METHODOLOGY:

This bill makes the following changes affecting the calculation of final adequacy grants to public school districts, aid to public charter schools, and education freedom accounts (EFAs):

- Beginning July 1, 2024 (FY 2025), reestablishes both “relief funding” and “fiscal capacity disparity aid (which for FY 2025 will not be considered for purposes of determining the “hold harmless” grant under RSA 198:41, II).
 - “Relief funding” and “fiscal capacity disparity aid” is not part of the public charter schools or EFAs funding.

- Beginning July 1, 2025 (FY 2026), increases the base per pupil aid under RSA 198:40-a (cost of an opportunity for an adequate education) to \$4,404. Under current law, base per pupil aid is set to be \$4,265.64, therefore this would be an increase of \$138.36 per pupil.
 - A change to base per pupil aid would also apply to public charter schools and EFAs.

Based on FY 2025 preliminary estimate data (published November 15, 2023), this bill is expected to increase State education trust fund expenditures to local school districts by approximately \$61.5 million in FY 2025. Assuming an annual base enrollment decrease of 1%, no change to differentiated aid eligible enrollments, and a 7% annual increase in equalized valuations, this bill would increase State education trust fund expenditures to local school districts by approximately \$74.3 million in FY 2026 and \$67.7 million in FY 2027.

Based on current counts of approximately 7,200 public charter and 4,900 EFA students, this bill would also increase education trust fund expenditures by approximately \$1,000,000 ($\$138.36 \times 7,200 = \$996,192$) for public charter school aid and \$678,000 ($\$138.36 \times 4,900 = \$678,062$) for EFAs.
