20 425 Declaration of Purpose. New Hampshire voters passed the Right of Privacy into the state
21 constitution in November 2018 with an 81 percent approval. With that vote, state government
22 culture and behavior needed to be shaped by the words, "An individual's right to live free from
23 governmental intrusion in private or personal information is natural, essential, and inherent". The
24 department of health and human services has been subject to the Health Insurance Portability and
25 Accountability Act since 1996 which drove initial efforts to develop a culture and infrastructure to
26 protect personal data privacy. As a holder of personal information in state government, the
27 department has a responsibility to demonstrate to the public the state's commitment to actively and
28 overtly respect personal privacy, including privacy of personal information. Establishing and
29 maturing a culture of privacy is core to successfully driving future efforts to implement and enhance
30 privacy policies, procedures, and practices. Continuous improvement requires appropriate
31 governance and policy leadership.

32 426 New Subdivision; Data Privacy and Information Technology Security Governance Board.
33 Amend RSA 126-A by inserting after section 98 the following new subdivision:

34 Data Privacy and Information Technology Security Governance Board

V. The department is authorized to use contract support available from funds prior to July 1, 2025.

428 Findings. The general court finds that given the statistically significant excess in the number of cases of kidney cancer in Merrimack, New Hampshire found by the department of health and human services, the known detection of environmental contaminants that have been associated with kidney cancer, and a trend of increasing incidence of kidney cancer over time, the department recommends that a feasibility study as determined by the New Hampshire Cancer Concern Investigation Protocol, Phase 3 be conducted. The general court further finds that a Phase 3 feasibility study would determine if an epidemiological study (Phase 4) is warranted and would identify appropriate cancers and health outcomes for inclusion in such study.

429 Appropriation; Department of Health and Humans Services; Phase 3 Feasibility Study.

I. There is hereby appropriated the sum of \$500,000 for the biennium ending June 30, 2025, to the department of health and human services to enter into a contract with an academic or research organization to complete a New Hampshire Kidney Cancer Incidence Phase 3 Feasibility Study for the town of Merrimack to further understand potential exposures that may contribute to the excess of kidney cancer incidence in Merrimack and identify any next steps warranted. Such funds shall be nonlapsing and appropriated to the department for the purposes of this act. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

II. In order to provide funding for said appropriation, and subject to prior review by the joint legislative oversight committee on health and human services established in RSA 126-A:13, the department shall first use any available grant funding or any other non-state funds which may be used for this purpose.

430 General Fund Transfer to Highway Fund. The sum of \$10,000,000 for the fiscal year ending June 30, 2023, is hereby appropriated to the highway fund. This appropriation shall not lapse. The governor is authorized to draw a warrant for said sum out of any money in the treasury not otherwise appropriated.

431 Effective Date. Section 430 of this act shall take effect June 30, 2023.

432 Purpose Statement. The general court finds that people and animals accessing lakes and rivers across the state have been impacted by cyanobacteria blooms, which pose a threat of acute and chronic illnesses from the toxins they release. Many of these blooms have been triggered by phosphorus loading from direct run-off, poor culvert design, inefficient or failed septic systems, internal loading of phosphorus, among other causes. The cost of designing, installing and repairing mitigation systems or projects for many communities, watershed management associations, and lake associations, would result in dramatically higher property taxes or would take many years of fundraising and delay projects exacerbating the problem. The mitigation of contributors to cyanobacteria blooms requires a strategy to protect, preserve, and enhance the water quality that

1 New Hampshire citizens and the natural environment depend upon.

2 433 New Subdivision; Cyanobacteria Mitigation Loan Program. Amend RSA 485-A by inserting

11 (b) Publicly-owned and non-profit lake or river watershed associations that have a
12 watershed management plan which specifies sources of phosphorus loading approved by the
13 department of environmental services.

14 II. Projects shall only be financed after the applicant's proposed mitigation plan or
15 watershed management plan demonstrates that such plan is the most cost-effective solution, as
16 reviewed and approved by the department of environmental services. The applicant shall provide
17 evidence in the application for funding that there are no no-cost or low-cost efforts that would result
18 in a substantial decrease in external phosphorus loading. The applicant shall also show that there is
19 no responsible party identified by department of environmental services or that the responsible
20 party, potentially including the applicant, has provided their appropriate share of the funding for the
21 proposed project.

22 III. Loans or grants may be made for up to the total cost of the project, after any responsible
23 party's contribution, addressing the contamination.

24 IV. The cyanobacteria mitigation program shall forgive up to 10 percent of the loan principal

26 the same qualifying standards for forgiveness used in the drinking water state revolving loan

35 includes oversight of the grant or loan expenditures to ensure they are not misused.

36 (b) Administer a loan forgiveness program to assist municipalities, community, and non-
37 profit, lake and river watershed association with loan repayment.

3 accepted watershed management plan and the applicant for funding is a municipality, a community
4 water system, or a non-profit, lake or river watershed association.

5 (2) The applicant has demonstrated, to the satisfaction of the department, that low
6 or no-cost solutions are neither viable nor effective.

7 (d) Award reimbursements to projects from the fund in a manner consistent with this
8 chapter.

9 II. Every year beginning December 1, 2024, the department of environmental services shall
10 prepare and file a report with the general court evaluating the progress made relative to mitigating
11 cyanobacteria blooms, the efficiency of the program established under this chapter, and whether it

567 Statement of Findings. The general court hereby finds that:

I. The state of New Hampshire is ranked as having one of the fastest growing number of older adults in the country.

II. As the number of older adults increases, the need for long-term care will increase.

III. Pursuant to the federal Older Americans Act, New Hampshire is required to promote the development and implementation of comprehensive, coordinated, statewide system of long-term services and supports that is responsive to the needs and preferences of older individuals and their family caregivers.

IV. The federal Americans with Disabilities Act prohibits unnecessary institutionalization of individuals with disabilities.

V. RSA 151-E was established to provide Medicaid eligible elderly and chronically ill adults with a continuum of long-term care options.

Amendment to HB 2-FN-A-LOCAL
- Page 157 -

1 VI. Despite these federal and state mandates, historically there has been a lack of
2 investment in our state's system and programs for older adults and adults with disabilities.

3 VII. Rebalancing New Hampshire's systems to expand more home and community-based
4 options will reduce the cost of providing services and allow our state to serve more people.

34 them live as independently and safely as possible when they can no longer perform everyday
35 activities on their own.

37 V. "System of care" means:
