or transfer of funds authorized under this chapter.

to COVID-19. As of January 1, 2021, this order has been extended 14 times.

II. Between March 26, 2020 and June 16, 2020, a “Stay at Home” order had been in-place
under the authority of the governor as measure to prevent the spread of COVID-19. This order

operations that were not considered essential.

III. Between March and August of 2020, 449 New Hampshire business closed temporarily or
permanently, with 280 remaining closed.

IV. New Hampshire began “reopening” on May 11, 2020 with restrictions, some of which
remain in place today and continue to impact the micro enterprise sector, those businesses with
between 1 and 5 employees including the proprietor. According to the Small Business
Administration, Office of Advocacy, there are 25,478 business with between 1-19 employees and
101,795 non-employer businesses.

V. It is incumbent upon the state government to take prompt, proactive, and continuing
action to protect the economic health of New Hampshire communities through building out the
infrastructure and sustainability of micro enterprises.

452 New Subdivision; COVID-19 Micro Enterprise Relief Fund. Amend RSA 12-O by inserting
after section 52 the following new subdivision:

COVID-19 Micro Enterprise Relief Fund

I. There is established in the office of the state treasurer a fund to be known as the COVID-
19 micro enterprise relief fund. Notwithstanding RSA 4:45, RSA 4:47, RSA 21-P:43, or any other law
to the contrary, to the extent permissible under federal law $1 of any federal funds received by the
state in response to the COVID-19 public health emergency shall be deposited into the fund,
provided that at no time shall the balance of the fund exceed $1 in any fiscal year.

II. Funds shall be disbursed at the discretion of the commissioner to the 10 New Hampshire
regional economic development corporations to be awarded to local or regional micro enterprises.
Each regional development corporation shall receive up to $1. Each regional development economic
council shall be authorized to assess an administrative fee up to 10 percent of the funds received
through the state to manage this grant program. Any regional economic development corporation
that does not award all of the funds received in grants to local micro enterprises shall return the
funds to micro enterprise relief fund at the department of business and economic affairs for
redistribution at the discretion of the commissioner.
III. With each award, an agreement for technical assistance shall be put in place between the regional development corporation, the New Hampshire small business development center, and the micro enterprise to support the implementation of the funds. 18 months after the implementation of the program, the regional economic development councils will prepare and submit reports to the commissioner, that include the number of grants and the amounts, and the use of each grant by the recipient. The commissioner shall compile these reports and submit a compiled report to the speaker of the house of representatives, the senate president, the house clerk, the senate clerk, the state library, and the governor.

(365) Moneys deposited into the COVID-19 micro enterprise relief fund established in RSA 12-O:53.

454 Purpose Statement. Independent live venues are important entertainment hubs and economic multipliers for New Hampshire’s local economies. They serve as critical tax bases as employers and tourism destinations and as revenue generators for neighboring businesses such as restaurants, hotels, and retail. The cultural impact of New Hampshire’s independent live venues is difficult to calculate and serves as an important draw for young people to the state. Unfortunately, these businesses were among the first to close as COVID-19 spread across the country, will likely be the last to reopen, and will take years to recover if they can stay in business at all. Smaller venues with a capacity of 300 or less are being impacted the most by the COVID-19 economic and public health crisis. Sections 455-458 of this act provides targeted assistance and long-term planning support and recognizes the importance of independent live venues to New Hampshire’s economy.

455 Council on the Arts; Declaration of Policy. Amend RSA 19-A:1 to read as follows:

19-A:1 Declaration of Policy. It is hereby found that many of our citizens lack the opportunity to view, enjoy or participate in living theatrical performances, musical concerts, operas, dance and
ballet recitals, art exhibits, examples of fine architecture, and the performing and fine arts generally. It is hereby further found that, with increasing leisure time, the practice and enjoyment of the arts are of increasing importance and that the general welfare of the people of the state will be promoted by giving further recognition to the arts as a vital aspect of our culture and heritage and as a valued means of expanding the scope of our educational programs. **It is hereby further found that arts organizations and businesses are important entertainment hubs and economic multipliers for New Hampshire's local economies. They serve as critical tax bases as employers and tourism destinations and as revenue generators for neighboring businesses such as restaurants, hotels, and retail. The cultural impact of New Hampshire's creative sector is difficult to calculate and serves as an important draw for young people to the state.** It is hereby declared to be the policy of the state to join with private patrons and with institutions and professional organizations concerned with the arts to insure that the role of the arts in the life of our communities will continue to grow and will play an ever more significant part in the welfare and educational experience of our citizens. It is further declared that all activities undertaken by the state in carrying out this policy shall be directed toward encouraging and assisting rather than in any ways limiting the freedom of artistic expression that is essential for the well-being of the arts.

456 Council on the Arts; Report. Amend RSA 19-A:7 to read as follows:

19-A:7 Reports. The council shall make biennial reports to the governor and council. **The council's strategic plan and biennial report under this section shall address the activities related to the save our granite stages fund created under RSA 19-A:15.**

457 New Subdivision; Council on the Arts; Save Our Granite Stages Fund. Amend RSA 19-A by inserting after section 14 the following new subdivision:

Save Our Granite Stages Fund

19-A:15 Save Our Granite Stages Fund. There is hereby established the save our granite stages fund, which shall be appropriated for fiscal year 2022 to the New Hampshire state council on the arts for the purpose of providing grants to both non-profit and for-profit live venues that did not receive a grant from the federal Shuttered Venue Operators (SVO) program, which was established by Economic Aid to Hard-Hit Small Businesses, Nonprofits and Venues Act (P.L. 116-260). The fund shall be nonlapsing and kept separate and distinct from all other funds. Notwithstanding any other provision of law, $1 of any discretionary federal funds received by the state in response to the COVID-19 public health emergency shall be deposited into the fund. In addition to state appropriations, the council may accept grants, gifts, and donations for deposit in the fund.

458 New Subparagraph; Dedicated Funds; Save our Granite Stages Fund. Amend RSA 6:12, I(b) by inserting after subparagraph (364) the following new subparagraph:

(365) Moneys deposited in the save our granite stages fund under RSA 19-A:15.
Repeal. RSA 19-A:15 and RSA 6:12, I(b)(365), relative to the save our granite stages fund, as inserted by sections 457 and 458 of this act, respectively, are repealed.

Effective Date.

I. Section 459 of this act shall take effect June 30, 2023.

II. Sections 451 through 458 of this act shall take effect upon its passage.
