STATE OF NEW HAMPSHIRE

In the Year of Our Lord Two Thousand Twenty Four

AN ACT relative to the legalization and regulation of cannabis and making appropriations therefor.

Be it Enacted by the Senate and House of Representatives in General Court convened:

1 1 Purpose and Findings.

2 I. The general court hereby finds that: the people of the state of New Hampshire find and
3 declare that cannabis should be regulated so that:

4 (a) Individuals will have to show proof of age or qualifying patient status before entering
5 a cannabis retail outlet or purchasing cannabis.

6 (b) Safe access to therapeutic cannabis is preserved and expanded in a manner that
7 allows costs to come down, not increase, though integration of participants in the existing
8 therapeutic cannabis program competing on an even footing with other applicants of similar
9 qualifications.

10 (c) Selling, distributing, or transferring cannabis to minors and other individuals under
11 the age of 21 shall remain illegal, except in the case of qualifying patients enrolled in the therapeutic
12 cannabis program.

13 (d) Driving under the influence of cannabis shall remain illegal, and funds shall be
14 allocated for increased training of drug recognition experts to spot driving under the influence of
15 substances including cannabis.

16 (e) Moving cannabis production and sales from the underground, sometimes dangerous,
17 illicit market to legal businesses allows for appropriate regulations and control.

18 (f) Cannabis sold in this state will be tested, labeled, and subject to additional
19 regulations to ensure that consumers are informed and protected.

20 (g) Some of the revenue generated from legal cannabis shall be used to support programs
21 for education, prevention, treatment, and recovery related to the use of both legal and illegal drugs.

22 (h) Marketing and advertising to minors is prohibited.

23 (i) Advertising to the general public is prohibited.

24 II. Many years of work have led to this effort which addresses the following goals to put the
25 state of New Hampshire in the driver's seat to focus on harm reduction, not profits, and:

26 (a) Allows the state to control distribution and access through state laws, administrative
27 rules, and local control.

1 (b) Keeps cannabis away from children and schools by establishing 1,000 foot distance
2 requirements for stores, limiting access to retail outlets to people 21 and older or qualified patients,
3 and imposing limits on product design and packaging.

4 (c) Controls the marketing and messaging by prohibiting advertising which targets the
5 general public, especially minors.

6 (d) Prohibits “marijuana miles” by restricting cannabis retail outlets to one per
7 municipality or one for every 15,000 residents in larger municipalities, as well as empowering local
8 zoning control for these businesses.

9 (e) Empowers towns to keep cannabis out through required ballot measures to allow
10 cannabis retail outlets.

11 (f) Reduces access to poly-drugs by:

12 (1) Introducing 15 stores at first and allowing expanded licenses to reflect demand
13 and allow retail outlets to reach Granite Staters who may still face a prohibitively long drive to
14 reach licensed New Hampshire cannabis retail outlets or out of state options and may continue to
15 turn to the illicit market if the placement of stores does not respond to market demands;

16 (2) Prohibiting beverages that combine alcohol and cannabis; and

17 (3) Prohibiting the inclusion of nicotine or other additives to products which are
18 designed to make the product more addictive.

19 (g) Undercuts the cartels by:

20 (1) Imposing an agency fee of 10 percent on monthly gross total revenue of cannabis
21 sales which is in line with the state excise tax in Massachusetts but well below the total tax burden
22 of approximately 20 percent in that state.

23 (2) Keeping costs low by not requiring a particular store layout, construction, or
24 building contractor to meet appearance guidelines for the exterior of state licensed cannabis retail
25 outlets.

26 (3) Recognizing the need for expanded licenses in the future in order to accommodate
27 locations in more rural areas of the state which are not well positioned to compete for limited
28 licenses.

29 (h) Limiting initial cannabis retail outlet licenses to 15:

30 (1) While prohibiting a controlling interest in more than 3 cannabis retail outlets;
31 and

32 (2) Providing a pathway for expanded licenses as the state establishes a successful
33 long-term sustainable solution to cannabis legalization, while prioritizing harm reduction over
34 profits.

35 (i) Reducing influence of lobbying and donations by:

36 (1) Ensuring that licensing will increase responsibly to balance the need for more
37 cannabis retail outlets in underserved communities; and

1 (2) Ensuring that laws and administrative rules do not pick favorites, but rather
2 create a transparent administrative process for applications and selection criteria; and

3 (3) Directing the secretary of state to promulgate rules restricting lobbying by
4 cannabis retail outlets.

5 2 New Subparagraph; Application of Receipts; Cannabis Fund. Amend RSA 6:12, I(b) by
6 inserting after subparagraph 394 the following new subparagraph:

7 (395) Moneys deposited in the cannabis fund established in RSA 318-F:26.

8 3 Alcoholic Beverages; Enforcement, Requirements and Penalties; Statement from Purchaser as
9 to Age. Amend RSA 179:8, I(d) to read as follows:

3 appeal is available.

4 VI.(a) In applying its enforcement policy, the liquor commission shall establish and enforce
5 specific determinate penalties for specific offenses. The commission shall not apply penalties such as
6 license suspensions for indefinite periods of time.

7 (b) In addition to RSA 541-A:30, III, the commission may suspend, for a period

34 delays in cultivation facilities becoming operational.

35 (e) Regulations governing the selection and licensure of cultivation facilities, including:

10 act in good faith and with reasonable diligence;

11 (4) Procedures to accept applications for cultivation facilities within 3 months of a
12 license being revoked, surrendered, or not renewed; and

32 regulations.

33 (c) This section does not authorize any person to engage in, and does not prevent the
34 imposition of any civil, criminal, disciplinary, or other penalties, including discipline or termination

2 cannabis does not constitute the use of an illicit substance or otherwise disqualify a person from
3 needed medical care and may only be considered with respect to evidence-based clinical criteria.

4 IX. Notwithstanding any other provision of law, unless there is a specific finding that the
5 individual's use, cultivation, or possession of cannabis could create a danger to the individual or
6 another person, it shall not be a violation of conditions of parole, probation, or pre-trial release to:

METHODOLOGY:

This bill establishes procedures for the legalization, regulation, and taxation of cannabis; the licensing and regulation of cannabis establishments; and makes appropriations therefor.

This bill adds, deletes, or modifies a criminal penalty, or changes statute to which there is a penalty for violation. Therefore, this bill may have an impact on the judicial and correctional

systems, which could affect prosecution, incarceration, probation, and parole costs, for the state, as well as county and local governments. A summary of such costs can be found at: https://gencourt.state.nh.us/lba/Budget/Fiscal_Notes/JudicialCorrectionalCosts.pdf

The Liquor Commission states this bill proposes an extensive regulatory framework to be administered by the Liquor Commission which is renamed in the bill to be the Liquor and Cannabis Commission. Primary enforcement and licensing authority would be the responsibility of the Commission. Regarding these responsibilities the Commission provides the following information concerning the required time line:

- The Liquor Commission shall develop or contract for an inventory tracking system for the growth and tracking of cannabis products. Due to the anticipated cost of this system the Commission would need to bid the contract and establish a training and implementation period.
- The bill provides that 15 months after the effective date of this chapter, and every year thereafter, the commission shall reevaluate the fines and penalties established in RSA 318-F, and shall report, in writing, on its findings and recommendations to the Chairpersons of the House of Representatives and Senate Ways and Means Committees.
- 18 months after the effective date of this section, and every 2 years thereafter, the Commissioner of the Department of Health and Human Services shall submit an annual report to the Governor and Fiscal Committee of the General Court detailing the activities of the administration of the Substance Use Prevention, Treatment, and Recovery fund, the amount distributed in the past year, the amount remaining in the fund, a summary of how funds were used in the past year, and any recommendations for future legislation.
- The Commission shall report to the general court within 18 months after the effective date of this act and by January 1 of each year thereafter on distribution of funds to the Community Reinvestment Fund.
- The Commission is required to adopt administrative rules for cultivation licenses, and a schedule of civil fines 18 months after the effective date of the bill the Commission shall report to the Chairpersons of the House and Senate Ways and Means Committees its proposal for a fine schedule and for legislation needed to implement the schedule.
- Not later than 18 months after the effective date of this chapter, the Commission, in consultation with the Department, shall develop an informational handout, which cannabis retail outlets shall make available to all consumers
- 20 months after the effective date the Commission shall adopt administrative rules for licensing for all cannabis establishments and shall accept and process applications beginning no later than 2 months after the issuance of rules governing the category of cannabis establishment for which the rules were adopted.
- 36 months after the effective date of this section, after receiving input from the Cannabis Advisory Board, the Commission shall make written recommendations to the General Court regarding the regulation of hemp.
- The bill would authorize the Commission to transfer funds within and among all accounting units within the Commission's operating budget and to create accounting units and expenditure classes as required and as the commissioner deems necessary and appropriate to address present or projected budget deficits, or to respond to changes in

federal law, regulations, or programs, and otherwise as necessary for the efficient management of the liquor commission and cannabis funds.

The Liquor Commission indicates it will require the following additional positions to administer its responsibilities under this bill:

- Two senior management positions would be needed to support the cannabis program: an Administrator IV within in the Division of Administration and a Deputy Director for Cannabis in the Division of Enforcement and Licensing.
- The Division of Enforcement and Licensing to oversee development and implementation of the processes as outlined in the bill. The Division would need a minimum of 10 new law enforcement and administrative personnel to effectively carry out the implementation of program in the timetable laid out in the bill. These positions include:
 - o 1 Lieutenant position
 - o 2 Examiner II positions
 - o 6 Investigators
 - o 1 Licensing specialist
- In addition to the enforcement and licensing personnel, the Division will require equipment adequate to fully outfit sworn members of the Division and non-sworn personnel hired to license and audit the businesses manufacturing and selling cannabis.
- The Division of Administration and Finance would track and record all transactions, purchases and fiscal matters associated with the program. Seven new positions would be added to the division to discretely and separately track fiscal and legal matters associated with the cannabis program and prepare the reports required by the bill. These positions include:
 - o 1 Attorney IV
 - o 1 Financial Reporting Administrator 1
 - o 2 Accountant III positions
 - o 2 Internal Auditor II positions
 - o 1 Human Resources Coordinator
- Marketing Positions. The Commission would ensure a safe and responsible message to promoted to consumers which would be clear and beneficial to a state-run model and the franchisees.
 - o 1 Advertising Specialist – Marketing Cannabis
 - o 1 Administrative Assistant – Marketing Cannabis
 - o 1 Marketing Specialist – Marketing Cannabis
- The Commission indicates it would need legislative authority to pay staff members working on both liquor and cannabis matters increased wages until such time as the program is well established and all necessary new staff have been hired for program administration. The Commission assumes a 10% stipend would be necessary to compensate existing staff engaged in the development and all administrative aspects of the program. The bill does not currently include a provision for this stipend.

The Commission provided the following cost estimates to implement the bill:

The Department of Revenue Administration indicates section 16 of the bill amends the Business Profits Tax (BPT), specifically RSA 77-A:4, to allow a deduction from gross business profits for the ordinary and necessary expenses paid or incurred on a trade or business as a cannabis establishment as defined by RSA 318-F:1 or an alternative treatment center as defined by RSA 126-X:1, including reasonable allowance for salaries or other compensation for personal services actually rendered. The Department states this change would result in an indeterminable increase in BPT and BET revenue to the State general fund and education trust fund. The Department is not able to estimate what the taxable income of the cannabis businesses will be. Regarding section 17 of the bill and the proposed amendment to RSA 76:3. The Department is unable to calculate the available funds that will remain after deducting the cost as outlined in RSA 318-F:26, V(a). However, any amount remaining that is deposited into the ETF would reduce the amount of Statewide Education Property Tax (SWEPT) to be collected by the municipalities to generate revenue of \$363 million. Proposed RSA 318-F:26 establishes the cannabis fund into which fees are deposited. The Department notes the proposed RSA 318-F:26, I and V reference RSA 77-H which does not currently exist and is not established by the bill. It is assumed that this require further clarification/amendment. The Department would be responsible for updating all necessary tax forms and electronic management systems which

would not result in additional administrative costs that could not be absorbed in the Department's operating budget.

The Department of Health and Human Services, Bureau of Drug and Alcohol Services states there is considerable uncertainty about the impact that legalizing cannabis in New Hampshire would have on public budgets including unknowns around potential increases in consumption, treatment utilization, prevention needs, and associated costs. The Department indicates the science is currently unsettled on the causal effects of cannabis on psychoses, schizophrenia, and impaired driving, and therefore, the Department is unable to determine if these areas would be impacted and lead to additional costs. Evidence supporting the treatment needs for cannabis use disorder is documented, and the Department assumes treatment costs would increase with cannabis legalization, although such costs are indeterminable.

The Department expects the bill would have an impact on State revenues and expenditures due to the potential sales revenue and unknowns cost related to increases in consumption, treatment utilization and prevention needs. Assuming revenue and expenditure values would correlate with the current Alcohol Abuse Prevention and Treatment Fund activity, the Bureau estimates annual revenue and expenditures would increase by between \$10 million and \$12 million. To provide the Department with capacity for coordination and management of new the Substance Use Prevention and Recovery Fund, the Department states a Program Specialist IV position would be needed. This position would be responsible for planning the development and modification of programs, policies and procedures and managing and evaluating the work product of state and local programs providing services. The estimated cost of the position is \$93,000 in FY 2025, \$96,000 in FY 2026 and \$99,000 in FY 2027. Since there is no appropriation for this position, it is assumed the cost would be funded by the "Substance Use Prevention and Recovery Fund" established by the bill. In addition, the Department assumes the \$500,000 appropriation for the cost of developing and implementing a public education campaign would be from the State general fund.

The Department assumes in order to complete the data collection and reporting requirements in the bill, a Business Systems Analyst II would be needed. The cost of this position would be \$109,000 in FY 2025, \$113,000 in FY 2026 and \$117,000 in FY 2027. There is an annual allocation of \$100,000 to the Department from the Cannabis Fund for the data collection and reporting requirements that would partially cover the cost of the position, in addition to a \$100,000 general fund appropriation the fiscal year ending June 30, 2025 to collect baseline data to be used in the reports required by RSA 318-F:24.

The Department of Safety indicates this bill would create a law to regulate the manufacture, possession, and sale of cannabis. The Department states the fiscal impact of this bill is indeterminable as it is impossible to predict criminal activities related to cannabis legalization. Based on information from states that have legalized cannabis the Department makes the following assumptions concerning the potential fiscal impact of this bill:

- Determining impairment in drivers under the influence of marijuana remains a challenge as there is no standardized test to determine levels of impairment.
- Marijuana use will increase including among minors. Despite legalization, marijuana trafficking and black-market marijuana continue to be enforcement challenges in states that have legalized marijuana. Traffic deaths involving drivers who tested positive for marijuana and incidents of driving under the influence have increased in states that have legalized. Suicide incidents in which toxicology results were positive for marijuana have increased in states that have legalized.
- While the Department cannot predict the financial impact, it assumes, based on the experiences from states that have legalized, the financial impact due to the increased enforcement issues could be significant. Enforcement costs may increase in crimes such as robbery, burglary, and theft. These enforcement issues will impact local and state law enforcement and may lead to a need for increases in manpower and training.

The New Hampshire Municipal Association estimates, based on information available, 219,169 persons 18 years old and older in New Hampshire used cannabis in the past year and approximately, 149,007 NH residents 18+ used cannabis in the past month. Based on information from Maine’s Office of Cannabis Policy’s on marijuana use, the Association estimates that NH residents alone would consume the following range of legal cannabis per year:

Lower Volume	Middle Volume	Upper Volume
4,087,921 grams	5,185,444 grams	6,517,622 grams

Assuming a market price of \$7.83 per gram and a 10% tax rate, the Association estimated the following potential revenue range for sales to New Hampshire residents after 3 years of sales based on traditional sales volume and Maine’s sales volume:

	Lower Volume	Middle Volume	Upper Volume
30% Legal Sales	\$960,253	\$1,218,061	\$1,530,989
48% Legal Sales (ME)	\$1,536,404	\$1,948,897	\$2,449,583

The Association notes that the bill does not appear to restrict sales to New Hampshire residents and it is likely that sales will also come from non-residents. It is uncertain whether other market forces may affect tax revenue. If New Hampshire’s revenues come in at the same rate as Maine’s, then the following revenue estimates may apply: Year 1: \$5.8 million, Year 2: \$8.2

million, and Year 3: \$15.9 million. The Association indicates it has no reason to believe that revenues will exceed those produced in Maine.

Given the time lines in the bill for rulemaking, the Association anticipates it is not likely that the rules would be complete for retail cannabis establishments until the end of 2025. After rulemaking, retail cannabis establishments will have to be sited and built, meaning sales will not likely occur prior to mid- 2026. It is not known what additional administrative costs may result from this bill, however, a deduction of \$8.1 million is expected in the year following passage. Unless the NH sales volume approaches Maine's, it is unlikely that municipalities will see any revenue until after FY 2030. Municipalities that vote in November 2024 to allow cannabis establishments may undergo their own ordinance creation process, resulting in costs associated with research and development of those ordinances and regulations that must complement any state rules. This will require additional staff time, but not likely before draft rules are announced by the state agency. These costs are indeterminable.

Given the difficulty obtaining information relative to effects of legalization on crime statistics, ambulance deployment statistics, and the existing status of New Hampshire as a small state surrounded by states where cannabis is legal in some form, and the existing gray and black markets for cannabis, it is likely that New Hampshire municipalities will see some indeterminable increase in costs associated with legalization of cannabis and cannabis products. New rules relative to possession, cultivation, and gifts, will likely see a shift in law enforcement focus, leading to new and different costs which are indeterminable.

The New Hampshire Association of Counties does not anticipate a significant fiscal impact to the County Corrections Departments or the County Attorney's Offices.

LBA Notes:

Proposed RSA 318-F:26 establishes the Cannabis Fund. Moneys credited to the fund shall include deposits into the fund by the Commission pursuant to this chapter and deposits into the fund by the Commissioner of the Department of Revenue Administration pursuant to RSA 77-H. This section includes an appropriation of \$8 million for the biennium ending June 30, 2025 to the Commission for the cost of administration and additional appropriations for purposes identified in the section.

- *Due to the time line for administrative rules established by the bill (up to 20 months), there may not be sufficient funds available in the cannabis fund available for such appropriations until FY 2027.*

Proposed RSA 318-F:26 refers to RSA 77-H.

- *This statute does not exist and is not created by the bill. It is unclear which entity would collect the 10 % agency fee, the Liquor and Cannabis Commission or the Department of Revenue Administration.*

The bill authorizes the Commission to establish Investigator Positions.

- *The Liquor Commission has identified other position classifications needed to operate the cannabis program. These are not authorized by the bill.*

Proposed RSA 318-F:18 establishes the Cannabis Advisory Board.

- *The bill does not address administrative support for the Advisory Board or payment/reimbursement of the Advisory Board's costs.*

Section 32 of the bill makes an appropriation of \$500,000 to the Substance Use Prevention, Treatment, and Recovery Fund established by the bill for the fiscal year ending June 30, 2025.

- *The source of funds for this appropriation is not stated.*
