EXPLANATION

Approval of this funding will provide an evidence-based technology-enhanced one-on-one mentoring program for low-income high school students at West High School in Manchester. The program follows a cohort model where by mentors are matched with high school students, typically freshmen, and work with them through a curriculum that builds skills for college and career success. Weekly online communication involves writing activities that discuss professionalism, perseverance, self-advocacy, college financial aid, and career choices. Monthly in-person meetings, sponsored by BBBSNH, will also be held.

This pilot program will be conducted with students who attend West High School in collaboration with New Hampshire GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs), a federally funded program managed by the New Hampshire College and University Council, a federal program funded by the U.S. Department of Education with a mission to significantly increase the number of low-income middle and high school students who are prepared to enter and succeed in post-secondary education.

The funding will support a subaward agreement with the BBBSNH. The \$100,000 per year budget will be used for personnel related costs, including new hires and supporting existing staff implementing the new iMentor platform and related initiatives. The agreement will have a termination date of September 30, 2024, with a three month clean up period.

Funds are being budgeted in the classes listed below as follows:

- Class 029 – Intra-gency Transfers Appropriation to internal program support.
