EXPLANATION

Housing is inextricably linked to the state's economic development goals and is a focus of the state Economic Recovery and Expansion Strategy (ERES). Using ARPA SFRF funds, the Department of Business and Economic Affairs (BEA) will create a small team of housing experts focused on developing and administering ARPA-funded housing initiatives and generally supporting housing development in the state. As part of administering these funds, the staff will work with partners to ensure strategic alignment of ARPA SFRF housing policies, programs, and advocacy efforts across state government, as well as provide technical assistance to state, county, and municipal officials with regard to housing policy.

This team will work to accelerate the implementation of ARPA-funded housing programming, leverage other sources of investment, connect housing policies that underpin ERES, and work with municipalities, developers, regulators and funders to support housing development that would help address the State's housing crisis.
