HOUSE RECORD

First Year of the 167th General Court Calendar and Journal of the 2021 Session

Web Site Address: www.gencourt.state.nh.us

Vol. 43

Concord, N.H.

Thursday, February 25, 2021

No. 4

HOUSE JOURNAL NO. 3 (Cont'd)

Wednesday, February 24, 2021

Rep. Osborne moved that the House adjourn.
Motion adopted.

HOUSE JOURNAL NO. 4

Thursday, February 25, 2021

The House assembled at 9:10 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by the Clerk of the House, Paul C. Smith.

Great Creator of all, we humbly implore Your blessing on our assembly this day. We ask that You bless the land that supports us, the air and water that sustain us, and nourishment of food and spirit when they are in short supply. We ask that You be with those unable to be with us today and grant them succor in these trying times. O God, help us to remember that the people of this state sent all members here, each and every one of them, and that they all have purpose, that they all matter, that our democracy which has stood for centuries, still stands strong. We ask that You touch the hearts and minds of all in attendance and grant them grace in voting, speaking, and action. Divine Master, we ask Your blessing on the leaders of our nation, state, counties, cities, and towns. Finally, we ask Your blessing on all of our brothers and sisters in humanity and wish upon them peace and long life. Amen.

Representative Nutting-Wong, member from Nashua, led the Pledge of Allegiance.

The National Anthem was sung by everyone in attendance.

LEAVES OF ABSENCE

Reps. Berch, Cohen, Cote, Dontonville, Eaton, Ellis, Fedolfi, Mary Griffin, Langley, Myler, Oxenham, Pantelakos, Pitre, Rogers, Janice Schmidt, Snow, Sofikitis, Treleaven, Van Houten, Stevens and Varney, the day, illness.

Reps. Bucu, Cross, DiSilvestro, Fargo, Gourgue, McBride, Petrigno, Richards, Ruprecht, Sandler, Southworth, McBeath and McKinney, the day, important business.

Reps. Baroody, Bergeron and Craig, the day, illness in the family.

MOTION TO SUSPEND HOUSE RULES

Reps. Major and Almy moved that House Rules be so far suspended as to permit introduction of **HR 11**, affirming revenue estimates for fiscal years 2021, 2022, and 2023, and to permit consideration at the present time without the required referral to committee, printing, public hearing or report from committee.

Rep. Major spoke in favor.

Motion adopted by the necessary two-thirds vote.

Rep. Major moved Ought to Pass, spoke in favor and yielded to questions.

Rep. Almy spoke in favor.

Motion adopted.

MOTION TO LAY ON THE TABLE

Rep. Major moved that **HR 11**, affirming revenue estimates for fiscal years 2021, 2022, and 2023, be laid on the table.

Motion adopted.

SPECIAL ORDER

HB 586-FN-A-L, relative to training and procedures for zoning and planning boards and relative to financial investments and incentives for affordable housing development. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Marjorie Porter for the Majority of Municipal and County Government. In 2020, the Governor's Task Force on Housing proposed legislation to encourage the development of affordable housing within the state. Unfortunately, after extensive work by several House committees, the two amended companion bills died on the table due to the pandemic. This bill is the combined version of those amended bills. In amending last year's bills, the committees worked closely with all major stakeholders to make the provisions enabling rather than mandatory, and to maintain and enhance local control of development. HB 586 provides for free training materials for planning boards and zoning boards of appeals. It streamlines the appeals process, clarifies what can be incorporated in inclusionary zoning ordinances, and modifies the criteria for workforce housing. It permits municipal economic development and revitalization districts under RSA 162-K to be used to increase workforce housing and other residential development within a city or town, and increases the community revitalization tax relief incentive period for eligible housing projects under RSA 79-E. Finally, it establishes the New Hampshire housing champion certification program as an incentive for communities who seek to make housing a priority. This enabling legislation gives communities a toolbox of options to use if they so choose and maintains local control. Vote 15-3.

Rep. Tony Piemonte for the Minority of Municipal and County Government. The minority of the committee believed, even after hours of testimony from two prior bills presented in 2020 that failed to pass, and after hours in subcommittee meetings trying to combine them into HB 586, that this bill made the pendulum swing further in favoring land developers. This bill started off with good intentions. This bill will grow government bureaucracy bigger and expand regulations through this bill if that happens. It creates a 16-member advisory board and the minority is concerned about the potential training for said members. The committee heard from many towns about how these policies will be implemented and how much it would cost. Hopefully the House Finance Committee will have more information.

MOTION TO LAY ON THE TABLE

Rep. Barbara Griffin moved that **HB 586-FN-A-L**, relative to training and procedures for zoning and planning boards and relative to financial investments and incentives for affordable housing development, be laid on the table.

On a division vote, with 175 members having voted in the affirmative, and 172 in the negative, the motion was adopted.

REGULAR CALENDAR - PART II

HB 81, relative to the justified use of deadly force upon another person. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. John Burt for the Majority of Criminal Justice and Public Safety. HB 81 makes a two word change by adding 'or another' to the RSA. The law now says that a person may use deadly force on his own property if the owner reasonably believes that a person is likely to use any unlawful force in the commission of a felony against the owner. Adding 'Or another' to the law means the property owner would also be legally allowed to defend their guest that do not live in the home. Current law allows for a person in their home to defend all that live in the home. This bill simply restates the rights stated in the NH Constitution, Part First, article 2-a: All persons have the right to keep and bear arms in defense of themselves, their families, their property and the state." Vote 11-10.

Rep. Casey Conley for the Minority of Criminal Justice and Public Safety. This bill represents an unnecessary and problematic expansion of New Hampshire's existing self-defense statute. State law has long allowed use of deadly force in defense of one's home, and by extension the occupants within it. As such this bill is not needed, and efforts to loosen that standard could invite serious unintended consequences.

MOTION TO LAY ON THE TABLE

Rep. Burt moved that **HB 81**, relative to the justified use of deadly force upon another person, be laid on the table. Rep. Burt requested a roll call; sufficiently seconded.

and the motion was adopted.

REGULAR CALENDAR - PART II CONT'D

HB 197, relative to the use of deadly force in defense of another. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Jennifer Rhodes for the Majority of Criminal Justice and Public Safety. NH laws already permit a person to use deadly force to protect themselves and their family inside their dwelling. This bill expands this right to allowing a person to protect themselves and their family against unlawful force during the commission of a felony while inside their vehicle. The rights of Granite Staters and their loved ones are of utmost importance and shall always be protected, upheld, and reaffirmed, regardless of property line boundaries. Vote 11-9.

Rep. John Bordenet for the Minority of Criminal Justice and Public Safety. This bill was an extension of the stand your ground law. However, it would have given permission to use deathly force when witnessing the commission of a felony using unlawful force in a vehicle. Previous subparagraphs would in RSA 427:4 would cover all issues justifying this bill. It is difficult to justify using deadly force against someone if your or other's life is not in danger. We felt the bill went too far.

Majority Amendment (0249H)

Amend the bill by replacing section 1 with the following:

1 Justification; Physical Force in Defense of a Person. Amend RSA 627:4, II(d) to read as follows:

(d) Is likely to use any unlawful force in the commission of a felony against [~~the actor within such actor's~~]**a person in a vehicle**, dwelling or its curtilage.

AMENDED ANALYSIS

This bill permits the use of deadly force against another person in circumstance where deadly force is used in the commission of felony against a person in a vehicle.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Ray Newman spoke against.

Rep. Abbas spoke in favor.

Rep. Burt requested a roll call; sufficiently seconded.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Binford moved that the House reconsider its action whereby, on a roll call vote of 206-144, the House adopted the majority committee report of Ought to Pass with Amendment on **HB 197**, relative to the use of deadly force in defense of another.

Rep. Binford spoke against.

Rep. Rung requested a roll call; sufficiently seconded.

REGULAR CALENDAR - PART II CONT'D

HB 365, giving peace officer status to federal law enforcement officers. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Dave Testerman for the Majority of Criminal Justice and Public Safety. HB365 seeks to authorize federal agents to enforce New Hampshire laws. This is allowed, probably in error, in enforcing immigration laws along the Canadian border. It clearly violates Art 7 State Sovereignty of the New Hampshire Constitution. It should be voted Inexpedient to Legislate. Vote 17-4.

Rep. David Meuse for the Minority of Criminal Justice and Public Safety. Some of the more dangerous police work done in New Hampshire is conducted by joint task forces made up of local and state police augmented by federal authorities. This bill provides that certified federal officers who receive training in New Hampshire law and swear an oath will be allowed to enforce New Hampshire state laws under very narrow circumstances. Those circumstances include protecting an individual in the presence of the officer from the imminent infliction of serious bodily injury, providing immediate assistance to an individual who has suffered or is threatened with serious bodily injury, preventing the escape of any individual whom the officer reasonably believes has committed a crime in the presence of the officer and preventing the escape of any individual whom the officer reasonably believes has committed a felony under New Hampshire law. The Director of the New Hampshire Police Standards and Training Council testified that in cases like this it is imperative for federal officers to have limited state authority. This bill would provide that authority. What the bill does not do is allow any federal officer vacationing in New Hampshire to simply start arresting people under our state laws. A similar provision in New Hampshire law currently exists for federal homeland security officers. This bill would narrowly expand it to other federal officers, including officers or inspectors of the U.S. Customs Service, the Department of the Treasury, or the U.S. Department of Justice, including the Federal Bureau of Investigation, the Drug Enforcement Administration, the Bureau of Alcohol, Tobacco and Firearms, and the U. S. Marshalls.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Reps. Testerman and Abbas spoke in favor.

Rep. Kennedy requested a roll call; sufficiently seconded.

and the majority committee report was adopted.

Rep. Wall voted Nay and intended to vote Yea.

HB 564, prohibiting the use of rubber bullets and tear gas by law enforcement. **MAJORITY: INEXPEDIENT TO LEGISLATE. MINORITY: OUGHT TO PASS.**

Rep. Gary Hopper for the Majority of Criminal Justice and Public Safety. This bill prohibits the use of rubber bullets and tear gas (non-deadly force) by law enforcement. The majority of the Criminal Justice Committee believes it to be inexpedient to legislate at this time. In 2020 we saw, all across our country peaceful protests that morphed into riots. Businesses were destroyed, parts of cities were taken over, hundreds of police officers were injured and many were murdered. Removing a non-lethal tool that police have to restore order in chaotic times is ill advised. Advocates for the bill mentioned that police departments such as Nashua are well trained and they did not know of any misuse of the rubber bullets or tear gas. There was no evidence given to the committee of the abuse of these tools in NH. Vote 12-8.

Rep. Casey Conley for the Minority of Criminal Justice and Public Safety. Events over the last year have demonstrated the need for uniform standards for deployment of non-lethal weapons. This bill made a good-faith effort to establish those boundaries. The minority acknowledges concerns with the language of the existing bill but believe it could have been addressed with an amendment.

The question being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Abramson spoke against.

MOTION TO LAY ON THE TABLE

Rep. Harriott-Gathright moved that **HB 564**, prohibiting the use of rubber bullets and tear gas by law enforcement, be laid on the table.

On a division vote, with 158 members having voted in the affirmative, and 193 in the negative, the motion failed.

The question now being adoption of the majority committee report of Inexpedient to Legislate.

Rep. Conley spoke against.

Rep. Abbas spoke in favor.

Rep. Baxter requested a roll call; not sufficiently seconded.

On a division vote, with 225 members having voted in the affirmative, and 126 in the negative, the majority committee report was adopted.

HB 110, relative to the distribution of adequate education grants. MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.

Rep. Erica Layon for the Majority of Education. Consistent with school funds raised through tax assessments, this bill would direct adequate education grants to the municipality rather than directly to the municipality's school district or districts. This bill increases transparency and addresses disputes which have occurred. Vote 11-9.

Rep. Linda Tanner for the Minority of Education. The minority feels this is an unnecessary bill that will create more paperwork, more layers of bureaucracy, and for regional school districts with multiple towns, a significant increase in the number of financial transactions. During committee testimony, the superintendents, as well as representatives of towns and cities including the municipal association, failed to see the need and confirmed the added burdens and possible issues that could result from this bill.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Steven Smith spoke in favor.

Rep. Tanner spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

HB 194, relative to the release of student assessment information and data. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Glenn Cordelli for the Majority of Education. This bill is parent and local district support legislation. State assessments are mandated by federal legislation which also specifies that the results be provided to parents in a timely fashion. Not providing the results in a timely fashion also risks loss of federal funds. The results are also important information for parents on their child's achievement and growth. This bill simply provides the option for the Department of Education to have the testing agency send the results to the parents directly. This provision is already built into their contract along with data security provisions. Vote 11-9. Rep. Patricia Cornell for the Minority of Education. The minority of the Education Committee feels this is an unnecessary bill that solves a problem that doesn't exist. This bill has the Department of Education (DOE) provide the testing entity with individual pupil names, unique pupil identifiers, and student addresses for the purpose of distributing assessment results. In New Hampshire, we value our privacy and this is a gross breach of privacy. According to the sponsor, parents are not getting the testing results in a timely manner or not at all. According to the DOE representative, in the fall of 2020, the department heard from about 25 parents who were displeased. In turn, the department sent a notice to the building administration and superintendent and offered support. Approximately 25 out of over 150,000 public school pupils had a problem. Schools have procedures in place to meet with parents/ guardians to go over assessments and explain the results; this bill would take away that control. In conclusion, this is a bill to change a policy that is working and doesn't need fixing.

Majority Amendment (0268h)

Amend the bill by replacing all after the enacting clause with the following:

1 Statewide Assessment Program; Assessment Information. Amend RSA 193-C:12 to read as follows:
193-C:12 Pupil Assessment Information.

I. The department shall provide the testing entity as defined in RSA 189:65, VIII, with individual pupil names and unique pupil identifiers. The testing entity shall maintain the results, scores, or other evaluative materials for the purpose of measuring and reporting individual student growth.

II. The department may provide, *or may request the testing entity to provide*, the assessment results and comparative data to a parent, a legal guardian, or the pupil's school as provided in RSA 193-C:11. *The department may collect, and the districts shall provide, student address information from the individual school districts solely for the purpose of effectuating the distribution of assessment results and comparative data as provided in this section.*

III. *The report shall be provided to parents in an informative and instructional manner to help children meet challenging state academic standards and advance student learning,*

IV. The testing entity shall destroy all student data after 8 years.

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill:

I. Permits the department of education to collect student address information for the purpose of distributing assessment results.

II. Requires a testing entity to destroy student data at certain times.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Cordelli spoke in favor.

Rep. Mullen spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

HB 242, relative to the content of an adequate education. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Rick Ladd for the Majority of Education. This bill, as amended, defines an adequate education as rigorous academic study and applied learning in the core knowledge domains. This legislation also establishes the necessary resource elements to be included in the costing of an adequate education, and requires notice to the

legislative oversight committee and parents regarding a public school that is unable to demonstrate it provides an opportunity for an adequate education. Through this input-based costing model, base cost represents the essential per pupil resources to provide a general education student the substantive educational content for the opportunity of an adequate education. The second element of costing an adequate education is identified as differentiated aid and shall support all students with greater educational needs, such as: special education, English language proficiency, and economic disadvantage. The cost of fiscal capacity disparity aid is a separate grant from adequacy and shall be provided to municipalities based upon equalized property valuations per pupil with additional support to improve student academic achievement and growth in all eligible public schools including charter schools. The ultimate purpose of this bill is that of improving educational quality while ensuring that all students regardless of educational need shall benefit from their public school experience and have the opportunity for an adequate education as defined by the legislature. Vote 11-9.

Rep. David Luneau for the Minority of Education. Overall, NH students perform very well and, in fact, rank among the best in the country. Student outcomes are measured using a combination of student performance on statewide assessment tests, graduation rates, and attendance rates. In districts with higher incidences of poverty, student outcomes are well below state average and these school districts spend less on education than do districts serving more affluent communities. The lack of access to financial resources leaves many districts unable to provide the opportunity for an adequate education and inequities manifest themselves in more needy districts through lower student outcomes and higher property tax burdens. This bill changes the criteria for an adequate education, adds a provision for third parties to issue certificates for high school graduation credit with no accountability to the local property taxpayer via the local school board, and defines the cost of education in terms of things as opposed to achieving student outcomes. The minority believes that the proposed changes will have a negative effect on student outcomes, and, most importantly, do nothing to address student inequities. A student-centered approach is what we need.

Majority Amendment (0262h)

Amend the bill by replacing section 5 with the following:

5 Substantive Educational Content of an Adequate Education; Definition of Academic Standards. Amend RSA 193-E:2-a, VI to read as follows:

VI. In this section:

(a) "Minimum standards for public school approval" mean the applicable criteria that public schools and public academies shall meet in order to be an approved school, as adopted by the state board of education through administrative rules.

(b) "Academic standards" means what a student should know and be able to do in a course, **program**, or at each grade level.

(c) "Curriculum" means the lessons and academic content taught in school or in a specific course or program.

(d) "**Rigorous academic study**" means a course, program, or grade level program aligned with curriculum standards and school approval standards.

(e) "**Applied learning**" means an educational approach whereby students have the opportunity to directly engage in learning activities using knowledge and skills, theories, and models that may be outside of the traditional classroom experience or embedded as part of a course, program, or grade level program.

(f) "**Logic**" means a reasoning skill that better enables a student: to analyze problems in core knowledge domains such as mathematics and to develop problem solutions; to better understand the principle of cause and effect; and to develop critical thinking skills to better identify fact from unverified information or data.

(g) "**Rhetoric**" means the skill of speaking and writing as a means of communication or persuasion.

Amend RSA 193-E:2-b, I(c) as inserted by section 6 of the bill by replacing it with the following:

(c) **Are economically disadvantaged, or attend schools with significant concentrations of economically disadvantaged students. The cost of fiscal capacity disparity aid is a separate grant from adequacy and shall be provided to municipalities with the lowest equalized property valuations per pupil. An additional disparity achievement proficiency aid grant shall be provided to eligible school districts, schools and charter public schools to improve academic achievement and growth of level 1 and level 2 proficiency students as identified in the annual statewide assessment pursuant to RSA193-C:6.**

Amend RSA 193-E:3-b, I(e) as inserted by section 8 of the bill by replacing it with the following:

(e) The commissioner of the department of education shall require any school that is unable to demonstrate that it provides the opportunity for an adequate education through the input-based school accountability system to resubmit the narrative explanations annually until such demonstration has been made. **The commissioner shall provide the legislative oversight committee identified in RSA 193-C:2 with an**

annual status report by November 1. The report shall include any school that is unable to demonstrate that it provides an opportunity for an adequate education through the input-based school accountability system. Notice of this status shall be posted on the school, school district, or chartered school websites. The school, school district or chartered public school shall provide written notice of such status to parents or guardians of students enrolled in the affected school.

Amend the bill by replacing section 9 with the following:

9 Effective Date. This act shall take effect July 1, 2023.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Ladd spoke in favor.

Rep. Luneau spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Cordelli moved that the House reconsider its action whereby, on a roll call vote of 198-149, the House adopted the majority committee report of Ought to Pass with Amendment on **HB 242**, relative to the content of an adequate education.

Rep. Cordelli spoke against.

On a division vote, with 144 members having voted in the affirmative, and 203 in the negative, the motion failed.

MOTION TO LIMIT DEBATE

Rep. Pitaro moved that debate be limited to 5 minutes per side, per bill, without questions.

Rep. Abramson moved to amend the motion to include questions.

MOTION TO LAY ON THE TABLE

Rep. Andrew Bouldin moved that the motion to limit debate be laid on the table.

On a division vote, with 169 members having voted in the affirmative, and 175 in the negative, the motion failed.

The question now being adoption of the motion to limit debate to 5 minutes per side, per bill, including questions.

On a division vote, with 156 members having voted in the affirmative, and 193 in the negative, the motion failed.

MOTION TO PRINT DEBATE

Rep. Graham moved that the debate on **HB 242**, relative to the content of an adequate education, be printed in the Permanent Journal.

Without objection, the Speaker ordered.

DEBATE ON HB 242

Representative Luneau: Thank you, Mister Speaker. Why am I speaking in opposition to HB 242, relative to the content of an adequate education? Doesn't this bill make an adequate education even better? Well, that's not what this bill does and, furthermore, that's not the problem we have with public education. Overall, New Hampshire students perform very well and in fact rank among the best in the country. Student outcomes are measured using a combination of student performance on statewide assessment tests, graduation rates and attendance rates. The problem is it's just not happening everywhere. In districts with higher incidents of poverty, student outcomes are well below state average and these school districts spend less on education than do district serving more affluent communities. The lack of access to financial resources leaves many districts unable to provide the opportunity for an adequate education and inequities manifest themselves in more needy districts through lower student outcomes and higher property taxes. A good example of where this happens is in Manchester, our state's largest school district with 13,000 students. While some districts have average student performance in the 80th percentile, Manchester sits at the bottom closer to the 5th percentile. It's not the kids fault or the fault of the parents or the teachers or the administration or the school community. On a per pupil basis, Manchester spends about half of what many other districts do. Simply, they lack the fiscal capacity to fund their schools in a way that sets their kids up for success. But, rather than do anything that could improve the opportunity for Manchester's 13,000 kids, or Nashua's 11,000 kids or Berlin's kids or the kids in Pittsfield, Newport or Claremont, this bill makes arbitrary snips and clips to the definition of an adequate education and it blasts a huge hole in local control by allowing third parties to issue high school graduation credit with no accountability to the local voters. Who knows what you are going to get? And, your local school board will have no ability to say stop, that is junk, we are not going to go do that. This bill turns its back on student achievement by defining the cost of an adequate education as having 30 desks in a classroom and a line 500 students long waiting to meet with a school counselor. Wow, what a step forward. So, as long as the classroom is chock full of desks, then I guess that's good enough. Good enough for the kids in Manchester. Defining an adequate education in terms of student outcomes is the way forward. It's fair to students and their families and it's good for our workforce and for the New Hampshire economy. This bill just doesn't do it and it takes us in the wrong direction. Let's not do this to our students. Let's vote against this. What students, families, taxpayers and businesses need is a bill that defines an adequate education in terms of student performance. This isn't it and Mister Speaker; I do request a roll call vote. Thank you.

Speaker Packard: The Chair recognizes the member from Haverhill, Rep. Ladd to speak for the committee report.

Representative Ladd: Thank you, Mister Speaker. You might ask why this bill at this time? We're at the frontside of planning for the next biennium and it's important that we get education policy and the definition of adequacy squared away and understood so that finance, when they meet with the chore ahead of them, which is to develop a budget for this state and more specifically in terms of education, a biennium budget for the state in terms of how we are going to fund K-12 education. So this is an extremely important bill. There are some constructs in this bill or considerations that we must build our legislation around. It is the state's duty to define the substantive content of a constitutionally adequate education. It is our job to define adequacy. The way that the funding commission this last year has looked at this, is that they recognize yes, we do have a high achievement scores in our state as a whole or as an average. We always are in the top 5 states in the country. There is no question about that. But what they've done is they figure well if we are achieving that well, the amount of money we are spending totally on education is what we have to fund through adequacy. Negating the fact that we have shared responsibility for instruction and curriculum. That's not a state responsibility. That is a local responsibility. But, the way they have done it is they've taken each year the DOE 25 forms, which are submitted to the department from each school district, which reflects other assets, their revenues and their expenditures and they've taken the average of those expenditures and say that's the amount we are supposed to fund all of our students at. Not segregating from that expense account activities like marching bands, soccer, football, non-adequacy elements. So we are getting now moved into adequacy the costs of an education, which are beyond a state's responsibility. We are seeing moved into that benefit packages, which are negotiated locally that are above and beyond what the state has recommended in the past or what we have seen in base adequacy. You are seeing all this thrown into that average cost. So that is the performance outcome they are looking at. That's not how the majority sees it. It is our responsibility to define adequacy and we've done that. Adequacy is the opportunity for an adequate education as defined as rigorous academic study and applied learning in the core knowledge domains or areas. Some call them subjects. We've gone and looked at those subjects, which are in statute and yes, language arts and writing and reading, they remain. They are very important. They are the base subjects that we have. But there are some subjects that were denigrated back in the 70's when I was a school teacher and later when I was a principal throughout this country and I wrote many a piece of literature looking at what is social studies, social studies. We have now changed that terminology within adequacy to read civic, government, economics, history and geography. It's time to return to these subjects so our kids know that New Mexico is not part of Mexico. We've also changed science, blank science, and reflect what we have in education 306. The state has the responsibility for defining the minimum standards for public school approval. When 306, we look at sciences, well, what are sciences? We have put in what is in 306 right now, biology, physical science and earth science. So we are talking about physics, biology and botany. We are talking about subjects which are important that our youngsters have the opportunity to receive. Health education, we put down health and wellness and one that I have heard on the floor of the House for many years, we have also integrated personal finance literacy. Our students need to come out of school knowing how to balance a checkbook and know that Visa or Mastercard is not the end all. We've also taken several skills which need to be taught throughout all of these subjects and indicated that that's the way it should be done. Computer science, digital literacy, logic and rhetoric. Logic, how to reason. How to see what we think verses what is fact, scientific fact. So, that's one of the constructs that we put in to this bill. Now, the other one is, whatever the state identifies as comprising a constitutional adequate education, the state must pay for it. The costing of education, an adequate education. So, what is an adequate education? We have defined it as base adequacy or base cost. We have defined it as differentiated cost, aid. Now, in the base cost, we have defined those elements or resources that every district needs in order to support children with an adequate education. This includes teachers, specialty teachers, principals, administrative assistants, guidance counselors and it goes on. We have defined this. This comes from the Joint Legislative Oversight Committee we had in 2008. They went through and did this. We also look at what came out of the 2018 task force. We were looking at our funding here in the state. We also looked at that and said that was correct what was done back in 2008. That's what we should have. Now, the local school district decides that their pupil teacher ratio should be 14/1 or 13/1, beyond what we are recommending as an adequate education, that's on the local district. However, that should not be aggravated into the average cost of an education and that DOE 25 and passed on for every student. Now, looking at differentiated aid, we've had that in our legislation in the past. We recognize that there are students which need additional support and help. That is a given and it's understood. Special education students, those with English language proficiency needs and those that come from poverty that's identified through the free and reduced meal plan. Yes, the minority did speak to there is a relationship between free and reduced and poverty and we know there is a relationship between that and the equalized property valuation per pupil and we've written that into this legislation as well. Those kids in the lowest quartile in terms of equalized evaluation per pupil, 85% of them in these municipalities are below proficiency. Well, only 15% are above proficiency, but when you look at the highest quartile in terms of equalized property valuations in our state per municipality, and we have some that are well up to about \$7 million plus per pupil and we have others that are around \$340,000 or \$400,000

per pupil, we are seeing the highest having 40% of their students are below proficiency while 60% are above. There is a change there, however, we are not doing the job. We need to have all children above proficiency or working towards that goal. So, we've added a category that was put in there back in 2008 back into legislation. Fiscal capacity disparity aid and that's based upon equalized property evaluation per pupil and also, we put in a category which deals with achievement. So, districts that have high property values, we know they have large elements of students which are not proficient. Those kids need support as well and we have a responsibility to help all students in this state. In terms of accountability, we've written into this statutory language accountability where those school districts which are not meeting the inputs that we have here that we've addressed in terms of proper resource elements, they will be notification coming from the department to the Joint Legislative Oversight Committee and schools which are not meeting the bar, they will be required to post the status on their websites and to notify parents in writing. We want parents to know that their school is not performing and to get on the stick and get it performing. Now, we have a number of issues that people have not looked at in terms of both the commission, there are number of areas where funding is not necessarily the only answer to an adequate education. There are characteristics that we have to look at which are funded, they impact our outcomes such as community expectation, family aspiration, parental support and engagement, quality of school leadership and supervision added to an engagement of staff, local control. All these things impact adequacy. It's not just going to be throwing more dollars at them. Whatever we do with the costing of an adequate education, it must be sustainable. If you take the report that came out of that commission and look at what the cost is set at, roughly around \$6,000 per student and you look at the weighted formula for special education, which is 4 times that base, plus the base, you are looking at a kid that possibly got an IEP that maybe has 30 minutes per week being supported with \$30,000. That is unbelievable. You can't have the same weighted formula for all kids. You have to weight it properly, but that formula that they used for the estimated cost model has to come up with that average cost based on DOE 25 aggregate. So, you add one, you have to subtract somewhere else. So, I would like to conclude here that what we have here is a priority that we need to look at. We need to assume our responsibilities. We need to define adequacy. We cannot default that to local school districts and let them decide what adequacy is. We will certainly have unsustainable budgets in the future if we do. Thank you very much, Mister Speaker.

Speaker Packard: Rep. Luneau has requested a roll call. Is that sufficiently seconded? It is sufficiently seconded. Members will take their seats. This is a roll call vote. The Chair recognizes Rep. Tanner for a parliamentary inquiry.

Representative Tanner: Thank you, Mister Speaker. If I know that our New Hampshire students perform very well in the top 4 or 5 states in the country. And, if I know this bill defines the base for the cost of an adequate education on resources, rather than student outcomes as recommended by the independent commission on school funding that just concluded after extensive research and development. And, if I know that this adequacy funding method of resources will have a negative effect, not only on student outcomes, but does nothing to address the funding inequities that hurts our students, our taxpayers and our schools, would I now vote no? Thank you.

Speaker Packard: The Chair recognizes Rep. Steven Smith for a parliamentary inquiry.

Representative Steven Smith: Thank you, Mister Speaker. If I know this bill clearly identifies and defines the educational content of an adequate education without defaulting this responsibility to the educational establishment. If I also know the ultimate purpose of this bill was to improve educational quality while ensuring that all students regardless of educational needs or inequities benefit and have access to core educational services and criteria defined by the legislature. And, finally if I believe this bill provides a reasonable policy pathway to determine cost and provide all children in our state the opportunity for an adequate education, would I then push the green button? Thank you, Mister Speaker.

Speaker Packard: The question is on the majority report of Ought to Pass as Amended on HB 242. This is a roll call vote. If you are in favor, you'll press the green button. If you are opposed, you'll press the red button. Voting stations will be open for 30 seconds. Have all members present had an opportunity to vote? The House will be attentive to the state of the vote. 198 voting Nay, 149 voting Nay, the committee report is adopted.

(Rep. Steven Smith in the Chair)

REGULAR CALENDAR - PART II CONT'D

HB 320, requiring a civics competency assessment as a high school graduation requirement. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Michael Moffett for the Majority of Education. This bill, as amended, requires that as a graduation requirement, NH high school students shall score at least 70% on the 128-question citizenship exam created by the U.S. Immigration and Naturalization Service. Provisions are included for districts to make local accommodations for special education students. Numerous other states have already successfully put this requirement in place to better ensure that high school students possess civics education fundamentals in order to be more informed and engaged U.S. citizens. Vote 12-8.

Rep. Patricia Cornell for the Minority of Education. While the minority agrees that civics is an integral component of a student's education, we feel that this bill, requiring students to attain 70% or better on the 2020 Civics Naturalization examination, in addition to a passing grade on the already required civics competencies required by state statutes, in order to graduate, is not the path to accomplish this. High school graduation requirements include one credit in United States and New Hampshire history; 1/2 credit in United States and New Hampshire government/civics; and 1/2 credit in world history, global studies, or geography. Teaching to the test is always discouraged, but that is what this bill would do, with memorized information soon forgotten. Students would memorize the answers, rather than acquiring knowledge and understanding. We believe in local control, and we should trust our local school districts to be providing civics education to our students. If this is not happening, it should be addressed by local school boards.

Majority Amendment (0271H)

Amend the bill by replacing section 1 with the following:

1 Civics Instruction. Amend RSA 189:11, II to read as follows:

II. As a component of instruction under paragraph I, a locally developed competency assessment of United States government and civics that includes, but is not limited to, the nature, purpose, structure, function, and history of the United States government, the rights and responsibilities of citizens, and noteworthy government and civic leaders, shall be administered to students as part of the *required* high school course in history and government of the United States and New Hampshire. [~~Students who attain a passing grade on the competency assessment shall be eligible for a certificate issued by the school district. The United States Citizenship and Immigration Services (USCIS) test may be used to satisfy the requirement of this paragraph.~~] *To be eligible for a graduation certificate, a student shall attain a locally sanctioned passing grade on the competency assessment, and a grade of 70 percent or better on the 128 question civics (history and government) naturalization examination developed by the 2020 United States Citizen and Immigration Services. Schools may modify the naturalization examination for a child with a disability in accordance with the child's individualized education program.* By June 30 of each year, each school district shall submit the results of either the locally developed competency assessment of United States government and civics or the United States Citizenship and Immigration Services (USCIS) test to the department of education.

Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Cornell spoke against.

Rep. Moffett spoke in favor.

Rep. Soti requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

HB 349, relative to certification requirements for school nurses. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Ralph Boehm for the Majority of Education. We should not be micromanaging school districts or the Department of Education (DOE) by telling them what their requirements for hiring nurses should be. In order to get around the requirements, school districts are now renaming the school nurse to another name, or using public health nurses, etc. An RN is an RN and not determined by their college degree. An associate degree nurse must take the same exam called the NCLEX-RN as a bachelor's degree nurse. And not everyone can take this test, you have to apply to take it, and you have to be a nursing school graduate. This bill will allow school districts and the DOE to develop their own criteria. Vote 12-8.

Rep. Linda Tanner for the Minority of Education. The minority sees no reason to repeal the current requirements for specific knowledge and experience that the NH Nurses' association and the NH School Nurses' association state are necessary to provide consistent, competent, and quality care for our school children and for the safety, health, and wellbeing of the students, their parents, the teachers, the staff, and the community at our public schools. Since there is no shortage of school nurses and no reasonable justification to repeal this certification, we feel the current statute should stand.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Boehm spoke in favor.

Rep. Tanner spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Baldasaro moved that the House reconsider its action whereby, on a roll call vote of 201-146, the House adopted the majority committee report of Ought to Pass on **HB 349**, relative to certification requirements for school nurses.

Rep. Baldasaro spoke against.

Motion failed.

PROTEST

I file a written protest regarding the vote on HB 349. We were yelling "Division Vote" repeatedly and not recognized by the Speaker.

Reps. McGhee, Horrigan, Weston, Cushing and Bartlett

PROTEST

Mr. Speaker, I protest the calling of the vote on HB 349 while people were calling for a division. I realize that you cannot easily look at our side, but there must be a way to check on this before calling a vote, to ensure civility in this body.

Rep. Almy

REGULAR CALENDAR - PART II CONT'D

HB 513, relative to the degree granting authority of Signum university and relative to the authority of the higher education commission. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. James Allard for the Majority of Education. This bill requires approval by the higher education commission as a prerequisite to the granting of a degree by an education institution. The bill also authorizes Signum University to grant degrees in New Hampshire. Signum is a new, nonprofit, and independent university with an innovative and completely online structure. The institution currently has one credit-bearing program which is a Master of Arts in Language and Literature and has been given a comprehensive approval by the NH Higher Education Commission comprised of university and college chancellors, presidents, and the commissioner that represent private and public post-secondary institutions. During the past ten years, the legislature has authorized four higher education institutions based upon review and approval from the Higher Education Commission. The majority supports authorizing Signum University, as the committee has been given no cause or reason to do otherwise. Signum has complied with all requests from the commission and is worthy of granting degrees in New Hampshire. Vote 11-8.

Rep. Mel Myler for the Minority of Education. The minority believes that Signum University should not be authorized to grant degrees. In previous testimony, the president of the university demonstrated strong opposition to US Higher Education Act Title IV federal student financial aid programs. The committee believes Signum's non-profit 501(c)(3) status is inconsistent with their objection to accept federal student financial aid. For at least these reasons, we believe that degree-granting authority should be denied.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Allard spoke in favor.

Rep. Luneau spoke against and requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.
Rep. Megan Murray voted Yea and intended to vote Nay.

(Speaker Packard in the Chair)

REGULAR CALENDAR - PART II CONT'D

HB 609-FN-L, relative to innovation schools. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Alicia Lekas for the Majority of Education. With this bill, a public school can request a waiver from state regulations which may interfere with an innovative idea to better provide the opportunity for an adequate education for all students. The process to initiate and implement an innovation plan begins with the local school and is enacted by that school if approved by the school board, the public, and the Department of Education. This process must follow local collective bargaining agreements. If the proposed plan does not follow the local agreement, the school must renegotiate the agreement in order to implement the plan for creating an innovation zone. In summary, this legislation will provide districts and schools support in meeting challenges resulting from declining student demographics and related program and funding issues. Vote 11-9.

Rep. Stephen Woodcock for the Minority of Education. The minority believes that this bill is not needed. The bill presents itself as legislation that would provide the opportunity for innovation in public schools, which currently already exists in every NH public school. As recently as this fall, NH has been the incubator for many innovative schools; we call them charter schools, and 33 currently exist. This bill lacks clear definition in many places regarding terminology such as "each public school that would be affected by the plan shall have an opportunity to participate" what does that mean actually? Furthermore, during testimony, the prime sponsor clearly indicated that the bill would not authorize waiving the collective bargaining agreement provisions, but indicated that the issue could be taken up with the bargaining agent. The bill provides little, if any, oversight, lacks local control, except for the initial approval by the local school board, it doesn't include a fiscal note, and has no mention of teacher involvement in the development of the Innovative School Plan.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Woodcock spoke against.

Rep. Alicia Lekas spoke in favor and yielded to questions.

Rep. Cordelli requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Ladd moved that the House reconsider its action whereby, on a roll call vote of 192-156, the House adopted the majority committee report of Ought to Pass on **HB 609-FN-L**, relative to innovation schools.

Rep. Ladd spoke against.

On a division vote, with 147 members having voted in the affirmative, and 198 in the negative, the motion failed.

MOTION TO REFER TO COMMITTEE

Rep. Howard moved that a remonstrance regarding several RSAs and their constitutionality be referred to committee.

MOTION TO LAY ON THE TABLE

Rep. Ley moved that the motion to refer the remonstrance to a committee be laid on the table.
Rep. Binford requested a roll call; sufficiently seconded.

SPECIAL ORDERED

Without objection, the Speaker made the remaining bills on today's calendar Special Orders for the next Session day in their regular calendar order.

RESOLUTION

Rep. Osborne offered the following: RESOLVED, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet at the Call of the Chair.
Motion adopted.

LATE SESSION**Third Reading and Final Passage**

HB 197, relative to the use of deadly force in defense of another.
HB 110, relative to the distribution of adequate education grants.
HB 194, relative to the release of student assessment information and data.
HB 242, relative to the content of an adequate education.
HB 320, requiring a civics competency assessment as a high school graduation requirement.
HB 349, relative to certification requirements for school nurses.
HB 513, relative to the degree granting authority of Signum university and relative to the authority of the higher education commission.
HB 609-FN-L, relative to innovation schools.

UNANIMOUS CONSENT

Rep. Copp requested Unanimous Consent of the House regarding a declaration of American rights and principles for an American sanctuary and addressed the House.
Rep. Marsh objected.

The question being shall the member be allowed to continue speaking with consent of the House?
On a division vote, with 88 members having voted in the affirmative, and 162 in the negative, the member was not allowed to continue.

RECESS MOTION

Rep. Osborne moved that the House stand in recess for the purposes of the introduction of bills, vacate motions, enrolled bill amendments and enrolled bill reports and receiving messages.
Motion adopted.

The House recessed at 1:50 p.m.

RECESS

(Speaker Packard in the Chair)
