No. 9

HOUSE JOURNAL NO. 8 (Cont'd)

Thursday, June 3, 2021

Rep. Osborne moved that the House adjourn.
Motion adopted.

HOUSE JOURNAL NO. 9

Friday, June 4, 2021

The House assembled at 10:00 a.m., the hour to which it stood adjourned, and was called to order by the Speaker.

Prayer was offered by House Chaplain, Reverend Bob Stewart, Pastor of St. Paul's United Methodist Church in Manchester.

Pope Francis developed a 5-finger prayer to teach us how we can use our hands in a more meaningful way. He teaches us to use each of the fingers to pray for the various groups or areas that touch each of our lives. The first finger we start with is the thumb. It is the closest finger to us so we should pray for those that are closest to us. We pray for our family and friends. The second finger we pray is the pointing finger, called the index finger. We pray for those that point our lives in a right direction. We pray for all the parents of children. We ask God to help guide them as they guide their children through life. We pray for all the many teachers and administrators who teach or have taught our children and us as well over the years. The third finger on the hand is the Tallest finger and it reminds us to pray for all our leaders. We pray for all that lead this great State in so many various ways. I pray for You, each elected Representative, and I pray for this House Session today. The fourth finger is the ring finger, and it is considered to be the weakest of the five. It should remind us to pray for those that are weak and sick. Those that are plagued with problems. We pray for those that might not have the hands and fingers to pray this prayer, our loving God sends us, so we become their hands and feet. And the last finger and certainly not the least in importance is the smallest of the five fingers, the pinkie finger. This should remind us to pray for ourselves. Pray that God will guide you each day, this day, and in all the days ahead. O loving and gracious God, as we gather for today's session, may we be your hands and feet today and every day. Guide us and lead us that our leadership will be pleasing to you O God. Amen.

Representative Michael Harrington, member from Strafford, led the Pledge of Allegiance.

The National Anthem was sung by the member from Rochester, Representative Susan DeLemus.

LEAVES OF ABSENCE

Reps. Cleaver, Crawford, Mary Griffin, Littlefield, Lundgren, Mason and Pantelakos, the day, illness.

Reps. Cote, Depalma IV, Dostie, Kilanski, Marsh, McBeath, Milz, Myler, O'Hearne and Timothy Smith, the day, important business.

Reps. Elliott and Moran, the day, illness in the family.

UNANIMOUS CONSENT

Rep. Abrami requested Unanimous Consent of the House regarding memorial remarks for the Honorable Rogers Johnson, the former member from Statham and addressed the House.

MOMENT OF SILENCE

A moment of silence was observed in honor and in memory of the former member from Stratham, the Honorable Rogers Johnson.

MOTION TO PRINT REMARKS

Rep. Cushing moved that the remarks made by Rep. Abrami during Unanimous Consent be printed in the Permanent Journal.

Motion adopted.

REMARKS

Representative Abrami: Thank you, Mister Speaker. I rise to make memorial remarks about Rogers Johnson of Stratham who served in this House from 2001 to 2006. We have with us today Portia Rogers, wife and sons Jay and Jeremy. I would like to recognize all those who served with Rogers during all or part of that 2001 to 2006 period. That would be members present today who mark this as their ninth term or greater. Can you all please stand for a moment? I would love for each of those members who just stood to share a memory of Rogers, but instead here are two memories from current members who were in this House then serving with him. Ken Weyler told me usually freshmen aren't selected to be on the Finance Committee. But Rogers so impressed him an exception was made. Kenny continued by saying Rogers didn't disappoint. He brought his valuable expertise in health care and insurance to the Finance Committee. Jordan Ulery told me he admired Rogers conservative credentials, reasoned logic, and his keen intellect. Rep. Ulery continued by saying after Rogers left the NH House for federal service, that we would run into him at national conventions where they would continue their philosophical conversations, something they both always enjoyed. This former State Representative, who was a member of the Finance, Health and Human Services, Rules Committee, and also rose to Majority Whip, passed on November 12 at the age of 62. Yes, he was too young and, yes, in this case, the old adage, "The good die young" is true. Rogers grew up in Rye, New York. According to family, their home was near a park where the boys played sports it seemed almost 24/7. His family also recalls he was a natural athlete. Rogers first experiences in New Hampshire were when he attended Philips Exeter Academy as a youth. He went to college at Ohio Wesleyan University in Delaware, Ohio where he met his future bride Portia, known as Poppy by friends. Poppy told me it was after their first date that he told her I am going to marry you someday. Obviously, Rogers was a confident young man and actually true to his word. Also, in Ohio he first met and worked for a young Congressman John Kasich, with whom he became a lifelong friend. Kasich was quoted in the press upon Rogers' passing, "Rogers was very smart and very kind." Kasich was Chair of the US House Budget Committee the last time the federal budget was balanced back in the 1990's. After college Rogers held a variety of senior positions in the insurance industry. He came back to New Hampshire to study for his master's degree in health administration at UNH in Durham where he received his degree in 1999. After his three terms in the New Hampshire House, Rogers served for three years in DC when President George W. Bush asked him to become Director of Governmental Affairs at the US Department of Education from 2007 to 2009. When he came back to New Hampshire, he worked in the insurance industry once again and on various political campaigns including presidential runs by Kasich. Many of you know Rogers best as the President of the Portsmouth branch of the NAACP as well as the Treasurer of the NE Area Conference of the NAACP. Governor Sununu said of Rogers, "He was always laser focused on making New Hampshire a more diverse and equitable state." In the year before his passing, in addition to his duties at the NAACP, Rogers was Chair of the Governor's Advisory Council on Diversity and Inclusion, was a member of the Governor's COVID-19 Equity Response Team, and was a member of the Commission on Law Enforcement, Accountability, and Transparency. There were many media stories, print, TV and radio about Rogers passing both in New Hampshire and regionally. There are quotes from government, religious, law enforcement, and civil rights leaders all praising the character of this man and his ability as a leader. Governor Sununu's sentiments that, "All of New Hampshire mourns his passing" are echoed in all of these quotes. These quotes are just a google away. Before I close, let me reflect on my memory of Rogers. When I first ran for State Rep 11 years ago, I reached out to all former Republican State Reps from Stratham to learn about the role. One of the first to get back to me was Rogers. He told me that he would come to my house. It was a beautiful Spring day as we sat on my screened-in porch for two hours discussion what a run would take and the role of Rep in New Hampshire. When we were done, he paused and pulled a pocket New Hampshire Constitution from his light jacket and simply said read it which I did and glad I did. We would periodically communicate with each other on issues, but we met face to face every two years during my reelection runs. I would go to his house and sit on his front porch in late Spring and talk politics. I was always greeted by Poppy or one of his sons whom I got to know. This year was no exception. The last time I chatted with Rogers was in late June on his front porch. He told me he had never been so busy. He also gave me an update on his two sons. Jay who graduated from the University of Alabama and is doing quite well in the cybersecurity field and Jeremy who is in his last year at the Naval Academy. He was a proud father. These two exceptional young men are his and Portia's true legacy. Rogers was the youngest of eight children and is survived by many family members. Of note is his Mother Mary who turned 100 this past August. From all the Members of this House, rest in peace the Honorable Rogers Johnson. There is no question you have earned the title of "Honorable." Your life and positive contributions will not be forgotten.

Poppy, Jeremy and Jay Johnson were present and recognized by the House.

REGULAR CALENDAR CONT'D

SB 123, relative to employer payment of required COVID-19 testing. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Gregg Hough for the Majority of Labor, Industrial and Rehabilitative Services. This bill as amended would make it unlawful for employers to require employees to pay for a medical test that the employer may require as a term of employment. Also, it would make it unlawful for employers to require a COVID-19 vaccination as a condition of employment until such time the FDA has given full approval of the vaccine's safety and efficacy. Vote 11-9.

Rep. Dan Toomey for the Minority of Labor, Industrial and Rehabilitative Services. The minority of the committee voted against passage of this bill, mainly due to the inclusion of an amendment that made it unlawful for an employer to require an employee to have received a COVID-19 vaccination as a condition of employment until such time as the vaccine had received final approval of the Federal Drug Administration (FDA). The minority felt that there is sufficient evidence to conclude that current COVID-19 vaccines are safe and that a wait for final approval by the FDA would constitute an unnecessary obstacle to employers who are acting out of a concern to protect the health and safety of all of their employees.

Majority Amendment (1758h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to employee payment of medical testing and employment requirements for COVID-19.

Amend the bill by replacing all after the enacting clause with the following:

1 Payment for Medical Testing. Amend RSA 275:3 by replacing it with the following:

275:3 Payment for Medical Examination, *Test*, or Records Furnished. It shall be unlawful for any employer, as defined in RSA 275:4, to require any employee or applicant for employment to pay the cost of a medical examination, *test*, or the cost of furnishing any records required by the employer as a condition of employment.

2 New Subdivision; COVID-19 Employment Requirements. Amend RSA 275 by inserting after section 77 the following new subdivision:

COVID-19 Employment Requirements

275:78 COVID-19 Employment Requirements.

I. It shall be unlawful for any employer, as defined in RSA 275:4, to require any employee or applicant for employment to have received a COVID-19 vaccination as a condition of employment, unless the vaccination has received final approval from the Federal Drug Administration.

II. Paragraph I shall not apply to health care providers.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill prohibits an employer from requiring that an employee or applicant for employment pay the cost of any medical test as a condition of employment. This bill also prohibits certain employers from requiring a COVID-19 vaccination that has not received final FDA approval as a condition of employment.

MOTION TO LAY ON THE TABLE

Rep. Infantine moved that **SB 123**, relative to employer payment of required COVID-19 testing, be laid on the table.

On a division vote, with 355 members having voted in the affirmative, and 10 in the negative, the motion was adopted.

REGULAR CALENDAR CONT'D

SB 137, relative to the minimum hourly rate for tipped employees. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Brian Seaworth for the Majority of Labor, Industrial and Rehabilitative Services. This bill addresses the statutory "base rate" for tipped employees and corrects a potential problem with the existing law. Employees who earn their pay through tips still must receive the \$7.25 minimum wage and the employer is responsible to see that this happens. Federal law allows an employer to consider income received through tips, but up to a limit. That limit is \$5.12, meaning a minimum of \$2.13 must be paid directly by the employer. The NH number is higher, codified as a percentage of \$7.25. Tying our rate to a calculation deprives us of the opportunity to evaluate whether rate changes make sense for NH. As amended, this bill ties our rate to the federal figure, as we do the minimum wage itself, but sets a floor at the current state rate. In addition, it adds recently-allowed cigar bars to the list of authorized employers. The bill is written so as to take effect only after the federal rate is raised. If the federal rate remains unaltered, state law will also remain as-is. The majority believes that passing this law will provide stability for the hospitality segment of NH's economy. The amendment removes some complexity from the original language of the bill. Vote 11-8.

Rep. Joshua Adjutant for the Minority of Labor, Industrial and Rehabilitative Services. The minority of the labor committee believes that this bill is bad for workers, and at the same time, bad for the businesses in the hospitality industry. A recent article in Newsweek Magazine talked about the restaurant chain Denny's and their fight to leave the National Restaurant Association because, while this organization howls calamity all over the country about how raising the minimum wage will be devastating, they're admitting to these businesses that this isn't actually the case. The minority believes that workers should reasonably be able to expect what their paychecks will be at the end of the week, and as such, freezing the tipped minimum at the ghastly \$3.27 and having those hard working people rely on tips doesn't accomplish that goal. The minority would support an Inexpedient to Legislate motion on this bill, so that a real minimum wage bill could be brought before the House and those who labor can get a fair shake.

Majority Amendment (1596h)

Amend the bill by replacing section 1 with the following:

1 Minimum Hourly Rate; Tipped Employees. Amend the introductory paragraph of RSA 279:21 to read as follows:

Unless otherwise provided by statute, no person, firm, or corporation shall employ any employee at an hourly rate lower than that set forth in the federal minimum wage law, as amended. Tipped employees of a restaurant, *cigar bar as defined in RSA 178:20-a, II*, hotel, motel, inn or cabin, or ballroom who customarily and regularly receive more than \$30 a month in tips directly from the customers will receive a base rate from the employer of not less than ~~[45 percent of the applicable minimum wage]~~ ***the minimum direct wage as set forth in the federal minimum wage law, as amended, but in no case less than \$3.27 per hour.*** If *such* an employee shows to the satisfaction of the commissioner that the actual amount of wages received at the end of each pay period did not equal the minimum wage for all hours worked, the employer shall pay the employee the difference to guarantee the ~~[applicable]~~ ***federal statutory*** minimum wage. The limitations imposed hereby shall be subject to the following exceptions:
Majority committee amendment adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Adjutant spoke against and yielded to questions.

Rep. Infantine spoke in favor and yielded to questions.

On a division vote, with 201 members having voted in the affirmative, and 171 in the negative, the majority committee report was adopted and the bill was ordered to third reading.

MOTION TO PRINT REMARKS

Rep. Espitia moved that the remarks made by Rep. Rogers during Unanimous Consent on Thursday, June 3, 2021, be printed in the Permanent Journal.

Motion adopted.

REMARKS

Representative Katherine Rogers: Thank You Mister. Speaker. Once in a while, a life passes that requires all of us to pause and take note of it... a life of service, of influence, of kindness and strength. I speak today to honor and to remember former Vice President Walter F. Mondale, who passed away on April 19. I was fortunate to work for and know Mr. Mondale. He was an enormous influence on my life. Many viewed the former Vice President as stiff and humorless. The man I came to know was far different. He was a wonderful mentor who sent me the first campaign donation I ever received for my campaign for Representative to the NH House with a handwritten note telling me how proud he was to see that I was entering public service. He was also the man who loved to tease me when I was a young organizer. I remember when I worked in New Mexico and told him on a drive in from the airport heading to a large rally how thrilled I was to finally obtain Mondale campaign signs in Spanish. He looked at me and laughed. And said, "But Kathi aren't our signs already in Spanish?" You see the Mondale campaign signs were simply signs with the name MONDALE in large white letters on a blue background. I explained to him that the Spanish signs had added the word VIVA. He again laughed and said but isn't MONDALE the same in any language? Would you believe it took him about 20 minutes of teasing before I understood what he was saying! I like to think I am less gullible these days. The son of southwestern Minnesota, Walter Mondale rose to the forefront of US politics serving alongside former President Jimmy Carter. In 1984, he was the Democratic party's nominee for president in a race against Ronald Reagan. Though he served only the one term with President Carter, many give Mondale credit for re-defining the role of the office of the vice presidency... he turned it into a full partnership, and he helped provide a "model" for those who came after him. Fritz, as he was known to close friend and allies, served as Minnesota's attorney general fighting for civil rights, anti-trust and consumer protection cases, and became known as a leader who had great compassion for the downtrodden... a well-educated and well-spoken man who appealed to blue-collar families because of his hard work and because of his heart. In 1966 Mondale began his career in the US Senate which was marked by advocacy of social issues such as education, housing, migrant workers and child nutrition and he was an out-

spoken supporter of civil rights. President Biden said that few senators had commanded such universal respect as Mr. Mondale. “He may have been modest and unassuming in manner, but he was unwavering in his pursuit of progress; instrumental in passing laws like the Fair Housing Act to prevent racial discrimination in housing, Title IX to provide more opportunities for women, and laws to protect our environment,” he said. “On the wall in the Carter Museum are Mondale’s powerful words: ‘We told the truth. We obeyed the law. We kept the peace.’ Those words define his life — he fought hard for policies that improved people’s lives and he had a strong moral compass to guide him. When I worked for Mr. Mondale, his campaign had a nickname for our group of dedicated campaign workers — we were known as Mondale Hogs. Why you may ask would we call ourselves that and why does that sense of pride and unswerving unity still exist in that name some 36 years later? And why do I wear my hog button even today as I appear before you? Let me tell you a little story about your breakfast; You have your eggs and your bacon. The chicken was involved with your breakfast by producing the eggs, But the HOG - now the Hog was truly committed to your breakfast! No turning back no second thoughts no regrets just true honest to God full throttle commitment! The Mondale Hogs were committed to Walter Mondale and his vision for a fairer more compassionate world for our fellow men and women. Vice President Mondale’s Hogs have scattered across not only this country but around the globe and we may be a little grayer and little slower and yes, a lot older but we still believe in what this man taught us and we still believe in his ideals of equal rights and fairness for all people. Goodbye Vice President Mondale. Thank you for your contributions and your kindness, for your stalwart commitment to the cause of helping others. You will not be forgotten.

REGULAR CALENDAR CONT'D

SB 52, relative to municipal charter provisions for tax caps. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Diane Pauer for the Majority of Municipal and County Government. This bill clarifies legislative intent and resolves technical issues in current state statute. First, this bill validates tax or spending caps adopted by municipalities before July 5, 2011. When NH laws were revised in 2011 to authorize cities and towns to locally adopt a cap on taxes or spending, subject to an override provision, the clear intent of the NH legislature was to protect previously adopted tax or spending caps “of any kind” with a grandfather provision in RSA 49-B:13, II-a. In 2019, the N.H. Supreme Court ruled with a 3-2 split decision that the last sentence in RSA 49-B:13, II-a invalidates this grandfather provision, thereby threatening the validity of all tax or spending caps adopted by municipalities prior to 2011. SB 52 reinforces the legislature’s unambiguous intent that tax or spending caps adopted, revised or amended by municipalities before July 5, 2011 are valid, legal and fully enforceable after that date. Second, this bill addresses a technical issue in RSA 49 Sections C and D relating to budget items not subject to the cap. According to the 2011 statute, a tax or spending cap adopted by cities or towns allows for specific enumerated budget items, such as enterprise funds, to be excluded from the cap. SB 52 adds additional budget items that may be excluded from the cap, namely interest and principal payments on municipal bonded debt, and capital expenditures. Both the exclusion provision and the override provision lower the limit of the municipal budget subject to the cap. At present, state statute is silent with regard to the vote requirement for exclusion. SB 52 requires that any municipal action that redistributes excludable budget items from within the limit of the capped budget to outside such limit shall require a supermajority vote which is the same supermajority vote requirement to override the cap. Vote 10-9.

Rep. Julie Gilman for the Minority of Municipal and County Government. This bill proposes to repair an issue perceived by a few residents of Nashua to be a problem in the city’s charter and actions taken under that charter. Nashua’s charter provides for spending limits (so called tax cap) with certain defined exclusions, exceptions and exemptions as approved by a supermajority of their legislative body. Voters of Nashua have voted in support of using exceptions and exclusions since this was established in 1993. The sponsor and bill proponents argued that a lawsuit they brought against the city proved their interpretation of the charter is correct. However, the court found these residents had no standing in the matter and dismissed the case. This bill is a local issue that can be solved through the democratic process of charter amendments or elections. A majority of those registering an opinion on this bill are opposed. The state does not need to revise state-wide law because a small group of people are unhappy with local decisions approved by a majority of their voters. For these reasons, the minority of the committee recommends Inexpedient to Legislate.

MOTION TO LAY ON THE TABLE

Rep. Maggiore moved that **SB 52**, relative to municipal charter provisions for tax caps, be laid on the table. On a division vote, with 186 members having voted in the affirmative, and 186 in the negative, the motion failed.

CLERK’S NOTE

The original vote was 186-185. Pursuant to House Rules 5 and 23, the Speaker voted “Nay” which created a tie vote therefore the motion failed.

The question now being adoption of the majority committee report of Ought to Pass.

Rep. O’Brien spoke against.

Rep. Pauer spoke in favor.

MOTON TO INDEFINITELY POSTPONE

Rep. Maggiore moved that **SB 52**, relative to municipal charter provisions for tax caps, be Indefinitely Postponed.
Rep. Turcotte requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

SB 86-FN, adopting omnibus legislation relative to planning and zoning. MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.

Rep. Richard Lascelles for the Majority of Municipal and County Government. The majority felt this omnibus legislation should pass as amended. Part I of the bill streamlines the procedures performed by local planning boards with respect to third-party inspections. Part II of the bill prohibits requiring electric heat as the only alternative for new construction. Vote 10-9.

Rep. Laurel Stavis for the Minority of Municipal and County Government. This bill attempts to deal with the state's housing shortage by creating a New Hampshire Housing and Conservation program, allowing developers to conduct third-party inspections pursuant to planning board approval, and prohibiting municipalities from mandating certain types of heating and energy systems. The minority of the committee offered an amendment removing the prohibition against heating systems, as it was seen as a concession to the propane industry. The bill, however, was a good and necessary step towards addressing the lack of housing in our state. Instead, the majority of the committee amended it by stripping it of its core, removing the Housing and Conservation program and leaving the sections on inspections and heating systems intact. We now have a bill the minority believes favors developers and the fossil fuel industry while ignoring the Granite State's housing crisis. The minority of the committee recommends ought to pass on the bill as amended by the minority, and we continue to hope that the legislature will recognize that something must be done to address New Hampshire's lack of affordable housing.

Majority Amendment (0964h)

Amend the bill by replacing section 1 with the following:

1 Sponsorship. This act consists of the following proposed legislation:

Part I. LSR 21-0856, relative to third party inspections conducted pursuant to a planning board approval, sponsored by Sen. Kahn, Prime/Dist. 10; Sen. Watters, Dist. 4; Rep. McConkey, Carr. 3.

Part II. LSR 21-0829, relative to prohibiting the installation of certain commercially available heating systems and engaging the services of certain energy providers, sponsored by Sen. Morse, Prime/Dist. 22. Amend section 2 of the bill by replacing all after Part I with the following:

PART II

Prohibiting the Installation of Certain Commercially Available Heating Systems and Engaging the Services of Certain Energy Providers.

1 New Paragraph; State Building Code. Amend RSA 155-A:2 by inserting after paragraph V-a the following new paragraph:

V-b. Notwithstanding paragraph V, no county, city, town, village district, local land use board, or other subdivision of this state shall adopt any ordinance, regulation, code, or administrative practice that prohibits or restricts a person or entity from installing a safe and commercially available heating or other energy system of their choice or to engage the services of an energy provider of their choice to install, connect, or resupply such energy system. In this paragraph, "energy provider" means a qualified and licensed distributor of oil, propane, natural gas, or other company or entity that supplies energy or related services to the public.

2 New Paragraph; Local Land Use Planning; Power to Amend State Building Code. Amend RSA 674:51 by inserting after paragraph V the following new paragraph:

VI. Notwithstanding paragraph I, no county, city, town, village district, local land use board, or other subdivision of this state shall adopt any ordinance, regulation, code, or administrative practice that prohibits or restricts a person or entity from installing a safe and commercially available heating or other energy system of their choice or to engage the services of an energy provider of their choice to install, connect, or resupply such energy system. In this paragraph, "energy provider" means a qualified and licensed distributor of oil, propane, natural gas, or other company or entity that supplies energy or related services to the public.

3 Effective Date. Part II of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. Third party inspections conducted pursuant to a planning board approval.

II. Prohibiting the installation of certain commercially available heating systems and engaging the services of certain energy providers.

Rep. Baldasaro requested a roll call; sufficiently seconded.

and the majority committee amendment was adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.
Rep. Stavis offered minority committee amendment (1404h).

Minority Amendment (1404h)

Amend section 1 of the bill by replacing Part III with the following:

Part III. Relative to structures built prior to legislation restricting heating and energy systems.
Amend Part III of the bill by replacing it with the following:

PART III

Relative to Structures Built Prior to Legislation Restricting Heating and Energy Systems.

1 New Paragraph; State Building Code. Amend RSA 155-A:2 by inserting after paragraph V-a the following new paragraph:

V-b. Notwithstanding paragraph V, any city, town, village, local land use board, or other subdivision of this state that adopts an ordinance, regulation, code, or administrative practice, hereafter collectively known as "ordinances", to restrict the form of heating or energy sources, shall permit any structure that predates such ordinance to continue using its current form of heating or energy sources and shall not make any requirements of such properties that they comply with such new ordinances.

2 New Paragraph; Local Land Use Planning; Power to Amend State Building Code. Amend RSA 674:51 by inserting after paragraph V the following new paragraph:

VI. Notwithstanding paragraph I, any city, town, village, local land use board, or other subdivision of this state that adopts an ordinance, regulation, code, or administrative practice, hereafter collectively known as "ordinances", to restrict the form of heating or energy sources, shall permit any structure that predates such ordinance to continue using its current form of heating or energy sources and shall not make any requirements of such properties that they comply with such new ordinances.

3 Effective Date. Part III of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. Third party inspections conducted pursuant to a planning board approval.

II. Establishing the New Hampshire housing and conservation planning program.

III. Prohibiting municipalities that adopt an ordinance, regulation, code, or administrative practice from enforcing it against a structure that predates such ordinance, regulation, code, or administrative practice.

Rep. Stavis spoke in favor.

Rep. Dolan spoke against and yielded to questions.

Rep. Burt requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

MOTION TO PRINT DEBATE

Rep. Stavis moved that the debate on **SB 86-FN**, adopting omnibus legislation relative to planning and zoning, be printed in the Permanent Journal.

On a division vote, with 187 members having voted in the affirmative, and 175 in the negative, the motion was adopted.

DEBATE ON SB 86-FN

The question is on the majority committee amendment.

Speaker Packard: A division has been called. Roll call has been called. Is that sufficiently seconded? It is sufficiently seconded. This will be a roll call vote. Members will take their seats. The Chair recognizes Rep. Porter for a parliamentary inquiry.

Representative Porter: Thank you, Mister Speaker. Mister Speaker, if I know this amendment removes a very important section of SB 86. One that helps address our housing shortage in New Hampshire, then would I please vote no on this amendment? Thank you.

Speaker Packard: The Chair recognizes Rep. Dolan for a parliamentary inquiry.

Representative Dolan: Thank you, Mister Speaker. If I know that the original Part 2 is about housing and is nongermane to planning board inspections and selecting energy for homes. And if I know that maintaining Part 1 and Part 3 is very important to preserve citizen choice for energy selection. And if I know the old Part 2 weakens the bill and needed to be removed, would I now press the green button to pass the amendment that was passed unanimously by the committee majority?

Speaker Packard: The motion before us is a roll call vote. State your point of order.

Representative Porter: Mister Speaker, I don't believe the majority of the committee voted for this amendment. I believe that the committee vote was 10-9 on this amendment.

Speaker Packard: Representative, I don't know. I don't have the committee report in front of me so I don't know what the vote is. I don't know. This was a parliamentary inquiry. The question before us is the majority amendment on SB 86, amendment (0946h). Everybody understand what they are voting on? This is a roll call vote. If you are in favor, you will press the green button. If you are opposed, you will press the red button.

Voting stations will be open for 30 seconds. Have all members present had an opportunity to vote? The House will attend to the state of the vote. 204 voting Yea, 168 voting Nay, the majority committee report is adopted. Majority amendment is adopted. The minority amendment is (1404h) printed in House Record 26, pages 76-.

Representative Stavis: Mister Speaker, I couldn't get to the microphone fast enough, but I move that the remarks of the previous debate be listed in the Permanent Journal.

Speaker Packard: Do you want to wait until the whole debate is over?

Representative Stavis: I got a little eager. I apologize. Yes, I would like to wait.

Speaker Packard: The minority amendment is being offered by Rep. Stavis who is recognized to speak.

Representative Stavis: Thank you, Mister Speaker. Mister Speaker, I rise to offer amendment (1404h) that would make one small change to SB 86 as it came to us from the Senate. We think this is a good bill overall. It will make it easier for developers to do business in New Hampshire and encourage the state to begin solving a crisis in housing unlike any we've ever seen. The change we seek only affects the third part of SB 86 by allowing municipalities.

Representative Dolan: Mister Speaker, point of order.

Speaker Packard: What is your point of order.

Representative Dolan: Are we entertaining PI's at this point? It doesn't sound like a PI.

Speaker Packard: No, this is the debate. She is speaking to the amendment.

Representative Dolan: I got it. I'm sorry.

Speaker Packard: You may continue Representative.

Representative Stavis: Thank you, Mister Speaker. The change we seek only affects the third part of SB 86 by allowing municipalities to move forward with environmentally sound energy policies while making it clear that any such efforts much grandfather existing structures, thus not requiring them to retrofit or otherwise meet more energy efficient criteria. We offer this amendment because we believe in granting cities and towns control over their own destinies. This legislature does have the authority to dictate what municipalities can and can't do. It's a lot of power, power that comes with the responsibility to make sure we invoke it only when there is a statewide interest. But simply because we can doesn't mean we should. The outright ban on energy systems in the original version of SB 86 is not a statewide interest. In fact it is government overreach in its purest form because what works for one town may be impossible for another. We shouldn't be in the business of forcing or prohibiting mandates that favor some towns and cities over others as section 3 of SB 86 in its original form clearly does. Instead our amendment shares power with municipalities by allowing them to adopt energy mandates while exempting their existing buildings. The amendment achieves the overall goal of SB 86 while not forcing unreasonable and untenable cost burdens on established homes and businesses. But why support this you may ask when this legislature has so far voted down more than 5 good bills this session that seek to address New Hampshire's housing crisis? I encourage you to support it because it is good for business. As many of you know I work in a grocery store. This is an industry with razor thin margins. Raising wages in many cases would erase those margins and drive a lot of stores out of business. In my store we are now down to an average of 2 cashiers each day. It's untenable.

Representative Dolan: Mister Speaker, point of order.

Speaker Packard: What is your point of order, Sir?

Representative Dolan: Thank you, Mister Speaker. The original amendment to the bill removed the housing section in committee. The floor amendment being discussed now does not include any language about adding back in the housing section so any discussion of the housing portion of the bill I believe to be out of order.

Representative Stavis: Mister Speaker, I haven't gotten to that yet.

Speaker Packard: I would just. I would just ask the Representative to try and stay within the confines of the, of your amendment.

Representative Porter: Mister Speaker.

Speaker Packard: Why does the member rise?

Representative Porter: If you read the amendment in the House Journal it outlines the 3 sections of the bill that this amendment addresses so this amendment is different than the amendment we just voted on.

Speaker Packard: Okay. Alright. I think we are at a point where I mean I have asked the Representative to confine her remarks to the amendment and I have confidence she will so let's move on.

Representative Stavis: Thank you, Mister Speaker for your confidence. I do believe I am addressing my remarks specifically to the amendment that has been proposed. Let me see if I can find where I left off. In our grocery store, we can't find people to unload trucks, stock shelves, bake birthday cakes, staff the meat counter or the produce section. All across our state businesses are hurting like this because employees who would otherwise love to work for us simply can't because they can't find homes they can afford and homes are where jobs go to sleep at night. There is a bright line connecting New Hampshire's housing crisis to its employment crisis and that line is cutting across every business in our state. All of our businesses, including essential ones like grocery stores, desperately need people in jobs and those people desperately need homes. SB 86 makes a good start at solving these interconnected problems in commonsense ways. It makes it easier for developers to build affordable housing. It creates a housing and conservation program to ensure that we retain the natural beauty of our state.

Representative Dolan: Mister Speaker, point of order.

Speaker Packard: State your point of order.

Representative Dolan: Mister Speaker, we are now drifting back into the housing portion of the bill that's already been eliminated and I believe this is out of order. Section 3, part 3 of the bill which is what this amendment addresses is energy choices and has nothing to do with housing and I would respectfully request that the member not begin a discussion about housing.

Representative Stavis: Mister Speaker if I may.

Speaker Packard: I would just. I would just. Please let me finish. I would just again remind the member. I don't have the amendment in front of me. I don't know what it says so I would just ask that we confine it to the amendment.

Representative Weber: Point of clarification, Mister Speaker.

Speaker Packard: What is your point of clarification?

Representative Weber: Mister Speaker, as I understand it, although the prior amendment removed certain sections, this amendment is trying to return some of those sections and therefore she is speaking to the subject of the amendment and people can then vote it up or down, but it is a further amendment after the amendment that was already adopted and the matter, I believe, is in the amendment.

Representative Stavis: Mister Speaker, may I continue with my remarks?

Speaker Packard: You may continue, Representative. I again just ask that you confine it to the amendment itself.

Representative Stavis: I am speaking to the amendment itself and I have been since I stood up to speak.

Speaker Packard: Well I do have the amendment that is right here and it is about heating systems so I'm trying to give everybody as much latitude as possible so I would. I'm just asking Representative if we can confine it to that and if we can move on, we'll be over with this pretty quickly. The member may continue.

Representative Stavis: SB 86 is a good bill. It should pass this House in its entirety with a small change to section 3 of the bill which prohibits cities and towns from issuing mandates about heating and energy systems. We believe that this is government overreach into the business of towns and cities. That it should not stand and we believe that by gutting the central piece of this bill which deals with housing and conservation in our state, we are defeating the purpose of the Senate bill altogether. I urge you to vote Ought to Pass as Amended on SB 86. Let us begin to solve the housing crisis that has plaguing our state. Thank you, Mister Speaker.

Speaker Packard: The House will be in order. The Chair recognizes Rep. Dolan.

Representative Dolan: Thank you, Mister Speaker. The amendment being put forth today on SB 86 contrary to what you may have been listening to, does not have a single word in it about housing. It talks about heating choices so for you to be considering voting depending on housing, I ask you to look into your calendar. I don't have the page for you, but amendment (1404h) is the amendment we are talking about and if you look at it and read it you will not find a single word about housing. Although the author was given the latitude to speak about housing, I don't believe that this amendment has anything to do with housing.

Representative Stavis: Mister Speaker, point of order.

Speaker Packard: What is your point or order?

Representative Stavis: Are you speaking to me?

Speaker Packard: Are you making a point of order?

Representative Stavis: Yes, thank you. Mister Speaker, with all due respect to my colleague and the Chair of our committee, the amendment we offer restores the central portion of SB 86 that the majority of the committee took out with its amendment so our amendment in fact restores that central piece that does deal with housing, very specifically deals with housing. That is a vital part of this amended bill.

Speaker Packard: Representative, I'm under the understanding that may have been your intent, but that is not what's in the calendar. So I allowed you an awful lot of latitude. I would ask that you give the gentleman, Representative Dolan, the same amount of latitude.

Representative Stavis: Thank you, Mister Speaker.

Representative Dolan: Thank you, Mister Speaker. The floor amendment actually in part 3 does try to provide a grandfathering clause that says if you have current energy choice like propane or home heating oil, you can keep it. You won't be forced to change it but if this amendment does pass, consumers for heating and energy sources could still be banned for certain energy choices for new structures and new construction. There is nothing that limits that. The grandfathering doesn't extend into new construction. This is an attempt to try to get everybody on electric, using electric as their source of energy and we have seen neighboring states, Massachusetts and Vermont, going through their planning boards and.

Representative Stavis: Mister Speaker, point of order.

Speaker Packard: What is your point of order?

Representative Stavis: Mister Speaker, I believe my honorable colleague is misstating the intent of the amendment.

Speaker Packard: Representative, as I said before, I gave you quite a bit of latitude. The claim is that you misstated your amendment. Now your stating that his misstated, he is misstating the amendment. You both can't be right so would you. I'm asking if you would let the member continue and then we will have a vote?

Representative Dolan: Thank you, Mister Speaker. I am looking at page 76 in the calendar on amendment (1404h) and it's an amendment to part 3 which is about energy choices. Nothing about housing. You can look at it for yourself to decide who you choose to believe in this debate. I also know that there is no way to guarantee going forward the choice of independent homeowners and developers about choosing what energy source they want to use and by the way, if gas, propane, natural gas, whatever. If that's eventually eliminated from our choices, think of the number of the hundreds and hundreds of workers that will be put out of work that work in those current industries. Again, this is not without precedent. Vermont and Massachusetts have already moved out by making changes in their local building and zoning laws that limit those choices and want to make sure that you pick electricity in your choice for your new construction. Now, we know that what we are really talking about here if we drill into this. This is electric heat pump technology is how this translates as you unpack it. We know that the technology for electric heat pumps in the winter time when it is below 30 degrees, it is very difficult to get your home about 60 degrees. Lots of complaints have been by the elderly that they are cold and cannot get their homes warmed up and they have to buy secondary heating sources or those little heating cubes you plug into wall outlets to try to get their houses and their condos up to a warm temperature. These are very expensive to run. They are a little bit dangerous and this is not the technology that we should be forcing people into through this backdoor changing of zoning rules and building codes. So I would advise you if you want to maintain the very important issue of consumer choice, that you vote down this amendment (1404h) and press the red button when we get to that point.

Speaker Packard: The motion before us is the minority amendment (1404h). What reason does the member rise?

Representative Harrington: I would like to ask a question.

Speaker Packard: Does the member yield to questions?

Representative Dolan: Yes, I will.

Speaker Packard: The member may inquire.

Representative Harrington: Thank you, Mister Speaker. Thank you, Representative. In the previous speech we heard, there was the reason for grandfathering was stated as so it wouldn't impose on tenable cost on existing structures so would it be safe to assume that going forward, we would be imposing these same untenable costs on future structures?

Representative Dolan: Yes, what we have seen happen and it's not in the amendment, but what we have seen happen in neighboring states is that at some point of time after some number of years of grandfathering, the local community can require you if you have an oil heater in your basement, for you to, to have to take it out and replace it with electric heat pump technology.

Representative McGhee: Mister Speaker. It's Representative McGhee.

Speaker Packard: Yes. Why does the member rise?

Representative McGhee: Thank you. I rise for a point of clarification. I'm a homeowner who actually has ground source heat and electric heat system.

Speaker Packard: Okay, would you like to ask a question?

Representative McGhee: Well I would like to make a clarification as someone who actually has the system.

Speaker Packard: There is no such thing as a point of clarification. If you would like to ask a question of the previous member? Does the member yield to a question?

Representative Dolan: Mister Speaker, I think we have gone long enough on this topic.

Speaker Packard: The member does not yield. The motion before us is the minority amendment (1404h). Are you ready for the question? I was waiting for that. Rep. Burt has requested a roll call. Is that sufficiently seconded? It is sufficiently seconded. This will be a roll call vote. Members will take their seats. This is a roll call vote on minority amendment (1404h). The Chair recognizes Rep. Porter for a parliamentary inquiry.

Representative Porter: Thank you, Mister Speaker. Mister Speaker, if I believe in the Granite State's strong tradition of local control and that the legislature should tread carefully when it comes to imposing one size fits all mandates. And if I know section 3 of this bill does not have anything to do with electric heat, then would I please vote yes for this amendment? Thank you.

Speaker Packard: The Chair recognizes Rep. Dolan for a parliamentary inquiry.

Representative Dolan: Thank you, Mister Speaker. If I know this floor amendment states that any structure that predates a local ordinance to ban certain heating fuels can still use its current form of heating or energy source. And if I know the so called grandfathering for existing homeowners, that the consumer choice for heating or energy sources could still be banned for new structures and new construction. And if I know this floor amendment basically neuters the bill and no longer guarantees consumer choice of energy. And if I know the adjoining states of Massachusetts and Vermont have already started to limit homeowners energy choices through changes in building and zoning codes. And if I know the only way to guarantee consumer choice is to vote red on this floor amendment?

Speaker Packard: The motion before the House is on SB 86 is amendment (1404h). This is a roll call vote. If you are in favor, you'll press the green button. If you are opposed, you'll press the red button. Voting stations are open for 30 seconds. Have all members present had an opportunity to vote? The House will attend to the state of the vote. 168 voting Yea, 207 voting Nay, the minority amendment fails. We are back to the original

bill. We are on to the committee report, the majority committee report of Ought to Pass as Amended on SB 86. Rep. Baldasaro has requested a roll call. Is that sufficiently seconded? It is sufficiently seconded. This will be a roll call vote. Members will take their seats. The motion before us on SB 86 is the majority report of Ought to Pass as Amended. We have no minority PI. We have no majority PI. So again the question is on the majority committee report of Ought to Pass as Amended on SB 86. This is a roll call vote. If you are in favor, you'll press the green button. If you are opposed, you'll press the red button. Voting stations will be open for 30 seconds. Have all members present had an opportunity to vote? The House will attend to the state of the vote. 208 voting Yea, 167 voting Nay, committee report is adopted.

MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. True moved that the House reconsider its action whereby, on a roll call vote of 195-177, the House adopted the majority committee report of Ought to Pass on **SB 52**, relative to municipal charter provisions for tax caps.

Rep. True spoke against and requested a roll call; sufficiently seconded.

(Rep. Steven Smith in the Chair)
MOTION TO RECONSIDER

Having voted with the prevailing side, Rep. Piemonte moved that the House reconsider its action whereby, on a roll call vote of 208-167, the House adopted the majority committee report of Ought to Pass with Amendment on **SB 86-FN**, adopting omnibus legislation relative to planning and zoning. Rep. Piemonte spoke against and requested a roll call; sufficiently seconded.

REGULAR CALENDAR CONT'D

SB 102, adopting omnibus legislation on property taxation. **MAJORITY: OUGHT TO PASS. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Marjorie Porter for the Majority of Municipal and County Government. This bill is enabling legislation consisting of two parts. Part I allows municipalities to establish residential property revitalization zones under the provisions of RSA 79 E. The property tax relief under this provision is for a limited time and incentivizes the repair and rehabilitation of unused or underused residential units, with the goal of increasing available housing. The increased value of the revitalized property will result in increased revenues to the municipality after the relief period lapses. Part II allows municipalities to adopt a property tax exemption for some renewable generation and energy storage systems, protecting the savings these systems produce. Vote 15-4. Rep. Tony Piemonte for the Minority of Municipal and County Government. This bill allows for property tax relief for revitalization zones. The minority does not disagree with the content of the bill. However, the minority on the committee felt that this type of property tax relief should be studied and considered all at once rather than piece meal.

The question being adoption of the majority committee report of Ought to Pass.

Rep. Sylvia requested a roll call; sufficiently seconded.

and the majority committee report was adopted and the bill was ordered to third reading.

SB 26, relative to roads within the Woodsville Fire District. **OUGHT TO PASS.**

Rep. David Milz for Public Works and Highways. The town of Haverhill and the Woodsville Fire District have had a long standing issue over the distribution of highway funds for the maintenance of eight miles of precinct roads since at least 1990. In March of 1990, HB 1138 was passed at the request of the Woodsville Fire District and the state became involved in setting a formula for fund distribution. Since that time there have been numerous memorandums of understanding negotiated between the two parties to adjust the formula as well as both successful and unsuccessful attempts to change the legislation to alter the formula. This bill modifies the law on funding to remove the state's participation and returns negotiations to local control. The committee made an effort to retain the bill to possibly try and work out an agreement between the two parties, but soon realized that the proper way to move forward was to remove any legislative involvement and to return control to both of the local parties involved. Vote 18-3.

The question being adoption of the committee report of Ought to Pass.

Rep. Ladd offered floor amendment (1803h).

Floor Amendment (1803h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to the Woodsville fire district.

Amend the bill by replacing all after the enacting clause with the following:

1 Town of Haverhill; Woodsville Fire District. Amend 1887, 204:3, as amended by 1899, 196:2; 1990, 37:1; and 2009, 147:1 to read as follows:

SECT. 3. Said district at each annual meeting shall elect by ballot a moderator, a clerk, one auditor, a treasurer, and three commissioners. All of said officers shall be elected by a majority vote of all the voters present and voting at the annual meeting. Said officers shall exercise in relation to district meetings the like powers to those of moderator, clerk, and selectmen of towns. The commissioners shall have within the district all the powers of the mayor and aldermen of any city respecting highways, sidewalks, and sewers. They shall control

and direct the expenditure of all moneys raised under authority of the district and by the town of Haverhill for expenditure in the district. They shall have sole authority to appoint a highway surveyor in said district, and in default of such appointment shall themselves perform the duties of that office. The surveyor or commissioners performing the duties of highway surveyor in the district shall give bond to the town to account for all money coming into their hands, and for the proper care and custody of the property of the town or district which may come into their custody or control, and shall be deemed officers of the town. Nothing in this act shall be construed to impose any distinct or special liability upon the district respecting highways within its limits. Vacancies that may occur in the office of commissioner in the district shall be filled by appointment of the remaining commissioners or commissioner, but any commissioner appointed to fill a vacancy shall hold office only until the next annual district meeting. Commissioners shall be residents of the district. The money appropriated for the distribution of highway funds in the district which is attributable to the town of Haverhill shall be determined by a fraction, the numerator of which shall be the assessed valuation of the properties in the district, and the denominator of which shall be the assessed valuation of the properties in the entire town of Haverhill as determined annually from the town MS-1 form. The town of Haverhill shall appropriate the percentage *of the net highway operating budget* represented by such fraction for distribution to the highway fund in care of the Woodsville fire district commissioners. ***Highway block grant funds shall be distributed in accordance with the department of transportation formula.***

2 Financial Audit Requirement.

I. No later than one year after the effective date of section 1 of this act, the Woodsville fire district shall provide financial audits by a certified public accountant approved by the department of revenue administration that is compliant with generally accepted accounting practices (GAAP), of all funds received from the town of Haverhill and all other sources including state and federal funds, and of all funds expended by the fire district, for each calendar year commencing January 1, 2015 to the effective date of section 1 of this act, as directed by the department of revenue administration. The department of revenue administration shall approve the scope of the audit and shall receive monthly updates from the certified public accountant and the Woodsville fire district on the status of the audit while it is in progress. The results of the audit shall be published on the town of Haverhill website within 60 days of delivery by the certified public accountant to the Woodsville fire district and the department of revenue administration. The audit shall be at the expense of the Woodsville fire district. Reimbursement of any expenses related to the audit incurred by the department of revenue administration shall be in accordance with the provisions of RSA 21-J:22.

II. The board of selectmen and the board of commissioners may amend the highway budget distribution formula to properly implement this act. To become effective, an agreement or memorandum of understanding shall require majority support from both boards and shall not require approval by legislation adopted by the general court.

III. In this section, "net highway operating budget" means only that portion of the highway operating budget, including the town highway garage, to be raised by general property taxation from all Haverhill property taxpayers regardless of district or precinct based on property values as determined by the town of Haverhill assessment.

3 Effective Date. This act shall take effect upon its passage.

AMENDED ANALYSIS

This bill modifies the law on the operation and funding of the Woodsville fire district and requires a financial audit.

Rep. Ladd spoke in favor.

Rep. Graham spoke against.

On a division vote, with 72 members having voted in the affirmative, and 301 in the negative, floor amendment (1803h) failed.

The question now being adoption of the committee report of Ought to Pass.

Rep. Ladd spoke against.

Rep. Jack spoke in favor.

MOTION TO LAY ON THE TABLE

Rep. Cordelli moved that **SB 26**, relative to roads within the Woodsville Fire District, be laid on the table.

On a division vote, with 62 members having voted in the affirmative, and 303 in the negative, the motion failed.

The question being adoption of the committee report of Ought to Pass.

Committee report adopted and the bill was ordered third reading.

The House recessed at 12:35 p.m.

RECESS

The House reconvened at 1:10 p.m.

(Speaker Packard in the Chair)

REGULAR CALENDAR CONT'D

SB 91, adopting omnibus legislation on renewable energy and utilities. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: OUGHT TO PASS WITH AMENDMENT.**

Rep. Douglas Thomas for the Majority of Science, Technology and Energy. This omnibus bill originally contained five parts. As amended by the committee, it now has four parts, with the original part V, a mirror image of HB 315, deleted. Together, these sections enhance or explore certain renewable energy technologies. Part I modifies the statute governing customer energy storage and provides direction for the Public Utilities Commission (PUC) to adopt rules for the installation, interconnection, and use of energy storage systems by customers. The committee amendment made language changes to give more precise direction to the commission. Part II makes possible net metering for hydroelectric generators who own multiple facilities that each individually qualify for net metering but exceed the one megawatt limit when their facilities use the same connection point to the distribution grid. The committee amendment also added language to statute to provide clarity to the PUC as it deliberates future net metering tariffs by ensuring that no cost shifts shall occur between net metering and non-net metering customers. Part III clarifies that increases in net metering credits for low-income community solar projects applied after July 1, 2021 would affect the rate then in effect and be subsequently grandfathered similarly to other such statutory net metering protections. Lastly, Part IV sought to enable the purchase of the output of limited electrical energy producers in intrastate commerce, which could foster innovation in the community aggregation authority provided in the earlier-passed HB 315. The committee found that the submitted legislation, similar to the earlier-rejected HB 407, lacked clarity as to the mechanics of this process and changed this section of the bill into a study committee, which will determine if new legislation can be offered in the fall of 2021. Vote 11-9.

Rep. Lee Oxenham for the Minority of Science, Technology and Energy. This is an omnibus bill that the minority largely supports. However, the minority cannot accept the amended language proposed for part II, section 2. This language received no public consideration – neither at a public hearing nor any work session in either the originating body or the House. Furthermore, this amendment seeks to amend a section of the law that was not part of this bill as introduced, nor as passed by the Senate, nor in any other bill. Equally importantly, this language would create an entirely new, and unattainable, legal standard for the Public Utilities Commission (PUC), one that goes beyond the well-established principle that electric rates should be “just and reasonable.” This new standard would be unworkable and would stymie the PUC’s three-year effort to develop new net metering rates. The minority believes adopting this bill as currently amended will lead to years of costly litigation and leave the current “rough justice” tariffs in place far longer than was intended, for better or worse.

Majority Amendment (1619h)

Amend the bill by replacing all after the enacting clause with the following:

1 Sponsorship. This act consists of the following proposed legislation:

Part I: LSR 21-0945, relative to the installation, interconnection, and use of energy storage systems by customers of utilities, sponsored by Sen. Watters, Prime/Dist 4; Sen. Perkins Kwoka, Dist 21; Sen. Rosenwald, Dist 13; Sen. Kahn, Dist 10; Sen. Sherman, Dist 24; Sen. D’Allesandro, Dist 20; Sen. Whitley, Dist 15; Rep. Oxenham, Sull. 1.

Part II: relative to hydroelectric generators that share equipment for purposes of interconnection to the electric grid, and requiring the public utilities commission to ensure costs are not shifted in developing alternative tariffs for net energy metering.

Part III: LSR 21-0988, relative to group host credits for net energy metering, sponsored by Sen. Perkins Kwoka, Prime/Dist 21; Sen. Watters, Dist 4; Sen. Sherman, Dist 24; Sen. Whitley, Dist 15; Rep. McWilliams, Merr. 27; Rep. Gourgue, Straf. 25.

Part IV: establishing a commission to study limited electrical energy producers.

2 Legislation Enacted. The general court hereby enacts the following legislation:

PART I

Relative to the installation, interconnection, and use of energy storage systems by customers of utilities.

1 Customer Energy Storage. RSA 374-H is repealed and reenacted to read as follows:

CHAPTER 374-H

CUSTOMER ENERGY STORAGE

374-H:1 Definitions. In this chapter:

I. “Commission” means the public utilities commission.

II. “Bring your own device” means a program for encouraging non-utility owned, and especially retail-customer owned, behind-the-meter energy storage to provide value to the electricity system, particularly

in terms of peak reduction and avoided transmission and distribution costs. Such a program shall provide just and reasonable compensation, as determined by the commission, including actual avoided transmission and distribution costs, to a participating behind-the-meter energy storage system for the value it provides to the electricity system.

III. "Energy storage" means batteries, flywheels, compressed air energy systems, sensible heat storage or any other technology, system, or device capable of taking electricity and storing it as some form of energy the technology, system, or device can either convert back into electricity or use to displace an electrical load at a later time. Such term shall include standalone technologies, systems, and devices, as well as those co-located with or incorporated into a renewable energy source.

IV. "Front-of-meter storage" means any energy storage that is not behind-the-meter storage and may include energy storage constructed, owned, and/or operated by utilities subject to the same use restrictions in RSA 374-G:4, I.

V. "ISO-New England" means the Independent System Operator New England or any successor entity.

VI. "Local network service" means the term as defined in ISO-New England's transmission, markets, and services tariff, section II.

VII. "Non-utility" means any entity that is not a utility that develops, builds, owns, operates, or assists in the operation of one or more energy storage projects, including retail customers that buy behind-the-meter storage installed on their property.

VIII. "Regional network service" means the term as defined in ISO-New England's transmission, markets, and services tariff, section II.

IX. "Renewable energy source" means a Class I, Class II, or Class IV renewable energy source as defined in RSA 362-F:4.

X. "Utility" and "utilities" mean public utilities as defined in RSA 362:2.

XI. "Wholesale electricity markets" means any energy, capacity, or ancillary service market that ISO-New England operates or may operate pursuant to RSA 362-A:2-a.

374-H:2 Customer Energy Storage Systems.

I. The commission shall adopt rules clarifying policy for the installation, interconnection, and use of energy storage systems by customers of utilities, and shall incorporate the following principles into the rules:

(a) It is in the public interest to limit barriers to the installation, interconnection, and use of customer-sited, behind-the-meter energy storage systems in New Hampshire.

(b) New Hampshire's consumers of electricity have a right to install, interconnect, and use energy storage systems on their property, subject to appropriate size and safety requirements established by the commission, without the burden of unnecessary restrictions or regulations and without unduly discriminatory rates or fees, provided that such storage systems conform to local zoning ordinances and building codes.

(c) Utility approval processes and any required interconnection reviews of energy storage systems shall be simple, streamlined, and just and reasonable for all parties.

(d) The commission may approve mechanisms for a utility to compensate a non-utility for just and reasonable costs, as determined by the commission, of any transmission or distribution charges actually avoided because of a non-utility energy storage project, to the extent practicable, based on determinable cost components.

(e) For behind-the-meter storage, the rules or orders shall allow for a bring-your-own-device peak reduction program. The commission may approve mechanisms for a utility to compensate such projects for the value they actually provide including any transmission or distribution costs actually avoided because of the non-utility energy storage project, to the extent practicable based on determinable cost components.

II. Nothing in this section alters or supersedes either:

(a) The principles of net energy metering under RSA 362-A:9; or

(b) Any existing electrical permit requirements or any licensing or certification requirements for installers, manufacturers, or equipment.

374-H:3 Commission Investigation of Energy Storage.

I. The commission shall investigate ways to enable energy storage projects to receive compensation for avoided transmission and distribution costs, including avoided regional and local network service charges, while also participating in wholesale energy markets. The commission shall investigate how this might be done for both utility-owned and non-utility-owned energy storage projects, as well as for both behind-the-meter storage and front-of-the-meter storage.

II. The commission's investigative proceeding shall specifically consider the following:

(a) How public policy can best establish accurate and efficient price signals for energy storage projects that avoid actual transmission and distribution costs or reduce wholesale electricity market prices.

(b) How to compensate energy storage projects that participate in wholesale electricity markets for actual avoided transmission and distribution costs in a manner that provides net savings to consumers.

(c) How best to encourage both utility and non-utility investments in energy storage projects.

(d) The costs and benefits of a potential bring your own device program; how such a program might be implemented; any statutory or regulatory changes that might be needed to create, facilitate, and implement such a program; and whether such a program should include all distributed energy resources or be limited to distributed energy storage projects.

(e) Any statutory changes the general court should implement, including but not limited to changes to or exceptions from RSA 374-F or RSA 374-G, to enable energy storage projects to receive appropriate compensation for actual avoided transmission and distribution costs while also participating in wholesale energy markets.

(f) Any other topic the commission reasonably believes it should consider in order to diligently conduct the proceeding.

III. The commission shall report its findings and recommendations to the standing committees of the house of representatives and senate with jurisdiction over energy and utility matters no later than 2 years after initiating the proceeding. The report shall identify ways any recommended statutory changes can minimize any potential conflict with the restructuring policy principles of RSA 374-F.

2 Distributed Energy Resources; Definitions; Exclusions. Amend RSA 374-G:2 to read as follows:
374-G:2 Definitions; Exclusions.

I. The following definitions shall apply in this chapter except as otherwise provided:

(a) "Commission" means the public utilities commission.

(b) "Distributed energy resources" means **energy storage**, electric generation equipment[,] including clean and renewable generation, [energy storage,] energy efficiency, demand response, load reduction or control programs, [and] **or** technologies or devices located on or interconnected to the local electric distribution system for purposes including but not limited to reducing line losses, supporting voltage regulation, or peak load shaving, as part of a strategy for minimizing transmission and distribution costs as provided in RSA 374-F:3, III.

(c) "**Electric generation equipment**" means devices that produce electric power from sources of primary energy.

(d) "**Primary energy**" means an energy form found in nature that has not been subject to any human engineered conversion process including wind energy, solar energy, biomass, biofuels, geothermal energy, oil, natural gas, nuclear, hydro, and coal.

II.(a) "Distributed energy resources" in this chapter shall exclude electric generation equipment interconnected with the local electric distribution system at a single point or through a customer's own electrical wiring that is in excess of 5 megawatts.

(b) Any "**electric generation equipment**" that qualifies as energy storage as defined in RSA 374-H:1, III shall not be subject to any of the requirements of RSA 374-G:3.

3 Electric Generation Equipment Funded by Public Utility; Distributed Energy Resources. Amend RSA 374-G:3, I to read as follows:

I. The energy produced by electric generation equipment owned by the public utility shall be used **to benefit low-income customers, with such benefit as determined by the commission**, as an offset to distribution system losses or the public utility company's own use, **or any other use as approved by the commission**;

4 Electric Utility Investment in Distributed Energy Resources. Amend RSA 374-G:4, II to read as follows:

II. Distributed electric generation owned by or receiving investments from an electric utility under this section shall be limited to a cumulative maximum in megawatts of 6 percent of the utility's total distribution peak load in megawatts. **This limitation shall not apply to front-of-meter energy storage, the energy storage pilot approved by commission order number 26,209, or demand response.**

5 Effective Date. Part I of this act shall take effect 60 days after its passage.

PART II

Relative to hydroelectric generators that share equipment for purposes of interconnection to the electric grid, and requiring the public utilities commission to ensure costs are not shifted in developing alternative tariffs for net energy metering.

1 New Paragraph; Limited Electrical Energy Producers Act; Net Energy Metering. Amend RSA 362-A:9 by inserting after paragraph XIX the following new paragraph:

XX. A hydroelectric generator with a total peak generating capacity that is at or below the capacity eligibility requirements set forth in RSA 362-A:1-a, II-b and that first became operational before July 1, 2021 and that shares equipment or facilities with other generators or electric utility customers for interconnection to the electric grid, shall be eligible to participate in net energy metering as a customer-generator even if the aggregate capacity of the generators sharing equipment or facilities for interconnection to the electric grid exceeds the capacity eligibility requirements set forth in RSA 362-A:1-a, II-b. Such a hydroelectric generator shall be eligible to participate in net energy metering as a customer-generator based on its individual total peak generating capacity.

2 Limited Electrical Energy Producers Act; Net Energy Metering; Alternative Tariffs. Amend RSA 362-A:9, XVI to read as follows:

XVI. No later than 3 weeks after the effective date of this paragraph, the commission shall initiate a proceeding to develop new alternative net metering tariffs, which may include other regulatory mechanisms and tariffs for customer-generators, and determine whether and to what extent such tariffs should be limited in their availability within each electric distribution utility's service territory. In developing such alternative tariffs and any limitations in their availability, the commission shall consider: ***balancing the interests of customer-generators with those of electric utilities and ratepayers to ensure that, except for minimal allowances for metering and billing, other customers do not shift costs to customer generators and customer generators do not shift costs to other customers***; the costs and benefits of customer-generator facilities; ~~[an avoidance of unjust and unreasonable cost shifting]~~; rate effects on all customers; alternative rate structures, including time-based tariffs pursuant to paragraph VIII; whether there should be a limitation on the amount of generating capacity eligible for such tariffs; the size of facilities eligible to receive net metering tariffs; timely recovery of lost revenue by the utility using an automatic rate adjustment mechanism; and electric distribution utilities' administrative processes required to implement such tariffs and related regulatory mechanisms. The commission may waive or modify specific size limits and terms and conditions of service for net metering specified in paragraphs I, III, IV, V, and VI that it finds to be just and reasonable in the adoption of alternative tariffs for customer-generators. The commission may approve time and/or size limited pilots of alternative tariffs.

3 Effective Date. Part II of this act shall take effect 60 days after its passage.

PART III

Relative to group host credits for net energy metering.

1 Net Metering; Group Host; Low -Moderate Income Community Solar Projects. Amend RSA 362-A:9, XIV(c) to read as follows:

(c)(1) Notwithstanding paragraph V, a group host shall be paid for its surplus generation at the end of each billing cycle at rates consistent with the credit the group host receives relative to its own net metering under either subparagraph IV(a) or (b) or alternative tariffs that may be applicable pursuant to paragraph XVI. Alternatively, a group host may elect to receive credits on the customer electric bill for each member and the host, with the utility being allowed the most cost-effective method of doing so according to an amount or percentage specified for each member on PUC form 909.09 (Application to Register or Re-register as a Host), along with a 3 cent per kwh addition from July 1, 2019 through July 1, 2021 and a 2.5 cent per kwh addition thereafter for low-moderate income community solar projects, as defined in RSA 362-F:2, X-a. ***The cent per kwh addition to the credit provided to any particular low-moderate income community solar project shall be in the amount in effect on the date that the commission issues a group host registration number for that project. The amount of the cent per kwh addition shall be grandfathered in accordance with the grandfathering provisions of the net metering tariff for customer-generators applicable to the project as in effect on the date the commission issues the project a group host registration number.***

(2) On or before July 1, 2022, the commission shall report on the costs and benefits of such an addition and the development of the market for low-moderate income community solar projects, and provide a recommendation on whether the addition shall be increased or decreased. The commission shall report on the costs and benefits of low-moderate income community solar projects, as defined in RSA 362-F:2, X-a on or before June 1, 2020. The commission shall authorize at least 2 new low-moderate income community solar projects, as defined in RSA 362-F:2, X-a, each year in each utility's service territory beginning January 1, 2020. On an annual basis, for all group host systems except for residential systems with an interconnected capacity under 15 kilowatts, the electric distribution utility shall calculate a payment adjustment if the host's surplus generation for which it was paid is greater than the group's total electricity usage during the same time period. The adjustment shall be such that the resulting compensation to the host for the amount that exceeded the group's total usage shall be at the utility's avoided cost or its default service rate in accordance with subparagraph V(b) or paragraph VI or alternative tariffs that may be applicable pursuant to paragraph XVI. The utility shall pay or bill the host accordingly.

2 Effective Date. Part III of this act shall take effect 60 days after its passage.

PART IV

Establishing a commission to study limited electrical energy producers.

1 New Section; Public Utilities; Commission to Study Limited Electrical Energy Producers. Amend RSA 362-A by inserting after section 3 the following new section:

362-A:3-a Commission to Study Limited Electrical Energy Producers. There is established a commission to study intrastate wholesale electricity sales.

I. The commission shall consist of the following members:

(a) Three members of the house science technology and energy committee, with at least one member of the minority party, appointed by the speaker of the house of representatives.

(b) One member of the senate energy and natural resources committee, appointed by the president of the senate.

(c) One member who is either as initially appointed from the public utilities commission by the chairperson of the public utilities commission or is appointed by the commissioner of the newly established department of energy if it becomes law.

II. Legislative members of the commission shall receive mileage at the legislative rate when attending to the duties of the commission.

III. The commission may solicit input from any person or entity the commission deems relevant to its study, including transmission and distribution utilities, and ISO-New England.

IV. The commission shall examine the feasibility of legislation amending RSA 362-A (limited electrical energy producers or LEEP) to facilitate intrastate wholesale electricity sales and determine if such sales provide a way to fill the gap between one- and 5-megawatt electricity sales outside of ISO-New England markets. The commission shall seek to answer several major questions:

(a) Do LEEP sales avoid jurisdictional conflicts with FERC regulated transmission transactions?

(b) Does crediting LEEP generators with avoided transmission costs shift such costs to either a transmission utility, which could then increase its rates to recover said costs, or to distribution ratepayers?

(c) Do the transmission and distribution grids overlap in ways that make calculating avoided transmission charges possible?

(d) Do transmission rates increase to cover credits in LEEP transactions?

(e) What kinds of transactions will legislation enable that cannot be achieved today?

(f) What other issues could affect this legislation?

V. The members of the commission shall elect a chairperson from among the members. The first meeting of the commission shall be called by the first-named house member. The first meeting of the commission shall be held within 30 days of the effective date of this section. Three members of the commission shall constitute a quorum.

VI The commission shall make a report with its findings and any recommendations for proposed legislation on or before November 1, 2021 to the speaker of the house of representatives, the president of the senate, the house clerk, the senate clerk, the governor, and the state library.

2 Prospective Repeal. RSA 362-A:3-a, relative to the commission to study limited electrical energy producers, is repealed.

3 Effective Date.

I. Section 2 of Part IV of this act shall take effect November 1, 2021.

II. The remainder of this Part shall take effect upon its passage.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. The installation, interconnection, and use of energy storage systems by customers of utilities.

II. Hydroelectric generators that share equipment for purposes of interconnection to the electric grid, and requiring the public utilities commission to ensure costs are not shifted in developing alternative tariffs for net energy metering.

III. Group host credits for net energy metering.

IV. Establishing a commission to study limited electrical energy producers.

On a division vote, with 364 members having voted in the affirmative, and 2 in the negative, the majority committee amendment was adopted.

The question now being adoption of the majority committee report of Ought to Pass with Amendment.

Rep. Oxenham offered floor amendment (1808h).

Floor Amendment (1808h)

Amend section 1, Sponsorship, by replacing Part II with the following:

Part II: relative to hydroelectric generators that share equipment for purposes of interconnection to the electric grid.

Amend Part II of the bill by deleting section 2 and renumbering the original section 3 to read as 2.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. The installation, interconnection, and use of energy storage systems by customers of utilities.

II. Hydroelectric generators that share equipment for purposes of interconnection to the electric grid.

III. Group host credits for net energy metering.

IV. Establishing a commission to study limited electrical energy producers.

Rep. Oxenham spoke in favor.

Rep. Harrington spoke against.

On a division vote, with 174 members having voted in the affirmative, and 194 in the negative, floor amendment (1808h) failed.

The question being adoption of the majority committee report of Ought to Pass with Amendment. On a division vote, with 364 members having voted in the affirmative, and 3 in the negative, the majority committee report was adopted and the bill was ordered to third reading.

SB 3-FN, clarifying the tax treatment of federal Paycheck Protection Program loans. **OUGHT TO PASS.** Rep. Patrick Abrami for Ways and Means. This bill changes the tax treatment, under the New Hampshire business profits tax (BPT) statutes, of income created by the forgiveness of loans issued as a result of the federal Paycheck Protection Program (PPP). New Hampshire is not a conforming state to federal law changes, meaning that New Hampshire tax laws do not automatically change to reflect federal law without action by the NH legislature. This bill, if passed, will place NH in conformity with federal law, thus treating all income from the forgiven PPP loans as not taxable under the NH BPT statutes. If this bill does not pass, all PPP loans that the Small Business Administration (SBA) forgives, based upon the authority given it by the federal PPP statute, will be considered taxable income under current NH BPT law, even though at the federal level that same income would not be taxable. Whether or not this bill passes, all tax liabilities under the NH Business Enterprise Tax (BET) remain unchanged. Also, in either case, all salaries and other expenses paid for by the PPP program, may be deducted as business expenses. The committee heard much testimony from the business community indicating that the PPP program was a relief program designed to aid businesses to survive the ravages of an economy being temporarily slowed in NH, and the country, to allow time to fight the spread of the COVID-19 virus. As of this report writing, the PPP program helped 41,173 NH businesses by loaning them \$3.7 billion, most of which is estimated to be forgiven. The argument was simple; why would NH tax revenues from a relief program? The committee took time to understand the ramifications on NH business tax revenues. Working with the Department of Revenue Administration (DRA), it was estimated that passing this bill would reduce BPT revenues by \$99.4 million. As of the writing of this report, NH business tax revenues have exceeded budget estimates by \$173.7 million, with approximately one month to go in the fiscal year. The revenue surplus this 2021 fiscal year more than covers the lost revenue caused by the passage of this bill. After much fact finding and discussion, the committee concluded that it was in the best interest of NH businesses, and thus the NH economy, to recommend passage of this bill. This action will help strengthen many NH businesses as they struggle to fully recover from an economy that was intentionally slowed by government to allow the needed time to eradicate the negative health effects of the COVID-19 pandemic. Not taxing relief funds is a way in which the NH government can help its businesses fully recover from a downturn in business levels not caused by business, but by the necessary action of government to ensure the health of all its citizens. Vote 23-0. Committee report adopted and the bill was ordered to third reading.

SB 27, relative to the sale of lucky 7 tickets. **MAJORITY: OUGHT TO PASS WITH AMENDMENT. MINORITY: INEXPEDIENT TO LEGISLATE.**

Rep. Patrick Abrami for the Majority of Ways and Means. This bill is largely a housekeeping bill filed for the Lottery Commission that has four sections as well as an amendment suggested by the Lottery Commission during committee work sessions. First, the bill changes the term of a charitable gaming license from 12 months from issue to annually expiring on December 31. The majority of the committee agreed this would streamline the charitable gaming licensing process. Second, it makes identical the definition of what a charitable organization is within both the games of chance statutes and the bingo and Lucky 7 statutes. The major changes to actual content are that the bill changes that a charity must be registered with the Secretary of State for at least two years to one year in both sections of the statutes. In addition, the bill adds to the games of chance statutes a requirement that says a charity must be in existence and organized under the laws of the state for at least one year in a town or city in the state as well as amends the identical language in the bingo and Lucky 7 statutes that already exists by changing the two years to one year. The majority of the committee felt that these changes were a positive step forward in unifying these related statutes. Third, the bill corrects a long-standing error in the pari-mutuel pool statutes within RSA 284:22 which nine times refers to the "lottery commission" when it should have read just "commission." In this context "commission" means earnings. These were clearly content errors that needed to be fixed. Fourth, the meaning of a "deal" within Lucky 7 is a single game of uncirculated Lucky 7 tickets bearing a serial number. This was a less clumsy way of defining a Lucky 7 deal. The amendment suggested by the Lottery Commission gives them flexibility to issue a waiver to an organization doing charitable work that may not fit within the current definitions. The majority of the committee felt that the waiver requirements were strict enough to ensure the exception to the rule cannot be abused. Vote 23-1.

Rep. Susan Almy for the Minority of Ways and Means. This bill merges existing bingo and charitable gaming language, expanding the reach of charities able to sponsor the latter's games, and continuing confusing language as to the definition of a charity that the committee hopes will be studied by one of the bills passed to set up a charitable gaming study committee this term. The last section contradicts language in another bill sent to the committee from the Senate which is also being passed. The legislature this term has passed a bill to expand charitable gaming into the most addictive form of gaming, and consideration of its regulation should have awaited the results of the study committee. The bill should have been retained, but that motion is not allowed here.

Majority Amendment (1236h)

Amend the bill by inserting after section 5 the following and renumbering the original section 6 to read as 7: 6 New Paragraph; Charitable Organization; Waiver. Amend RSA 287-D:6 by inserting after paragraph V the following new paragraph:

VI. An applicant who does not meet the definition of a charitable organization as set forth in RSA 287-D:1, IV may apply to the executive director of the lottery commission for a waiver of these requirements if it can establish the following:

(a) The organization was established with the charitable trusts unit of the attorney general's office, and has been in existence for a period of at least 2 years prior to the application;

(b) The charitable works of the organization take place primarily in the state of New Hampshire; and

(c) All charitable gaming revenue raised by the organization will be used to benefit the state of New Hampshire and its residents.

Majority committee amendment adopted.

Majority committee report adopted and the bill was ordered to third reading.

SB 101-FN, increasing the minimum gross business income required for filing a business profits tax return. OUGHT TO PASS WITH AMENDMENT.

Rep. Jordan Ulery for Ways and Means. This bill, as amended, raises the filing threshold for the business profits tax from the current \$50,000 to \$92,000, the equivalent amount after 28 years of inflation. The amendment further enters language mirroring the existing biennial inflation adjustments to the business enterprise tax so as to protect smaller businesses from being "bumped" into a higher tax bracket without consideration for a lower dollar value. The Department of Revenue Administration (DRA) reported 6,169 filers as of tax year 2018 being forced by law to file a return but owing no tax liability. Enacting this bill at this time would lessen the impact on state revenues and soften the blow of estimated revenue losses when a decades-delayed adjustment is made to a threshold. Because of the time interval, the bill is estimated by the DRA to cost \$2.6 million based on 2018 revenues. This bipartisan bill, as amended, reduces the needless filings, raises the threshold to what it would be if this had been in place for years, and establishes an ongoing, biennial, inflation review. Thus, it helps our smaller businesses and the department by reducing unnecessary accountancy work. Vote 24-0.

Amendment (1367h)

Amend the bill by replacing all after the enacting clause with the following:

1 Minimum Gross Business Income for Filing Business Profits Tax Return. Amend RSA 77-A:6, I and I-a to read as follows:

I. Every business organization having gross business income in excess of [~~\$50,000~~] **\$92,000** as defined by RSA 77-A:1, VI, during the taxable period, shall on or before the fifteenth day of the third month in the case of organizations required to file a United States partnership tax return, and the fifteenth day of the fourth month in the case of all other business organizations, following expiration of its taxable period, make a return to the commissioner. ***For tax years beginning January 1, 2023, the commissioner shall biennially adjust this threshold amount rounding to the nearest \$1,000 based on the 2-year (24-month) percentage change in the Consumer Price Index for All Urban Consumers, Northeast Region as published by the Bureau of Labor Statistics, United States Department of Labor using the amount published for the month of June in the year prior to the start of the tax year.*** The commissioner [~~of revenue administration~~] shall adopt rules, pursuant to RSA 541-A, relative to the form of such return and the data which it must contain for the correct computation of taxable business profits and gross business income attributable to this state and the tax assessed on it. All returns shall be signed by the taxpayer or by its authorized representative, subject to the pains and penalties of perjury.

I-a. Every business organization realizing a gain or loss on the sale or exchange of an interest in the business organization shall file a return for the taxable period, regardless of whether or not the business organization's gross business income is in excess of [~~\$50,000 during the taxable period~~] ***the threshold amount determined under paragraph I.***

2 Applicability. The provisions of this act shall apply for taxable periods ending on or after December 31, 2022.

3 Effective Date. This act shall take effect July 1, 2021.

AMENDED ANALYSIS

This bill increases the minimum gross business income required for filing a business profits tax return and biennially adjusts this threshold based on the Consumer Price Index.

Committee amendment adopted.

Committee report adopted and the bill was ordered to third reading.

BILLS REMOVED FROM THE CONSENT CALENDAR

SB 146-FN, adopting omnibus legislation relative to the environment. OUGHT TO PASS WITH AMENDMENT. Rep. Andrew Renzullo for Resources, Recreation and Development. This bill is a seven part omnibus bill containing legislation relative to the environment. Part one of this bill establishes the New Hampshire Coastal

Program within the Department of Environmental Services (DES) in order to implement the Coastal Zone Management Act (U.S.C 16 Section 1452) to assist state and federal agencies and coastal zone municipalities in the sustainable use of resources while considering ecological, cultural, historic, and esthetic values, along with the needs for economic development. The New Hampshire DES coastal program gained federal approval in 1982. However, the program was never authorized under state law. This bill corrects that, thus ensuring federal provisions more closely align with state regulations. This bill also establishes a coastal fund at the state treasury that will be nonlapsing and continually appropriated to DES and allows for the Commissioner of DES to make the rules pertaining to the distribution of funds from the coastal fund for the coastal program. New Hampshire DES supports part one. Part two of this bill extends the deadline for the PFAS firefighting foam take-back program. DES requested and supports the deadline extension based on the current inability to identify appropriate disposal facilities for legacy firefighting foams containing PFAS. Currently, thermal destruction (“incineration”) is the preferred and best available control technology for disposal. However, regulatory, technical, and industry uncertainties relative to foam disposal persist across the country. Thus, very few approved treatment, storage, and disposal facilities are available, and DES has been unable to identify an acceptable facility. In late August 2020, the United States Environmental Protection Agency (EPA) announced a partnership with the Department of Defense (DOD) and state and local partners to identify innovative ways to destroy PFAS in firefighting foam. DES believes that extending the deadline to 2023 would allow for time necessary for EPA and others to resolve technical and regulatory issues, and identify suitable facilities to accept legacy foams for disposal. Part three of this bill concerns the prevention of zoonotic disease transmission. Zoonotic disease can spread from animals to humans, with an estimated three out of four new or emerging diseases being zoonotic in nature. Evidence indicates that many of the worst epidemics and pandemics in recent decades have been zoonotic in origin, including COVID-19, Ebola virus, avian influenza, swine influenza, and Middle East respiratory syndrome. Wildlife trafficking and trade has been shown to contribute to the transmission and pervasiveness of zoonotic diseases. Part three of this tasks the Fish and Game Department with monitoring available information on animals and fish, not currently restricted under state and federal wildlife trafficking laws, that if transported into the state, will risk zoonotic disease transmission. The department may consult as needed with the Department of Health and Human Services (DHHS), the state veterinarian, and scientific and educational institutions. The department shall make recommendation to the legislature on any legislation or rules needed for import or other restrictions on identified species, and to the Governor if an executive order is deemed necessary. Part three of this bill also lists prohibitions in the operation of live animal markets. No animal shall be offered for sale at a live animal market that is of a taxon (species, family, or class) known or likely to be responsible for zoonotic transmission of a disease. Wildlife species that are identified as known or likely carriers of zoonotic disease shall not be caged, handled, or transported with livestock or domestic animals, and shall not be sold in spaces near livestock or domestic animals. Wildlife species that are identified as known or likely carriers of zoonotic disease shall also not be permitted to be sold in a live animal market or a live wildlife market. In addition to wildlife covered by federal statutes on wildlife trafficking, no bat, rodent, or primate species shall be sold in live animal markets. Part three of this bill also tasks the Department of Agriculture, Markets, and Food to adopt rules governing the storing and sale of animals for live animal markets and live wildlife markets. This part shall not prohibit livestock markets or prohibit the sale or offer for sale of livestock that are currently allowed under New Hampshire law and shall not prohibit seafood or shellfish markets or the sale or offer for sale of seafood or shellfish that are currently allowed under New Hampshire law. Any person who violates this chapter shall be issued a written warning for a first violation. For any subsequent violation, the person shall be guilty of a class B misdemeanor, punishable by a fine of at least \$250, but not exceeding \$1,000. The NH Fish and Game Department supported this bill. Also, the House Fish and Game and Marine Resources Committee participated in the hearing of part three, and recommended amendments and unanimously recommended passage if amendments adopted. Part four clears up red tape in the testing regimen for pollutants discharged into tidal waters. Currently holders of discharge permits from the National Pollution Discharge System monitor fecal coliform levels by a specific laboratory method. Currently, state statutes also require that those tidal waters where shellfish could potentially be harvested are subject to the requirements of the National Shellfish Sanitation Program. Unfortunately, that program accepts a different laboratory method for measuring fecal coliform levels. This bill alleviates the conflict by providing the specific fecal coliform criteria, but does not specify the laboratory method. The bill is supported by DES. Part five establishes the derelict fishing gear and coastal cleanup fund. This bill would make it so any fines collected for littering on beaches, coastal waters, or abandoning fishing gear shall be deposited into the derelict fishing gear and coastal cleanup fund. This section would also create a surcharge ranging from \$10 to \$25 for licenses for lobster and crab fishing, commercial salt water licenses, commercial shrimp licenses and oyster aquaculture licenses. Those who participate in a coastal cleanup program will not be required to pay this fee. It should be noted that representatives of the regulated industry supported the surcharge because it provides a direct benefit to them through the fund. The NH Fish and Game Department Supported the Bill. Also, the House Fish and Game and Marine Resources Committee participated in the hearing of part five, recommended amendments and unani-

mously recommended passage if amendments adopted. Part six makes a technical correction to RSA 483-C:1 regarding the definition of high water mark of public trust shorelands. The NH Supreme Court in *William Purdie vs Attorney General* (1999) overturned the definition of high water mark, changing “the furthest landward limit reached by the highest tidal flow, commonly referred to as the highest spring or highest “syzygy” tide occurring during the 19-year Metonic cycle” to “the average height of all the high waters over a complete tidal cycle commonly referred to as the mean high tide line.” This change brings the state statute into line with the NH Supreme Court Ruling. Part seven is the text of HB 235 (2021), addressing impacts to other water users from new sources of water for community water systems. HB 235 has passed the House and Senate and has an amendment attached for which a committee of conference has been requested. SB 146, being an omnibus bill, had amendments to several parts. The most prominent amendment is the removal of the original contents of Part two. In this bill as amended by the Senate, part two dealt with Establishing a Solid Waste Disposal Reduction Goal. Solid waste is the purview of the Environment and Agriculture Committee. While we proceeded with the hearing of part two, the Solid Waste Reduction Goal, negotiations between the bill’s sponsor and the leadership of the Environment and Agriculture committee produced an amendment to a bill in that committee still in possession of the Senate that mimicked part two of this bill. This made part two of this bill moot. As such, a non-germane amendment, which was heard along with the bill, concerning extending the date for a PFAS firefighting foam take-back program, was moved into the vacant part two slot. In part three, based on the recommendation of the Fish and Game Committee, the word “emergency” was changed to “executive” so that a specific sentence reads “The department shall make recommendation to the legislature on any legislation or rules needed for import or other restrictions on identified species, and to the governor if an executive order is deemed necessary. Rather than...” and to the governor if an emergency order is deemed necessary. In Part five, the bill’s sponsor submitted an amendment simplifying the language of the surcharge sections. Also, based on the recommendation of the Fish and Game Committee, the name of the fund was changed to the “Derelict Fishing Gear and Coastal Cleanup Fund” from the “Derelict Fishing Gear, Coastal Cleanup, and Fishing for Energy Fund.” And finally, part seven was added to protect HB 235 which could be the subject of a committee of conference. Vote 21-0.

Amendment (1573h)

Amend the bill by replacing section 1, Sponsorship, with the following:

1 Sponsorship. This act consists of the following proposed legislation:

Part I. LSR 21-0255, establishing the coastal program administered by the department of environmental services, sponsored by Sen. Watters, Prime/Dist 4; Sen. Gannon, Dist 23; Sen. Gray, Dist. 6; Sen. Sherman, Dist 24; Sen. Perkins Kwoka, Dist 21; Rep. Edgar, Rock 21; Rep. Spang, Straf 6.

Part II. Extending the deadline for the PFAS firefighting foam take-back program.

Part III. LSR 21-0926, relative to the prevention of zoonotic disease transmission, sponsored by Sen. Watters, Prime/Dist 4; Sen. Sherman, Dist 24; Sen. Bradley, Dist 3; and Rep. Bixby, Straf 17.

Part IV. LSR 21-0927, relative to tidal waters, sponsored by Sen. Watters, Prime/Dist 4; Sen. Sherman, Dist 24; Sen. Perkins Kwoka, Dist 21; Rep. Cushing, Rock 21; and Rep. Simpson, Rock 36.

Part V. LSR 21-0823, establishing a surcharge on certain saltwater licenses and establishing a fund for derelict fishing gear and coastal cleanup, sponsored by Sen. Watters, Prime/Dist 4; Sen. Perkins Kwoka, Dist 21; Sen. Sherman, Dist 24; and Rep. Spang, Straf 6.

Part VI. LSR 21-1062, relative to public use of coastal shorelands, sponsored by Sen. Sherman, Prime/Dist 24; Sen. Soucy, Dist 18; Rep. Murray, Rock 24; and Rep. Cushing, Rock 21.

Part VII. HB 235, addressing impacts to other water users from new sources of water for community water systems, sponsored by Rep. M. Pearson, Rock 34; Rep. Guthrie, Rock 13; Rep. Green, Rock 13; Rep. Welch, Rock 13; Rep. Hobson, Rock 35; Rep. Weyler, Rock 13; Rep. Salloway, Straf 5; and Sen. Birdsell, Dist 19

Amend the bill by replacing Part II with the following:

PART II

Extending the deadline for the PFAS firefighting foam take-back program.

1 Extending the Deadline for PFAS Firefighting Foam Take-Back Program. Amend RSA 154:8-b, VIII to read as follows:

VIII. The department shall survey municipalities throughout the state on the quantitative stock of legacy foams and determine the cost of instituting a take-back program for the purpose of safe and contained disposal. The development and processing of the survey shall be subject to rules adopted by the commissioner of the department of environmental services pursuant to RSA 541-A. On or before December 1, 2020, the department shall submit a report of its findings and any recommendations for proposed legislation to the president of the senate, the speaker of the house of representatives, the senate clerk, the house clerk, the governor, and the state library. Beginning on July 1, [2021] **2023**, the department shall institute a take-back program of legacy foams for the purpose of safe and contained disposal.

2 Effective Date. Part II of this act shall take effect upon its passage.

Amend Part III of the bill by replacing section 2 with the following:

2 New Section; Prohibited Import of Animals and Fish; Risk of Zoonotic Disease Transmission. Amend RSA 207 by inserting after section 14-a the following new section:

207:14-b Prohibited Import of Animals and Fish; Risk of Zoonotic Disease Transmission. The fish and game department shall monitor available information on animals and fish, not currently restricted under state and federal wildlife trafficking laws, that if transported into the state, will risk zoonotic disease transmission. The department may consult as needed with the department of health and human services, the state veterinarian, and scientific and educational institutions. The department shall make recommendation to the legislature on any legislation or rules needed for import or other restrictions on identified species, and to the governor if an executive order is deemed necessary.

Amend the bill by replacing Part V with the following:

PART V

Establishing a surcharge on certain saltwater licenses and establishing a fund for derelict fishing gear and coastal cleanup.

1 New Subparagraph; Application of Receipts; Derelict Fishing Gear and Coastal Cleanup Fund Established. Amend RSA 6:12, I(b) by inserting after subparagraph (364) the following new subparagraph:

(365) Moneys deposited into the derelict fishing gear and coastal cleanup fund established in RSA 211:77.

2 New Paragraph; Litter Control Law; Penalties. Amend RSA 163-B:4 by inserting after paragraph I the following new paragraph:

I-a. Any fines collected under this section for littering in coastal waters or beaches and for abandoning fishing gear shall be credited to the derelict fishing gear and coastal cleanup fund established in RSA 211:77.

3 New Paragraph; Lobsters and Crabs; Surcharge Added. Amend RSA 211:18 by inserting after paragraph III-b the following new paragraph:

III-c. The executive director shall establish a surcharge on each class of license issued under paragraph III-a of not more than \$25 nor less than \$10 to be deposited in the derelict fishing gear and coastal cleanup fund, established in RSA 211:77, and shall adopt rules for implementing and collecting the surcharge. Any person who satisfactorily demonstrates to the executive director that he or she is participating in a coastal cleanup program shall not be required to pay the surcharge. The executive director shall adopt rules pursuant to RSA 541-A to determine satisfactory participation in a coastal cleanup program and to account for licensees who are exempt from the surcharge each year.

4 Nonresident Commercial Salt Water License; Surcharge Added. Amend RSA 211:49-a, II to read as follows:

II. The fee for an annual license shall be set by the executive director pursuant to RSA 206:10, I. The license shall be for the operator of the boat, vessel, flotation device, or gear, and helpers; provided, however, that helpers shall not be allowed for the taking of sea urchins or scallops by diving. ***The executive director shall establish a surcharge on each license issued under this section of not more than \$25 nor less than \$10 to be deposited in the derelict fishing gear and coastal cleanup fund established in RSA 211:77, and shall adopt rules for implementing and collecting the surcharge. Any person who satisfactorily demonstrates to the executive director that he or she is participating in a coastal cleanup program, or the sea urchin or scallop fishery, shall not be required to pay the surcharge. The executive director shall adopt rules pursuant to RSA 541-A to determine satisfactory participation in a coastal cleanup program and to account for licensees who are exempt from the surcharge each year.***

5 Resident Commercial Salt Water License; Surcharge Added. Amend RSA 211:49-b, II to read as follows:

II. The fee for such annual license shall be set by the executive director pursuant to RSA 206:10, I. The license shall be for the operator of the boat, vessel, flotation device, or gear, and helpers; provided, however, that helpers shall not be allowed for the taking of sea urchins or scallops by diving. ***The executive director shall establish a surcharge on each license issued under this section of not more than \$25 nor less than \$10 to be deposited in the derelict fishing gear and coastal cleanup fund established in RSA 211:77, and shall adopt rules for implementing and collecting the surcharge. Any person who satisfactorily demonstrates to the executive director that he or she is participating in a coastal cleanup program, or the sea urchin or scallop fishery, shall not be required to pay the surcharge. The executive director shall adopt rules pursuant to RSA 541-A to determine satisfactory participation in a coastal cleanup program and to account for licensees who are exempt from the surcharge each year.***

6 Aquaculture; Surcharge Added. Amend RSA 211:62-e, II-b to read as follows:

II-b. The executive director shall adopt rules, pursuant to RSA 541-A, for the issuance of 5-year licenses under this section to oyster aquaculture operations in the Great Bay estuary, and the fees, terms, and conditions therefor as authorized under paragraph II-a. ***The executive director shall establish a surcharge on each license issued under this section of not more than \$25 nor less than \$10 to be deposited***

in the derelict fishing gear and coastal cleanup fund established in RSA 211:77, and shall adopt rules for implementing and collecting the surcharge. Any person who satisfactorily demonstrates to the executive director that he or she is participating in a coastal cleanup program shall not be required to pay the surcharge. The executive director shall adopt rules pursuant to RSA 541-A to determine satisfactory participation in a coastal cleanup program and to account for licensees who are exempt from the surcharge each year.

7 New Subdivision; Derelict Fishing Gear and Coastal Cleanup Fund. Amend RSA 211 by inserting after section 76 the following new subdivision:

Derelict Fishing Gear and Coastal Cleanup Fund

211:77 Derelict Fishing Gear and Coastal Cleanup Fund Established. There is hereby established a separate fund to be known as the derelict fishing gear and coastal cleanup fund. The fund shall be administered by the executive director and shall be nonlapsing and continually appropriated to the executive director for the purposes of this section. The executive director shall credit to this fund all federal moneys, state funds appropriated, fines or settlements for derelict fishing gear or other items, and fines for littering in coastal waters or beaches collected under RSA 163-B:4. The executive director may accept and expend all funds, including any gifts, grants, or donations made to the fund. The moneys in the fund shall be used to establish and support new and existing programs to retrieve and dispose of derelict fishing gear, to conduct periodic coastal cleanup programs for the removal of derelict fishing gear and marine trash, and to support recycling efforts for fishing gear and other marine trash. In this section, "derelict fishing gear" means lost, discarded, or abandoned fishing gear.

8 Effective Date.

I. Sections 3-6 of part V of this act shall take effect January 1, 2022.

II. The remainder of part V of this act shall take effect upon its passage.

Amend the bill by inserting after Part VI the following:

PART VII

Addressing impacts to other water users from new sources of water for community water systems.

1 New Section; Small Groundwater Withdrawals. Amend RSA 485-C by inserting after section 25 the following new section:

485-C:26 Groundwater Withdrawals Less than 57,600 Gallons Over Any 24-Hour Period for Community Water Systems. The department shall adopt rules pursuant to RSA 541-A specifying criteria and procedures to ensure a groundwater withdrawal less than 57,600 gallons over any 24-hour period from a new source of water for a community water system as defined by RSA 485:1-a and subject to RSA 485:8 does not cause an unmitigated impact to an existing private water supply well in accordance with RSA 485-C:21, V-c(a) or RSA 485-C:21, V-c(c).

2 Effective Date. Part VII of this act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. Establishing the coastal program administered by the department of environmental services.

II. Establishing a statewide solid waste disposal reduction goal.

III. The prevention of zoonotic disease transmission.

IV. Tidal waters.

V. Establishing a surcharge on certain saltwater licenses and establishing a fund for derelict fishing gear and coastal cleanup.

VI. Public use of coastal shorelands.

VII. Addressing impacts to other water users from new sources of water for community water systems.

Committee amendment adopted.

Committee report adopted and the bill was ordered to third reading.

SB 131-FN, adopting omnibus legislation relative to vehicles, municipal water maintenance certificates, nondriver's picture identification, and firefighter and emergency medical services decals. **OUGHT TO PASS WITH AMENDMENT.**

Rep. Thomas Walsh for Transportation. Part one of the bill would include vehicle chargers funded by the Volkswagen trust settlement and federally funded chargers to the definition of publicly funded chargers in RSA 236:133, III. A committee amendment removes municipal tax relief equal to the value of the chargers and removes the charging station rate design standards as both were considered pre-mature by the majority of the committee. Part two of the bill requires the state police to use a newly formed tow list for the removal of vehicles. The bill includes definitions and requirements to get on the list as well as of removal for just cause. This is a fair way of spreading the opportunities to the towing industry who also supports this. Part three amends RSA 489-C:2 by renaming it the commercial applicator certification option. It clarifies the process for obtaining an individual or subordinate salt application certification under a master certification. The individual and subordinate licenses cost significantly

less than a master license and they are included in the exemption of liability section unless gross negligence can be proven. Part four is a housekeeping item regarding eligibility for obtaining a nondriver I.D. It removes language referring to the defunct “golden granite state discount card” along with minor changes that refer to it. A committee amendment removes a redundant line with no change to the intent of the statute. Part five is also a housekeeping measure. It simply removes the dates that are long past for the roll-out of requiring the boater education certificate for vessels with motors in excess of 25 HP. Part six allows emergency medical services (EMS) personnel to obtain an EMS decal plate. A committee amendment simply adds “leased” vehicles which was missed in drafting. Part seven is a committee amendment that increases the allowable tandem axle weight from 36,000 lbs. to 40,000 lbs. for trucks carrying raw forest products. These are unprocessed logs and wood chips that have not previously been moved off site. The committee heard of the challenges loading these materials in the woods with no scales available. This change more closely aligns with the limits in our neighboring states. Vote 19-0.

Amendment (1536h)

Amend Part VI of the bill by replacing section 1 with the following:

1 Firefighter Decals. Amend RSA 261-B:3-a to read as follows:

261-B:3-a Firefighter *and Emergency Medical Services* Decals.

I. A city or town fire chief may issue a firefighter decal to a full-time or volunteer firefighter employed by the city or town or a retired firefighter. A firefighter decal may only be placed on the multi-use decal plate of a motor vehicle registered and owned or leased by the firefighter.

II. Emergency medical services chiefs and fire chiefs may issue an emergency medical services decal solely to emergency medical services personnel and retired emergency medical services personnel. An emergency medical services decal may only be placed on a multi-use decal plate on a motor vehicle owned and registered or leased by the emergency services personnel.

Committee amendment adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Walsh offered floor amendment (1810h).

Floor Amendment (1810h)

Amend Part I of the bill by deleting sections 3 and 4.

Amend Part IV of the bill by replacing section 1 with the following:

1 Identification Cards; Eligibility. Amend RSA 260:21, I to read as follows:

I. The department shall upon application issue a nondriver’s picture identification card to any resident who[

(a)] is 12 years of age or older and does not possess a driver’s license.

~~[(b) Is disabled and does not possess a driver’s license, or~~

~~(c) Is 65 years of age or older, whether or not said resident possesses a driver’s license.]~~

Amend Part VI of the bill by replacing section 1 with the following:

1 Firefighter Decals. Amend RSA 261-B:3-a to read as follows:

261-B:3-a Firefighter *and Emergency Medical Services* Decals.

I. A city or town fire chief may issue a firefighter decal to a full-time or volunteer firefighter employed by the city or town or a retired firefighter. A firefighter decal may only be placed on the multi-use decal plate of a motor vehicle registered and owned or leased by the firefighter.

II. Emergency medical services chiefs and fire chiefs may issue an emergency medical services decal solely to emergency medical services personnel and retired emergency medical services personnel. An emergency medical services decal may only be placed on a multi-use decal plate on a motor vehicle owned and registered or leased by the emergency services personnel.

Amend the bill by replacing section 1 with the following:

1 Sponsorship. This act consists of the following proposed legislation:

Part I. LSR 21-0839, relative to electric vehicle supply equipment and infrastructure and relative to state motor vehicle fleet management, sponsored by Sen. Watters, Prime/Dist. 4; Sen. Prentiss, Dist. 5; Sen. Sherman, Dist. 24; Rep. P. Schmidt, Straf. 19; Rep. Sykes, Graf. 13.

Part II. LSR 21-0324, relative to removal of abandoned or disabled vehicles by towing, sponsored by Sen. Birdsell, Prime/Dist. 19.

Part III. LSR 21-0523, relative to the municipal winter maintenance certification program, sponsored by Sen. Morse, Prime/Dist. 22.

Part IV. LSR 21-0896, relative to eligibility for the issuance of a nondriver’s picture identification card, sponsored by Sen. Watters, Prime/Dist. 4; Rep. Sykes, Graf. 13.

Part V. LSR 21-0325, relative to certificate of boating safety, sponsored by Sen. Birdsell, Prime/Dist. 19.

Part VI. LSR 21-1055, relative to allowing emergency medical services chiefs and fire chiefs to issue decals for multi-use decal plates, sponsored by Sen. Prentiss, Prime/Dist. 5; Sen. Watters, Dist. 4; Sen. Sherman, Dist. 24; Rep. Merchant, Sull. 4; Rep. Goley, Hills. 8; Rep. McGuire, Merr. 29.

Part VII. Relative to the maximum weight of motor vehicles.

Amend the bill by inserting after Part VI the following new Part:

PART VII

Relative to the maximum weight of motor vehicles

1 Motor Vehicles; Maximum Gross Weight. Amend RSA 266:18-b, III(g) to read as follows:

(g) For a combination of truck-tractor and single semi-trailer with 4 or more axles, the weight on any single axle shall not exceed 22,400 pounds and the weight on any tandem axle shall not exceed 36,000 pounds, and the weight of any tri-axle shall not exceed 54,000 pounds. ***For a combination of truck-tractor and single semi-trailer with 4 or more axles that is carrying raw forestry products, the weight on any tandem axle shall not exceed 40,000 pounds. For purposes of this subparagraph, "raw forestry products" means unprocessed logs and wood chips harvested from forestland, as defined in RSA 227-G:2, VIII, that have not previously been moved off site.***

2 Effective Date. This act shall take effect 60 days after its passage.

AMENDED ANALYSIS

This bill adopts legislation relative to:

I. Electric vehicle supply equipment and infrastructure and relative to state motor vehicle fleet management.

II. Removal of abandoned or disabled vehicles by towing.

III. The municipal winter maintenance certification program.

IV. Eligibility for the issuance of a nondriver's picture identification card.

V. Certificate of boating safety.

VI. Allowing emergency medical services chiefs and fire chiefs to issue decals for multi-use decal plates.

VII. The maximum weight of motor vehicles.

Rep. Walsh spoke in favor.

MOTION TO DIVIDE

Rep. Sylvia moved that Part VII be divided from floor amendment (1801h).

Rep. Sylvia requested a roll call; sufficiently seconded.

and the committee report was adopted and the bill was ordered to third reading.

SB 103-FN, relative to nexus provisions for certain disaster-related or emergency-related work performed in the state. **OUGHT TO PASS.**

Rep. Alan Bershtein for Ways and Means. This bill waives certain business registration, licensing, and taxation requirements for out-of-state businesses performing work in NH during a declared state of emergency. This narrowly targeted bill will permit out-of-state businesses to focus on emergency restoration of critical utility and communications services during a declared state of emergency. Passage of this bill will enable New Hampshire to join at least 32 other states, including Maine, Vermont, and Connecticut, to streamline emergency infrastructure restoration by allowing out-of-state businesses to bypass onerous licensing and registration requirements so they may promptly restore vital services. Vote 24-0.

The question being adoption of the committee report of Ought to Pass.

Rep. Andrew Bouldin offered floor amendment (1824h).

Floor Amendment (1824h)

Amend the title of the bill by replacing it with the following:

AN ACT relative to nexus provisions for certain disaster-related or emergency-related work performed in the state and prohibiting the siting of a landfill near a state park.

Amend the bill by replacing all after section 1 with the following:

2 New Paragraph; Permit Prohibited Near Certain Parks and Forest Lands. Amend RSA 149-M:9 by inserting after paragraph XIV the following new paragraph:

XV. No permit shall be issued by the department for the siting of a new landfill if any part of the actual solid waste disposal area is proposed to be located within 2 miles of the boundary of any state park. For purposes of this paragraph, "state park" means any state park managed by the state director of the division of parks and recreation pursuant to RSA 216-A:2. "State park" shall not include the state historic sites and recreational rail trails. Nothing in this paragraph shall be construed to prohibit the expansion of any existing landfills.

3 Effective Date.

I. Section 1 of this act shall take effect 60 days after its passage.

II. The remainder of this act shall take effect upon its passage.

AMENDED ANALYSIS

This bill:

I. Waives certain business registration, licensing, and taxation requirements for out-of-state businesses temporarily performing work in New Hampshire during a declared state of emergency.

II. Prohibits the siting of new landfills near state parks.

Rep. Andrew Bouldin spoke in favor.

Rep. Steven Smith spoke against.

On a division vote, with 183 members having voted in the affirmative, and 181 in the negative, floor amendment (1824h) was adopted.

The question now being adoption of the committee report of Ought to Pass with Amendment.

Rep. Burt requested a roll call; sufficiently seconded.

and the committee report was adopted and the bill was ordered to third reading.

MOTION TO SUSPEND HOUSE RULES

Rep. Adjutant moved that House Rules be so far suspended as to allow introduction and consideration at the present time of a bill relative to providing job security for those seeking a COVID-19 vaccine, without the required printing, referral to committee, public hearing and report from committee.

Rep. Adjutant spoke in favor.

Reps. Infantine and Baldasaro spoke against.

Rep. Klein-Knight requested a roll call; sufficiently seconded.

RESOLUTION

Rep. Osborne offered the following: **RESOLVED**, that the House now adjourn from the early session, that the business of the late session be in order at the present time, that the reading of bills be by title only and resolutions by caption only and that all bills ordered to third reading be read a third time by this resolution, and that all titles of bills be the same as adopted, and that they be passed at the present time, and when the House adjourns today it be to meet, Thursday, June 10, 2021 at 10:00 a.m.
Motion adopted.

LATE SESSION

Third Reading and Final Passage

SB 137, relative to the minimum hourly rate for tipped employees.

SB 52, relative to municipal charter provisions for tax caps.

SB 86-FN, adopting omnibus legislation relative to planning and zoning.

SB 102, adopting omnibus legislation on property taxation.

SB 26, relative to roads within the Woodsville Fire District.

SB 91, adopting omnibus legislation on renewable energy and utilities.

SB 3-FN, clarifying the tax treatment of federal Paycheck Protection Program loans.

SB 27, relative to the sale of lucky 7 tickets.

SB 101-FN, increasing the minimum gross business income required for filing a business profits tax return.

SB 146-FN, adopting omnibus legislation relative to the environment.

SB 131-FN, adopting omnibus legislation relative to vehicles, municipal water maintenance certificates, nondriver's picture identification, and firefighter and emergency medical services decals.

SB 103-FN, relative to nexus provisions for certain disaster-related or emergency-related work performed in the state and prohibiting the siting of a landfill near a state park.

UNANIMOUS CONSENT

Rep. Abramson requested Unanimous Consent of the House regarding Black Wall Street and addressed the House.

UNANIMOUS CONSENT

Rep. McGuire requested Unanimous Consent of the House regarding New Hampshire State Songs and addressed the House.

RECESS MOTION

Rep. Osborne moved that the House stand in recess for the purposes of the introduction of bills, vacate motions, enrolled bill amendments, enrolled bill reports, forming committees of conference and receiving messages.
Motion adopted.

The House recessed at 2:30 p.m.

RECESS

(Speaker Packard in the Chair)

SENATE MESSAGES

REQUESTS CONCURRENCE WITH AMENDMENTS

HB 610-FN, requiring certain licensing and reporting functions be conducted through the Nationwide Multi-state Licensing System and Registry, relative to background investigations of trust officers, to certain filing fees, assessments, and interest rates, and to the transmission of consumer complaints by the banking department, requiring employers to provide certain workplace accommodations for employees, establishing the New Hampshire housing and conservation planning program, and relative to the collaborative care model service delivery method. (Amendment printed SJ 6/3/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. Hunt, Potucek, Ammon and Bartlett.

HB 242, relative to the content of an adequate education. (Amendment printed SJ 5/20/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. Ladd, Cordelli, Hobson and Shaw.

HB 278, relative to the use of unused district facilities by chartered public schools. (Amendment printed SJ 5/27/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. Ladd, Cordelli, Boehm and Hill.

HB 199, including soil health and soil conservation in the state soil conservation plan. (Amendment printed SJ 5/20/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. Pearl, Aron, Homola and Bixby.

HB 417, relative to the powers of the governor during a declared state of emergency. (Amendment printed SJ 5/27/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. McGuire, Roy, Tony Lekas and Goley.

HB 187, relative to the emergency powers of the commissioner of health and human services and relative to the membership of the oversight committee on health and human services. (Amendment printed SJ 5/20/21)

Rep. Rice moved that the House nonconcur and request a Committee of Conference.
Motion adopted.

The Speaker appointed Reps. Mark Pearson, Acton, McGuire and Peter Schmidt.

HB 108-FN-L, relative to minutes and decisions in nonpublic sessions; an exemption for items falling within the attorney-client privilege or the attorney work product doctrine under the right-to-know law; and remote access to public meetings under the right-to-know law. (Amendment printed SJ 5/27/21)
